The first-generation Kia Sportage was developed with a Mazda Bongo engineering base platform. It shares many mechanical components such as the engine, transmissions (early versions), and differentials with the Mazda line of vehicles. This was during Kia's alliance with Ford and Mazda, which involved Ford/Mazda providing technology and Kia providing inexpensive manufacturing facilities for Ford.

Info. For many car parts, such as engines and cylinder heads, it is important that you specify the correct motor code on your request. The engine code is usually stamped somewhere into the engine block. The first 4 or 5 letters / numbers usually provide enough technical information for a car parts supplier to find the right engine related car part for you.
