Achtung-Panzer! Houghton Mifflin Harcourt

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

"There is usually a fine line between genius and insanity, but in this case it has become very blurred. Some of the funniest and most clever writing I have read in years." (Terrance Fielding, WIRED magazine) "I laughed so hard and uncontrollably I could hardly breathe. Reading this on public transport is not a good idea." (Penthouse magazine) "Brilliantly funny." (Jezebel.com) From the notorious Internet troublemaker who brought the world the explosively popular "Next Time I'll Spend the Money on Drugs Instead", in which he attempted to pay his chiropractor with a picture he drew of a spider; "Please Design a Logo for Me. With Pie Charts. For Free," which has been described as one of the most passed-on viral e-mails of all time; and, most recently, the staggeringly popular "Missing Missy", which has appeared everywhere from The Guardian to Jezebel to Andrew Sullivan's The Daily Dish, comes this profoundly funny collection of irreverent Internet mischief and comedy. Featuring all of Thorne's viral success, including "Missing Missy", The Internet Is a Playground culls together every article and e-mail from Thorne's wildly popular website 27bslash6.com, as well as enough new material, available only in these pages, to keep you laughing-and, indeed, crying-until Thorne's next stroke-of-genius prank. Or hilarious hoax. Or well-publicized almost-stint in jail (really).

DISCOVER THE ADHD SOLUTION FOR YOUR CHILD Dr. James Greenblatt has seen thousands of children and adults struggling with the symptoms of ADHD — hyperactivity, inattentiveness, impulsiveness, and often irritability and combativeness. Rather than simply prescribing medication for their ADHD symptoms, he tailors remedies to his patients' individual needs, detecting and treating the underlying causes of the disorder. Finally Focused provides proven natural and medical methods to easily treat problems such as nutritional deficiencies or excesses, dysbiosis (a microbial imbalance inside the body), sleeping difficulties, and food allergies, all of which surprisingly can cause or worsen the symptoms of ADHD. Using Dr. Greenblatt's effective Plus-Minus Healing Plan, parents will first understand the reasons behind their child's symptoms, and then be able to eliminate them by addressing the child's unique pattern of biological weakness. Adults with ADHD can do the same for themselves. And if conventional medication is still necessary, this integrative approach will minimize or even eliminate troublesome side effects. Using Dr. Greenblatt's expert advice, millions of children and adults with ADHD finally

will get the help they need to achieve true wellness.

As long as people have played games, there has been a temptation to win (or intentionally lose) by cheating. Infamous cases throughout the history of sport abound, from the "thrown" 1919 World Series to the recent doping confessions of track star Marion Jones. In this entertaining and informative book, sports historian Fran Zimniuch recalls the notorious scandals that have tainted our most popular sports, concluding that such incidents are often a reflection of the times. Benefiting from personal interviews with many figures either involved in or on the periphery of recent scandals, including BALCO's Victor Conte, Crooked presents a pageant of infamy as rich as the history of modern sports itself.

An important part of the Dutch national treasure of early printed books from before 1801 on military and related subjects is kept in military libraries and collections. This catalogue contains 10,000 books in twelve different languages dated 1500 – 1800 from nine different Defence institutions/collections, representing both Army and Navy. By far the largest collections are the property of the Royal Netherlands Army Museum in Delft and the Royal Netherlands Military Academy in Breda. A great if not substantial part of these books is especially of international significance because of the contents, the intrinsic value or as historical objects. It took eight years to trace and describe these books, all of which have been given extensive analytical bibliographic descriptions. The book is a project of the Royal Netherlands Army Museum, Delft

Crawford's New Product Management 12e provides the management approach to teaching new products, with the perspective of marketing. Adopters of previous editions will notice that the format is slimmed down to 18 chapters. This streamlined presentation focuses on the topics that will be of most importance and interest to new product managers. Significant updates can be found throughout, and great pains have been taken to present the "best practices" of industry and relevancy to readers. Past adopters of New Products Management will notice major changes in this edition. While there are some changes in virtually every chapter, some of the most substantial changes are as follows: 1. We have made major additions and updates to the cases to provide more plentiful and more current examples. We retired several cases from the previous edition, wrote many new cases, and thoroughly updated many others. New cases for this edition include: Oculus Rift, Adidas Parley sustainable running shoes, Google Glass, Indiegogo, Tesla, Chipotle, Chick-fil-A, Corporate Social Responsibility at Starbucks, and many others. As always, we aim to offer a mix of high tech products and consumer products and services in the set of cases. 2. In addition, we have substantially updated examples throughout the text wherever possible. We try to make use of illustrative examples that will resonate with today's students wherever possible. Of course, we welcome the reader's comments and suggestions for improvement. 3. There continues to be much new research in new products, and we have tried to stay current on all of these topics. Readers will notice new or expanded coverage of portfolio management, value curve creation, the TRIZ method, crowd-sourcing, crowdfunding, observational research, open innovation, organizational structure, 3D modeling, beta testing, sustainable product development, and frugal innovation, among other topics. 4. We continue the practice of referencing Web sites of interest throughout the text, and we have added the web addresses for several useful YouTube videos and other resources.

What makes someone covet a Kelly bag? Why are Cirque Du Soleil or Grey Goose so successful despite breaking all the conventions of their categories? What does Gucci's approach to marketing have in common with Nespresso's? And why do some people pay a relative fortune for Renova toilet paper or Aesop detergent even though they hardly ever 'advertise' and seem to have none of the 'functional performance advantages' conventional marketers would seek to demonstrate? Prestige brand experts JP Kuehlwein and Wolfgang Schaefer have dedicated themselves to studying what drives the success of prestige brands. Rethinking Prestige Branding collects their insights. Uncovering the secrets of why and how some brands are created more equal than others, Rethinking Prestige Branding includes over 100 case studies from Apple and Abercrombie & Fitch to Tate Modern and Tesla. Rather than re-telling brand success stories or re-hashing long-standing marketing principles, it takes readers on a colourful journey behind the scenes of today's marketing pros. This book will fascinate marketing professional just as much as those who are simply curious as to how premium brands tick.

Over the past decade, the town of Yountville has received worldwide recognition as a tourist destination specializing in fine wine, luxurious hotel and spa accommodations, and award-winning restaurants. In fact, these achievements and accolades have earned it the name "Heart of the Napa Valley." Longtime residents, however, realize that Yountville's temperate weather, rich soils, and serene environs have been attracting visitors to the area not for decades but rather for thousands of years. The original indigenous residents called the surrounding area Caymus and constructed their homes out of willow and tule. Later the village of Caymus became known as Sebastopol, a name used by mountain man George C. Yount, the first American settler to receive a Mexican land grant. Yount's Kentucky-style blockhouse provided a welcome mat for many of California's early pioneers. He is also credited with planting some of the first grapevines in the Napa Valley. Upon his death in 1865, local residents wanted to honor the contribution of Yount and changed the name from Sebastopol to Yountville.

This book focuses on the steps a new business owner must take in the first 100 days of starting a business to establish a lasting and successful enterprise. If you 're thinking of opening up your own business, you 'll need this book. This is a hands-on book that focuses on the tasks that you or any new business owner must complete in the first 100 days of launching a business. Think of it this way: Imagine you 've conceived a business idea, written a business plan, raised seed capital, and are set to launch your business on October 1. Now, what would you actually do on October 1, October 2, October 3, and so forth? How would you set your priorities? How would you know which tasks are the most urgent? Although the answers to these questions vary depending on the business, there are a set of key activities that all businesses must accomplish to get their businesses off to a good (and legally proper) start. This book provides examples that include securing proper business licenses and permits; setting up a bookkeeping system; negotiating a lease; buying insurance; entering into contracts with vendors; recruiting and hiring employees; and making the first sale. Broader issues such as developing a business model and building a brand will also be touched upon, but the primary focus of this book is getting you focused on the practical issues that you 'll need, as a new business owner, to accomplish, and accomplish correctly, and to get your business off to a good start. To help you prioritize and track the activities that must be completed at the onset of a business, this book will teach you how to set up a " First 100 Days Plan, " with the template (titled First 100 Days Plan) included in this book.
