modules, presented in an innovative, visual format and are supported by a website which offers students a host of additional practice opportunities. Visit www.unlockingthelaw.co.uk for access to free study resources, including multiple choice questions, key questions and answers, revision mp3s and cases and materials exercises. *Smith, Hogan, and Ormerod's Criminal Law* Gaunt

The criminal justice system is wide ranging: it covers crimes, policing, the

sentencing of offenders, and prisons. This title draws upon the latest research and current practices from around the world. Focusing on the adversarial model of justice found in common law countries such as the US, UK, Canada, and Australia, it discusses topics such as the uses of imprisonment, the effects of capital punishment, and the purposes of

sentencing.

Considering the role of the victim, as well as public knowledge and attitudes towards criminal justice, it assesses the way in which the system functions.

The Model Rules of Professional
Conduct provides an up-to-date
resource for information on legal
ethics. Federal, state and local
courts in all jurisdictions look to
the Rules for guidance in solving
lawyer malpractice cases,
disciplinary actions,
disqualification issues, sanctions
questions and much more. In this
volume, black-letter Rules of
Professional Conduct are followed
by numbered Comments that
explain each Rule's purpose and
provide suggestions for its practical
application. The Rules will help
you identify proper conduct in a

variety of given situations, review
those instances where discretionary
action is possible, and define the
nature of the relationship between
you and your clients, colleagues
and the courts.

Crime in Texas Routledge

This book examines violence
against women in Africa and
criminal justice from the
perspective of African scholars,
practitioners and experts. As a
global and long-standing issue,
violence against women is
gaining public visibility across
the African continent with some
states announcing a national
crisis warranting immediate
redress. At the global level, the
elimination of all forms of

violence against all women and
girls forms a key part of United
Nations Sustainable
Development Goal 5: Gender
Equality. Split across two
volumes, these books present a
comprehensive analysis of the
latest research and theories,
principles and practices of
criminal justice systems, criminal
justice accountability
mechanisms, and the key
challenges women face in their
quest for justice on the African
continent. This volume (II)
focusses on sexual violence and
vulnerable women ' s access to
justice in Africa. Volume I
focusses on legislation and its

impact, the limitations of criminal and African legal studies.

justice responses, and the cultural and social norms regarding access to justice. Together, they adopt a comparative approach that highlight gaps and good practices to provide a rich source of authoritative information for promoting an intra-African dialogue and cross-fertilization of ideas across the different criminal justice traditions in Africa. Both volumes seek to advance discussions on eliminating violence against women in Africa and speak to those interested in criminal justice, violence, gender studies

Law 101 Oxford University Press
Market-leading
CONSTITUTIONAL LAW AND THE CRIMINAL JUSTICE SYSTEM, 6th Edition, uses real-world illustrations, succinct case summaries, and proven learning tools to equip readers with a solid understanding of our often-complex Constitution and criminal justice system. Avoiding confusing legalese, the book features more than 200 plainly written, summarized cases that introduce readers to the most influential and relevant cases. It also thoroughly covers the Fourth and Fifth Amendments, exploring their application to issues relevant to criminal justice: reasonable search

and seizure, double jeopardy, and testifying against oneself. The sixth edition includes expanded discussions of the First and Second Amendments as well as cutting-edge coverage of such high-profile topics as immigration, terrorism/homeland security, death row, and many others. and Key Q&As.

A Very Short Introduction
SAGE Publications
Anyone practising in the criminal court needs to have a sound grasp of both evidence and procedure. This book provides the criminal lawyer with access to the key points of these inter-related subjects in a single volume. It is divided into two parts: Part A deals with evidence, while Part B covers procedure. It provides the text of the most important statutory provisions, together with a concise commentary. The procedural and evidential provisions of the Criminal

Justice and Public Order Act 1994 are placed in context, and there are extensive excerpts from the revised 1995 version of the codes of practice issued under PACE. The Criminal Appeal Act 1995 is also dealt with in full.
Key Cases: Criminal Law
William S. Hein & Co., Inc. Hall, Jerome. General Principles of Criminal Law. Second Edition. Indianapolis: The Bobbs Merrill Company, [1960]. xii, 642 pp. Reprint available January, 2005 by the Lawbook Exchange, Ltd. ISBN 1-58477-498-3. Cloth. \$125. *
The standard one-volume treatise based on classic legal-

realist principles. As its title suggests, Hall provides more than a thorough overview of the subject; he analyzes the principles that comprise its foundations with an emphasis on their creation and definition by officials. This process is explored in its chapters on legality, mens rea, harm, causation, punishment, strict liability, ignorance and mistake, necessity and coercion, mental disease, intoxication and criminal attempt, as well as its general chapters on criminology, criminal theory and penal theory. Acclaimed when its first edition appeared in 1947, it has

been cited regularly ever since.

Criminal Law BRILL

A solid reference for both the everyday and the unexpected legal issues, written by practicing attorneys Law 101 is an essential reference that explains: How laws are made How the court system works How each area of the law impacts your daily life Key information for important questions: How does a lawsuit begin? How do civil and criminal law differ? When do state laws trump federal laws? What makes a contract solid? What can you expect if called

as a juror? What can you expect if called as a witness? And other complex areas of the law that you need to know. No home reference shelf is complete without this indispensable guide. The new edition also includes information on legal subjects that have become more important recently, including alternative dispute resolution, privacy rights, and Internet law.

International Criminal
Procedure Criminal Law

The Texas criminal justice system has come a long way since the early 1990s, when a vicious crime spree by paroled murderer Kenneth McDuff convinced lawmakers and citizens that the system had broken down. In this book, District Attorney Ken Anderson describes major reforms that followed the McDuff case as he provides a complete overview of the criminal justice system in Texas. Using simple language that any citizen can understand, Anderson describes all aspects of the

system--officials (police, prosecutors, judges), criminal procedure, criminal law, criminal punishments, victims' rights, and the juvenile system. He illustrates his points with real-life stories of crime and punishment. Throughout the book, Anderson emphasizes two facts--that crime prevention programs, stricter law enforcement, and increased prison space have dramatically lowered the crime rate in Texas and that citizen activism is very effective in bringing reform to the criminal justice system. This

book will be essential reading for everyone--public and professional--concerned with criminal justice in Texas. Violence Against Women and Criminal Justice in Africa: Volume II Jones & Bartlett Learning Forensic psychologists and psychiatrists are increasingly asked to provide expertise to courts and attorneys in the criminal justice system. To do so effectively, they must stay abreast of important advances in the understanding of legal standards as well as new developments in sophisticated measures and the methods for

their assessment. Fundamentals of Forensic Practice is designed to address the critical issues that are faced by mental health experts in their role of conducting assessments, presenting findings, and preparing for challenges to admissibility and credibility. Uniquely practical and comprehensive, this volume operationalizes legal standards and describes empirically validated methods for their evaluation. Not only is this essential for mental health professionals, but it is equally valuable to criminal attorneys. Lawyers require both clinical

knowledge and understanding of legal standards in order to prepare their own experts and to challenge those on the opposing side. For both clinical and legal experts Fundamentals of Forensic Practice offers a full view of all phases of criminal proceedings: - Pretrial—diversion, determinations of bail, waivers of Miranda rights, and the capacity to consent to searches. - Trial—competency to stand trial and criminal responsibility. Beyond insanity, the latter addresses mens rea, automatism, and psychological context evidence, such as battered-

woman syndrome. - Post-trial—sentencing, capital sentencing, competency to be executed, and other post-conviction issues. Other key features include: - Chapters on specific criminal issues in a consistent format, with comprehensive coverage of legal standards and relevant clinical methods - Guidelines for conducting more effective forensic evaluations - In-depth coverage of specialized assessments, eg. malingering, sexual predator cases, and the insanity defense. - A detailed overview of direct and cross-examination strategies This book

is the second collaboration between Rogers and Shuman. As individual authors, each received the American Psychiatric Association's prestigious Guttman Award for their outstanding contributions to forensic psychiatry.

Model Rules of Professional Conduct Routledge

The subject of intention in the criminal law is currently causing many debates among criminal lawyers. This compelling and probing volume addresses two key questions: should the criminal law distinguish between direct

intention and recklessness, and what should the law be concerning cases of oblique intention - i.e. cases in which the actor does not act in order to cause the proscribed result, but is nevertheless practically certain that his, or her, action will cause it? The discussion is divided into two parts with the first being devoted to the question of whether it is justified to grade offences based on the distinction between intention and recklessness. The second part deals with offences in which intention is required as a

condition for the criminalisation of the conduct and in the context of which reckless actors are not exposed to criminal liability. The book explores the issue of intention from the viewpoint of degrees of moral culpability and it discusses, inter alia, the doctrine of double effect, the possibility that the law in cases of oblique intention should not be the same for all crimes of intention, and the possibility of using a moral formula in the definition of certain offences. The discussion also addresses

many other criminal law issues, including the philosophy of punishment, the role of motives in determining degrees of blameworthiness, sentencing, stigma, and criminal attempts.
