Hardpress Publishing

Bentley Publishers is the exclusive factory-authorized publisher of Audi Repair Manuals in the United States and Canada. The format has been designed for professional technicians so that finding applicable

specifications is quick and easy, and so that repair procedures can be grasped after a minimum of reading. All manuals are heavily illustrated with high-quality photographs and drawings, and cover aspects of maintenance and service work. Every manual is with factory specifications and tolerances. The "Audi A6 Electrical Wiring Manual: 1998-2000 covers Audi A6 models built on the "C5" platform through model year 2000. This manual has been prepared using factory wiring diagrams, electrical component location information and scan tool diagnostics. Whether you're a professional service technician or a do-it-yourself Audi owner, this manual will be indispensable as a source of the same detailed electrical system information available at an authorized Audi dealer. Unfortunately, Audi factory wiring diagrams are no longer available on paper. Even an Audi owner who has no intention of working on his or her car will find that reviewing and owning this manual will make it possible to discuss repairs more intelligently with a professional service technician.

Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

Electrical and Electronic Systems Tasksheet Manual for NATEF Proficiency is designed to guide automotive students through the tasks necessary to meet National Automotive Technicians Education Foundation (NATEF) requirements for National Institute for Automotive Service Excellence (ASE) Standard 6: Electrical and Electronic Systems. Organized by ASE topic area, companion tasks are grouped together for more efficient

completion, and are clearly labeled with CDX and NATEF task numbers and the NATEF priority level to help students easily manage responsibilities. This manual will assist students in demonstrating hands-on performance of the skills necessary for initial training in the automotive specialty area of electrical and electronic systems. It can also serve as a personal portfolio of documented experience for prospective employment. Used in conjunction with CDX Automotive, students will demonstrate proficiency in electrical/electronic fundamentals, diagnosis, service, and repair.
