"Build a better brew by mastering 10 manual methods, from French Press to Chemex, with this comprehensive guide." —Imbibe Magazine Named a top food & drink book of 2017 by Food Network, Wired, Sprudge, and Booklist This comprehensive but accessible handbook is for the average coffee lover who wants to make better coffee at home. Unlike other coffee books, this one focuses exclusively on coffee—not espresso—and explores multiple pour-over, immersion, and cold-brew techniques on 10 different devices. Thanks to a small but growing number of dedicated farmers, importers, roasters, and baristas, coffee quality is at an all-time high. But for nonprofessionals, achieving café quality at home can seem out of reach. With dozens of equipment options, conflicting information on how to use that equipment, and an industry language that, at times, doesn't seem made for the rest of us, it can be difficult to know where to begin. Craft Coffee: A Manual, written by a coffee enthusiast for coffee enthusiasts, provides all the information readers need to discover what they like in a cup of specialty coffee—and how to replicate the perfect cup day after day. From the science of extraction and brewing techniques to choosing equipment and deciphering coffee bags, Craft Coffee focuses on the issues—cost, time, taste, and accessibility—that home coffee brewers negotiate and shows that no matter where you are in your coffee journey, you can make a great cup at home. "Engaging and fun . . . I really can't recommend Craft Coffee: A Manual enough. If you're even mildly curious about brewing coffee at home, it's absolutely worth a read." —BuzzFeed

Freud's Mistress Createspace Independent Publishing Platform

"A thrilling story of seduction, betrayal, and loss, Freud's Mistress will titillate fans of *Memoirs of a Geisha* and *The Other Boleyn Girl*." —Booklist In fin-de-siècle Vienna, it was not easy for a woman to find fulfillment both intellectually and sexually. But many believe that Minna Bernays was able to find both with one man—her brother-in-law, Sigmund Freud. At once a portrait of two sisters—the rebellious, independent Minna and her inhibited sister, Martha—and of the compelling and controversial doctor who would be revered as one of the twentieth century's greatest thinkers, Freud's Mistress is a novel rich with passion and historical detail and "a portrait of forbidden desire [with] a thought-provoking central question: How far are you willing to go to be happy?" * * Publishers Weekly

It is an acknowledged if not accepted fact that all European societies are being fundamentally transformed, and indeed perceptively unsettled, by increased migrations across nations and by the asserted presence of established minorities within their borders. The scale and speed at which these transformations have taken place have brought in their wake considerable social impacts and no small measure of fear and anxiety. Encounters with such diversity are part and parcel of the social work task, and learning how to negotiate them should be a de facto aspect of the training and continuous professional development of social workers and other social professions. However, the moral and political dimensions of the role, scope and nature of the social work task in responding appropriately to these changed and changing realities are rather more contested. This volume addresses many dimensions of the response to issues of race and ethnicity in social work practice in Europe. It extends the debates on inter-cultural and race equality practice in social work through a stimulating and innovative collection of contributions. This book was originally published as a special issue of the *European Journal of Social Work*.

A how-to-draw book, with over 100 animals and objects! Death and Dying in America BookCaps Study Guides This engaging new book takes a fresh approach to the major topics surrounding the processes and rituals of death and dying in the United States. It emphasizes individual experiences and personal reactions to death as well as placing mortality within a wider social context, drawing on theoretical frameworks, empirical research and popular culture. Throughout the text the authors highlight the importance of two key factors in American society which determine who dies and under what circumstances: persistent social inequality and the American consumerist ethic. These features are explored through a discussion of topics ranging from debates about euthanasia to deaths resulting from war and terrorism; from the death of a child to

children ' s experience of grieving and bereavement; and from beliefs about life after death to more practical issues such as the disposal of the dead body. Drawing on sociological, anthropological, philosophical, and historical research the authors present the salient features of death and dying for upper-level students across the social sciences. For anyone interested in learning more about the end of life, this book will provide a useful and accessible perspective on the uniquely American understanding of death and dying.
