Building Skills for Effective Primary Teaching  
Psychology Press

CHOSEN BY THE ECONOMIST AS A BEST  
BOOK OF THE YEAR An American linguist

teaching in England explores the sibling rivalry between British and American English “ English accents are the sexiest. ” “ Americans have ruined the English language. ” Such claims about the English language are often repeated but rarely examined. Professor Lynne Murphy is on the linguistic front line. In *The Prodigal Tongue* she explores the fiction and reality of the special relationship between British and American English. By examining the causes and symptoms of American Verbal Inferiority Complex and its flipside, British Verbal Superiority Complex, Murphy unravels the prejudices, stereotypes and insecurities that shape our attitudes to our own language. With great humo(u)r and new insights,

Lynne Murphy looks at the social, political and linguistic forces that have driven American and British English in different directions: how Americans got from centre to center, why British accents are growing away from American ones, and what different things we mean when we say estate, frown, or middle class. Is anyone winning this war of the words? Will Yanks and Brits ever really understand each other?

There are also templates and practical tools drawn from good practice across the country that can be easily adapted for individual subjects and schools. Addressing the key concerns of both experienced leaders and those new

to the role, this essential resource encourages readers to think deeply about the curriculum and how it is taught, enabling them to make a significant contribution to whole school improvement.

**Improving Reading and Reading Engagement in the 21st Century** Waxmann Verlag

School improvement in recent years has largely focused on rapid improvement and quick fixes. Yet, genuine and sustainable school improvement is complex, gradual and incremental. It requires developing a culture and focusing relentlessly on teaching and learning. The Gradual Art of School Improvement is a comprehensive practical guide to school improvement, covering aspects such as improvement planning, staff development, the learning environment, dealing with outside pressures including

---

inspection, curriculum design and the role of leaders at all levels. It includes: Detailed accounts of the steps that can be taken to create a positive learning culture over time  
Case studies and worked examples, concentrating on the practical aspects of school improvement from the perspective of an experienced and successful head teacher  
Ready-to-use practitioner resources that readers can adapt and use in their own settings  
Accessibly written and entertaining, this book is an invaluable resource for leaders at all levels and stages of their career.

Promoting Assessment as Learning  
Collins KS2 SATs Practice

This book presents cutting-edge research findings in areas critical to advancing reading research in the 21st century context, including new literacies, reading motivation, strategy instruction, and reading intervention studies. While

students' reading performance is currently receiving unprecedented attention, there is a lack of research that adopts an international perspective and draws on research expertise from different parts of the world to present a concerted effort, discussing key research models and findings on how to improve reading education. Addressing this gap in the literature, the book also responds to the challenge of promoting higher levels of literacy, and supporting and developing readers who can enjoy and critique texts of every genre.

### **NQT** Routledge

There is a need to rethink education studies in these times of change, in terms of literacies and technologies, conflict and environmental concerns, and a need for authoritative texts addressing the key areas within education; sociology, child and infant development, social justice, policy, social welfare and development – and

multiculturalism. This popular text provides approaches to the theoretical perspectives and frameworks and focuses on the relevant literature surrounding multiculturalism for today's students. This new edition includes a completely new contemporary chapter on the notion of multicultural citizenship and new integrationist policies in England, including the latest research on citizenship, immigration and integration as applied to worldwide education policy-making. Including extensive examples of empirical research, study questions, updated references and website resources, *Multiculturalism and Education 2e* is essential reading for all those studying multiculturalism, at undergraduate and postgraduate levels, within education and

‘Don’t smile until Christmas.’ ‘Never be afraid to ask for help.’ ‘Always accept a cup of tea when it’s offered to you.’

There’s no shortage of tips, tricks and friendly advice for newly qualified teachers.

But how can you separate the wheat from the chaff as you navigate your way through the first year on the job? Where do you go for sound, professional advice that is evidence-based and not just a short-term quick-fix that will later prove problematic?

NQT: The Beginning Teacher's Guide to Outstanding Practice is your go-to companion throughout your NQT year.

Written by teachers and teacher training

experts, it guides you through your first year in teaching by extending your training and supporting you to keep learning. It covers areas NQTs say they need more support on including assessment, classroom behaviour and work-life balance and every chapter is linked to the Teachers' Standards and explores what they mean for you in the classroom.

Improving Pupils Motivation Together provides a refreshing and much-needed focus on how motivation can be enhanced by teachers and teaching assistants working both individually and collaboratively. Written in an accessible and engaging manner, the book

---

explores various theories of motivation from a range of perspectives, applying academic theory to real life classroom situations. Using a combination of case studies and empirical research, this book demonstrates how teachers and TAs can successfully enhance the motivation of their students through collaborative practice. *Improving Pupils Motivation Together* starts by introducing theories of learning and motivation and goes on to offer insight in areas including: Collaboration and ways to collaborate; Motivation and giftedness; Assessment for Learning; Learning goals and learning objectives; Common pupil responses; Research in Action. *Improving Pupils Motivation Together* is an ideal resource for both teachers and teaching assistants working with pupils who are difficult to motivate and who find learning challenging.

Further, this book will be highly useful for teachers managing their support staff, and for trainee teachers looking to develop their skills in motivating and engaging pupils.

Practice Paper Ks2 Maths Age 10-11 Learning Matters

One of the central features in current educational reforms is a focus on learning outcomes. Many countries have established or revised standards to describe what teachers are supposed to teach and students are expected to learn. More recently, the emphasis has shifted to considerations of how standards can be operationalized in order to make the outcomes of educational efforts more tangible. This book is the result of a symposium held in Kiel, that was arranged by two science education groups, one at the IPN (Leibniz-Institute for Science and Mathematics Education at the University of

---

Kiel) in Germany and the other at the University of York, UK. The seminar brought together renowned experts from 12 countries with different notions of the nature and quality of learning outcomes. The aim was to clarify central conceptions and approaches for a better understanding among the international science education community. The book is divided into five parts. In Part A, the organizers set the scene, describing the rationale for arranging the symposium. Part B provides a broad overview about different approaches, challenges, and pitfalls on the road to the clarification of meaningful and fruitful learning outcomes. The set of papers in Part C provides deep insights into different, although comparable approaches which aim to frame, to assess, and to promote learning and learning outcomes in science education. Smaller projects are presented as

well as broad, coordinated national programs. The papers in Part D outline the individual historical development from different national perspectives, reflecting the deficits and problems that led to current reforms. Finally, a summary of the organizers analyses the conclusions from different vantage points.

Supporting trainee teachers to understand the complex nature of effective learning and teaching in primary schools. A completely new book covering the key skills of primary teaching including: teaching and learning reflective practice in teaching planning assessment behaviour engagement vulnerable groups professional responsibilities and relationships This book

---

supports and challenges primary trainee teachers and their mentors (both school based and university/SCITT based) by offering a range of approaches, strategies and perspectives to aspects of primary teaching, with learning and pupil progress as the focus. It offers thought provoking activities, case studies and reflection tasks for trainees and mentors and supports trainees working towards their professional development targets. The text also explores less common themes such as question and dialogue, EAL and teacher presence. It helps trainees to understand and develop these skills and begin to use them in their teaching. It then supports them in reflecting on their development of these skills and evaluating their impact on learning.
