The former dean of the Yale School of Management and Undersecretary of Commerce in the Clinton administration chronicles the 1971

August meeting at Camp David, where President Nixon unilaterally ended the last vestiges of the gold standard—breaking the link between gold and the dollar—transforming the entire global monetary system. Over the course of three days—August 13 to 15, 1971—at a secret meeting at Camp David, President Richard Nixon and his brain trust changed the course of history. Before that weekend, all national currencies were valued to the U.S. dollar, which was convertible to gold at a fixed rate. That system, established by the Bretton Woods Agreement at the end of World War II, was the foundation of the international monetary system that helped fuel the greatest expansion of middle-class prosperity the world has ever seen. In making his decision, Nixon shocked world leaders, bankers, investors, traders and everyone involved in global finance. Jeffrey E. Garten argues

that many of the roots of America's dramatic retrenchment in world affairs began with that momentous event that was an admission that America could no longer afford to uphold the global monetary system. It opened the way for massive market instability and speculation that has plagued the world economy ever since, but at the same time it made possible the gigantic expansion of trade and investment across borders which created our modern era of once unimaginable progress. Based on extensive historical research and interviews with several participants at Camp David, and informed by Garten's own insights from positions in four presidential administrations and on Wall Street, *Three Days at Camp David* chronicles this critical turning point, analyzes its impact on the American economy and world markets, and explores its ramifications now and for the future.

 This Intergovernmental Panel on Climate Change Special Report (IPCC-SREX) explores the challenge of understanding and managing the risks of climate extremes to advance climate change adaptation. Extreme weather and climate events, interacting with exposed and vulnerable human and natural systems, can lead to disasters. Changes in the frequency and severity of the physical events affect disaster risk, but so do the spatially diverse and temporally dynamic patterns of exposure and vulnerability. Some types of extreme weather and climate events have increased in frequency or magnitude, but populations and assets at risk have also increased, with consequences for disaster risk. Opportunities for managing risks of weather- and climate-related disasters exist or can be developed at any scale, local to international. Prepared

following strict IPCC procedures, SREX is an invaluable assessment for anyone interested in climate extremes, environmental disasters and adaptation to climate change, including policymakers, the private sector and academic researchers.

NEW YORK TIMES BESTSELLER • In this mesmerizing novel, Ethan Canin, the author of *American America* and *The Palace Thief*, explores the nature of genius, rivalry, ambition, and love among multiple generations of a gifted family. Milo Andret is born with an unusual mind. A lonely child growing up in the woods of northern Michigan in the 1950s, he gives little thought to his own talent. But with his acceptance at U.C. Berkeley he realizes the extent, and the risks, of his singular gifts. California in the seventies is a seduction, opening Milo's eyes to the allure of both ambition and indulgence. The research he begins there will make him a legend; the woman he meets there—and the rival he meets alongside her—will haunt him for the rest of his life. For Milo's brilliance is entwined with a dark need that soon grows to threaten his work, his family, even his existence. Spanning seven decades as it

moves from California to Princeton to the Midwest to New York, *A Doubter's Almanac* tells the story of a family as it explores the way ambition lives alongside destructiveness, obsession alongside torment, love alongside grief. It is a story of how the flame of genius both lights and scorches every generation it touches. Graced by stunning prose and brilliant storytelling, *A Doubter's Almanac* is a surprising, suspenseful, and deeply moving novel, a major work by a writer who has been hailed as “the most mature and accomplished novelist of his generation.” Praise for *A Doubter's Almanac* “551 pages of bliss . . . devastating and wonderful . . . dazzling . . . You come away from the book wanting to reevaluate your choices and your relationships. It's a rare book that can do that, and it's a rare joy to discover such a book.” —*Esquire* “[Canin] is at the top of his form, fluent, immersive, confident. You might not know where he's taking you, but the characters are so vivid, Hans's voice rendered so precisely, that it's impossible not to trust in the story. . . . The delicate networks of emotion and connection that make up a family are illuminated, as if by magic, via his prose.” —*Slate* “Alternately explosive and deeply interior.” —*New York* (“Eight Books You Need to Read”) “A blazingly intelligent novel.” —*Los Angeles Times* “[A] beautifully written novel.” —*The New York Times Book Review* (Editors' Choice) *First Course in Algebra* Simon and Schuster An exploration of why people all over the

world love to engage in pain on purpose—from dominatrices, religious ascetics, and ultramarathoners to ballerinas, icy ocean bathers, and sideshow performers Masochism is sexy, human, reviled, worshipped, and can be delightfully bizarre. Deliberate and consensual pain has been with us for millennia, encompassing everyone from Black Plague flagellants to ballerinas dancing on broken bones to competitive eaters choking down hot peppers while they cry. Masochism is a part of us. It lives inside workaholics, tattoo enthusiasts, and all manner of garden variety pain-seekers. At its core, masochism is about feeling bad, then better—a phenomenon that is long overdue for a heartfelt and hilarious investigation. And Leigh Cowart would know: they are not just a researcher and science writer—they're an inveterate, high-sensation seeking masochist. And they have a few questions: Why do people engage in masochism? What are the benefits and the costs? And what does masochism have to say about the human experience? By participating in many of these activities themselves, and through conversations with psychologists, fellow scientists, and people who seek pain for pleasure, Cowart unveils how our minds and bodies find meaning and relief in pain—a quirk in our programming that drives discipline and

innovation even as it threatens to swallow us whole.

Their world is contained within the little house they share.

The four of them are devoted to Mother Roberta and to their quiet, purposeful life. But when the parish goes broke, the sisters are forced to move. They land in Woonsocket, a former mill town now dotted with wind turbines. They take over the care of a halfway house, where they live alongside their charges, such as the jawless Tim Gary and the headstrong Lawnmower Jill. Agatha is forced to venture out into the world alone to teach math at a local all-girls high school, where for the first time in years she has to reckon all on her own with what she sees and feels. Who will she be if she isn't with her sisters? These women, the church, have been her home. Or has she just been hiding? Disarming, delightfully deadpan, and full of searching, Claire Luchette's *Agatha of Little Neon* offers a view into the lives of women and the choices they make.

A riveting, deeply personal account of history in the making—from the president who inspired us to believe in the power of democracy #1 NEW YORK TIMES BESTSELLER • NAACP IMAGE AWARD NOMINEE • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Jennifer Szalai, The New York Times • NPR • The Guardian • Marie Claire In the stirring, highly anticipated first volume of his presidential memoirs, Barack Obama tells the story of his improbable odyssey from young man searching for his identity to leader of the free world, describing in strikingly personal detail both his political education and the landmark moments of the first term of his historic presidency—a time of dramatic transformation and turmoil. Obama takes readers on a compelling journey from his earliest political

aspirations to the pivotal Iowa caucus victory that demonstrated the power of grassroots activism to the watershed night of November 4, 2008, when he was elected 44th president of the United States, becoming the first African American to hold the nation's highest office. Reflecting on the presidency, he offers a unique and thoughtful exploration of both the awesome reach and the limits of presidential power, as well as singular insights into the dynamics of U.S. partisan politics and international diplomacy. Obama brings readers inside the Oval Office and the White House Situation Room, and to Moscow, Cairo, Beijing, and points beyond. We are privy to his thoughts as he assembles his cabinet, wrestles with a global financial crisis, takes the measure of Vladimir Putin, overcomes seemingly insurmountable odds to secure passage of the Affordable Care Act, clashes with generals about U.S. strategy in Afghanistan, tackles Wall Street reform, responds to the devastating Deepwater Horizon blowout, and authorizes Operation Neptune's Spear, which leads to the death of Osama bin Laden. *A Promised Land* is extraordinarily intimate and introspective—the story of one man's bet with history, the faith of a community organizer tested on the world stage. Obama is candid about the balancing act of running for office as a Black American, bearing the expectations of a generation buoyed by messages of “hope and change,” and meeting the moral challenges of high-stakes decision-making. He is frank about the forces that opposed him at home

and abroad, open about how living in the White House affected his wife and daughters, and unafraid to reveal self-doubt and disappointment. Yet he never wavers from his belief that inside the great, ongoing American experiment, progress is always possible. This beautifully written and powerful book captures Barack Obama's conviction that democracy is not a gift from on high but something founded on empathy and common understanding and built together, day by day.

The Successful Internship Farrar, Straus and Giroux

In this beautifully written and propulsive memoir, Huma Abedin—Hillary Clinton's famously private top aide and longtime adviser—emerges from the wings of American political history to take command of her own story. The daughter of Indian and Pakistani intellectuals and advocates who split their time between Saudi Arabia, the UK, and the United States, Abedin grew up in many worlds. *Both/And* grapples with family, legacy, identity, faith, marriage, and motherhood with wisdom and sophistication. Abedin launched full steam into a college internship in the office of the first lady in 1996, never imagining that her work at the

White House would blossom into a career in public service, nor that the career would become an all-consuming way of life. Still in her twenties and thirties, she thrived in rooms with diplomats and sovereigns, entrepreneurs and artists, philanthropists and activists, and witnessed many crucial moments in 21st-century American history—Camp David for urgent efforts at Middle East peace in the waning months of the Clinton administration, Ground Zero in the days after the 9/11 attacks, the inauguration of the first African American president of the United States, the convention floor when America nominated its first female presidential candidate. Abedin's relationship with Clinton has seen both women through extraordinary personal and professional highs, as well as unimaginable lows. Here, for the first time, is a deeply personal account of Hillary Clinton as mentor, confidante, and role model. Abedin cuts through caricature, rumor, and misinformation to reveal a crystal-clear portrait of Clinton as a brilliant and caring leader, a steadfast friend, generous, funny, hardworking, and dedicated. *Both/And* is a candid and

heartbreaking chronicle of Abedin's marriage to Anthony Weiner, what drew her to him, how much she wanted to believe in him, the devastation wrought by his betrayals—and their shared love for their son. It is also a timeless story of a young woman with aspirations and ideals coming into her own in high-pressure jobs, and a testament to the potential for women in leadership to blaze a path forward while supporting those who follow in their footsteps. Both/And describes Abedin's journey through the opportunities and obstacles, the trials and triumphs, of a full and complex life. Abedin's compassion and courage, her resilience and grace, her work ethic and mission are an inspiration to people of all ages. "This journey has led me through exhilarating milestones and devastating setbacks," said Abedin. "I have walked both with great pride and in overwhelming shame. It is a life I am—more than anything—enormously grateful for and a story I look forward to sharing."

With this platform, we the Republican Party reaffirm the principles that unite us in a common purpose. We believe in American exceptionalism. We believe America is exceptional because of our historic role - first as refuge, then as defender, and now as exemplar of liberty for the world to see. We believe our constitutional system - limited government, separation of powers, federalism, and the rights of the people - must be

preserved uncompromised for future generations. We believe political freedom and economic freedom are indivisible. When political freedom and economic freedom are separated - both are in peril; when united, they are invincible. We believe that people are the ultimate resource - and that the people, not the government, are the best stewards of our country's God-given natural resources. As Americans and as Republicans we wish for peace - so we insist on strength. We will make America safe. We seek friendship with all peoples and all nations, but we recognize and are prepared to deal with evil in the world. Based on these principles, this platform is an invitation and a roadmap. It invites every American to join us and shows the path to a stronger, safer, and more prosperous America. Republican Platform 2016

In his first work of narrative nonfiction, Matthew Pearl, bestselling author of acclaimed novel *The Dante Club*, explores the little-known true story of the kidnapping of legendary pioneer Daniel Boone's daughter and the dramatic aftermath that rippled across the nation. On a quiet midsummer day in 1776, weeks after the signing of the Declaration of Independence, thirteen-year-old Jemima Boone and her friends Betsy and Fanny Callaway disappear near the Kentucky settlement of Boonesboro, the echoes of their faraway screams lingering on the air. A Cherokee-Shawnee raiding party has taken the girls as the latest salvo in the blood feud between American Indians and the colonial settlers who have decimated native lands and resources. *Hanging Maw*, the raiders'

leader, recognizes one of the captives as Jemima Boone, daughter of Kentucky's most influential pioneers, and realizes she could be a valuable pawn in the battle to drive the colonists out of the contested Kentucky territory for good. With Daniel Boone and his posse in pursuit, Hanging Maw devises a plan that could ultimately bring greater peace both to the tribes and the colonists. But after the girls find clever ways to create a trail of clues, the raiding party is ambushed by Boone and the rescuers in a battle with reverberations that nobody could predict. As Matthew Pearl reveals, the exciting story of Jemima Boone's kidnapping vividly illuminates the early days of America's westward expansion, and the violent and tragic clashes across cultural lines that ensue. In this enthralling narrative in the tradition of Candice Millard and David Grann, Matthew Pearl unearths a forgotten and dramatic series of events from early in the Revolutionary War that opens a window into America's transition from colony to nation, with the heavy moral costs incurred amid shocking new alliances and betrayals.

The AP English Language and Composition As an increasingly polarized America fights over the legacy of racism, Susan Neiman, author of the contemporary philosophical classic *Evil in Modern Thought*, asks what we can learn from the Germans about confronting the evils of the past. In the wake of white nationalist attacks, the ongoing debate over reparations, and the controversy surrounding

Confederate monuments and the contested memories they evoke, Susan Neiman's *Learning from the Germans* delivers an urgently needed perspective on how a country can come to terms with its historical wrongdoings. Neiman is a white woman who came of age in the civil rights – era South and a Jewish woman who has spent much of her adult life in Berlin. Working from this unique perspective, she combines philosophical reflection, personal stories, and interviews with both Americans and Germans who are grappling with the evils of their own national histories. Through discussions with Germans, including Jan Philipp Reemtsma, who created the breakthrough *Crimes of the Wehrmacht* exhibit, and Friedrich Schorlemmer, the East German dissident preacher, Neiman tells the story of the long and difficult path Germans faced in their effort to atone for the crimes of the Holocaust. In the United States, she interviews James Meredith about his battle for equality in Mississippi and Bryan Stevenson about his monument to the victims of lynching, as well as lesser-known social justice activists in the South, to provide a compelling picture of the work contemporary Americans are doing to confront our violent history. In clear and gripping prose, Neiman urges us to consider the nuanced forms that evil can assume, so that we

can recognize and avoid them in the future.
