That's when he went through an extensive study of one of the wisest books of all-time, the Bible. He literally looked at every scripture that had to do with money. It was then that he found the six keys that God has outlined to produce financial success. As he purposefully implemented and lived out these six principles they began to change his financial future. There are three important managerial implications. First, leaders possess and use more than one style of leadership. Managers thus should not be hesitant to try new behaviors when the situation calls for them. Second, managers should modify their leadership style to fit employee characteristics. Employees with high achievement needs, little experience, and high need for clarity generally should receive directive leadership to increase satisfaction and performance. Third, the degree of task structure is a relevant contingency factor. Managers should consider using supportive supervision when the task is structured.
