This enhanced edition features excerpts from the audio edition of *Bossypants*, recently named Audio Book of the Year! Before Liz Lemon, before "Weekend Update," before "Sarah Palin," Tina Fey was just a young girl with a dream: a recurring stress dream that she was being chased through a local airport by her middle-school gym teacher. She also had a dream that one day she would be a comedian on TV. She has seen both these dreams come true. At last, Tina Fey's story can be told. From her youthful days as a vicious nerd to her tour of duty on *Saturday Night Live*; from her passionately halfhearted pursuit of physical beauty to her life as a mother eating things off the floor; from her one-sided college romance to her nearly fatal honeymoon -- from the beginning of this paragraph to this final sentence. Tina Fey reveals all, and proves what we've all suspected: you're no one until someone calls you bossy. (Includes Special, Never-Before-Solicited Opinions on Breastfeeding, Princesses, Photoshop, the Electoral Process, and Italian Rum Cake! This Enhanced eBook experience also includes special audio clips from Tina Fey, speculation on what an eBook really is, a bonus section of new-to-you photos, interpretive drawings, and a chapter read by the author!)

Kevin Reilly was living a charmed life. He had fulfilled his lifelong dream of playing in the NFL, for his beloved Philadelphia Eagles. Then, a rare tumor in his shoulder had him undergo a radical amputation and put an end to his professional football career. Ultimately, the foundation of faith, family, friends, and fortitude developed during his childhood and athletic development helped sustain Kevin through the crushing end to his dreams, the battle to live, and his long running recovery. You will laugh, cry, and be inspired by Kevin's deep faith and incredible resilience. While football fans will certainly enjoy the ride, this book is mainly about life and overcoming the challenges that most of us face at one time or another.

Recently recognized by the Delaware Press Association as the best adult non-fiction book of 2019 in the memoir/autobiography category, this book by John Riley features a behind the scenes look at more than six decades of the people, places and events in and around the First State. Beginning with the post-World War II period where the country's possibilities seemed to know no bounds through to the crushing reality of assassinations, the draft and Vietnam, Riley provides a fascinating look back at the people and places of mid-century Wilmington. His riveting account of the draft and subsequent Army years will no doubt resurrect vivid memories for many from the Vietnam generation. Riley also shares his unique experience in Delaware politics, sports and corporate life, including inside stories involving governors, athletes, coaches, and the leaders of some of Delaware's most prominent companies. Notably, Riley provides a detailed eyewitness account of the unraveling of a ninety year old chemical company ravaged by bad business decisions and under assault by an infamous corporate raider.

The Ultimate Oral History of The Office Bedford/St. Martin's

The Human Journey offers a truly concise yet satisfyingly full history of the world from ancient times to the present. The book's scope, as the title implies, is the whole story of humanity, in planetary context. Its themes include not only the great questions of the humanities—nature versus nurture, the history and meaning of human variation, the sources of wealth and causes of revolution—but also the major transformations in human history: agriculture, cities, iron, writing, universal religions, global trade, industrialization, popular government, justice, and equality. In each conceptually rich chapter, leading historian Kevin Reilly concentrates on a single important period and theme, sustaining a focused narrative and analytical perspective. Chapter 2, for example, discusses the significance of bronze-age urbanization and the advent of the Iron Age. Chapter 3 examines the meaning and significance of the age of "classical" civilizations. Chapter 4 explains the spread of universal religions and new technologies in the postclassical age of Eurasian integration. But these examples also reveal a range of approaches to world history. The first chapter is an example of current "Big History," the second of history as technological transformations, the third of comparative history, the fourth the history of connections that dominates, and thus narrows, so many texts. Free of either a confined, limiting focus or a mandatory laundry list of topics, this book begins with our most important questions and

searches all of our past for answers. Well-grounded in the latest scholarship, this is not a fill-in-the-blanks text, but world history in a grand humanistic tradition.
