Kiplinger's Personal Finance Penguin  
In this gripping psychological thriller--smart, chilling, and unrelenting--Nancy Springer establishes herself as an exciting new suspense writer with a distinctive voice and some surprises up her sleeve... To their neighbors, Dorrie and Sam Whiteare a contented couple in America ' s heartland, with steady jobs, a suburban home, and plenty of community activities to keep them busy. But they ' re not quite what they seem. For plain, hard-working Sam hides a depth of devotion for his wife that no one would suspect. And Dorrie is living a lie--beset by physical ailments, alone within herself...and secretly

following the comings and goings of the sixteen-year-old daughter, Juliet, she gave up for adoption when she was hardly more than a child herself. Then one day at the mall, Dorrie watches horror-stricken as Juliet is abducted, forced into a van that drives away. Instinctively, Dorrie sends her own car speeding after it--an act of reckless courage that puts her on a collision course with a depraved killer...and draws Sam into a dogged, desperate search to save his wife. As mother and daughter unite in a terrifying struggle to survive, to what extremes will Dorrie go in overcoming her own limitations...and in confronting her dark, tormented past?

This book addresses itself to mobilisation and involvement of rural people in development projects. It describes an imperfect but, nonetheless, exciting and thought-provoking exercise that drew social science researchers and students from four public universities in Kenya into an experiment in participatory research, community education and development in two locations. The experiment was grounded on the assumptions that the people of Kenya are a primary resource and that given proper roles and contribution of planners, researchers and programme implementers, self-sustainable development can become a reality. The contributors of this book have focused on the potential of the university to facilitate participation of the people in development. They have given specific suggestions on how this might be accomplished.

The automobile industry is evolving rapidly on a worldwide basis. Manufacturers are merging, component design and manufacture are now frequently outsourced instead of being created in-house, brands are changing and the giant auto makers are expanding deeper into providing financial services to car buyers. The skyrocketing price of gas spurs developments in hybrid technology and clean diesel, as manufacturers look for ways to improve fuel efficiency. Meanwhile, all of the biggest, most successful firms have become totally global in nature. Plunkett's Automobile Industry Almanac will be your complete guide to this immense, fascinating industry. On the car dealership side, giant, nationwide holding companies have acquired the best dealers in major markets. Even the used car business is being taken over by national chains. E-commerce is having profound effects on the car industry.

Consumers use the Internet to become better informed before making a purchase. Online sites like Autobyte steer millions of car buyers toward specific dealers while the same sites deliver competing bids for cars, insurance and financing in a manner that lowers costs and improves satisfaction among consumers. Meanwhile, auto makers are using the latest in e-commerce methods to manage their supply chains and replenish their inventories. This exciting new book (which includes a database on CD-ROM) is a complete reference tool for everything you need to know about the car, truck and specialty vehicles business, including: Automotive industry trends and market research; Mergers, acquisitions, globalization; Automobile manufacturers; Truck makers; Makers of specialty vehicles such as RVs; Automobile loans, insurance and other financial services; Dealerships; Components manufacturers; Retail auto parts stores; E-commerce; and much, much more. You'll find a complete overview, industry analysis and market research report in one superb, value-priced package. This book also includes statistical tables, an automobile industry glossary, industry contacts and thorough indexes. The corporate profile section of the book includes our proprietary, in-depth profiles of the 400 leading companies in all facets of the automobile industry. Purchasers may also receive a free copy of the company profiles database on CD-ROM.

Chilton Asian Service Manual: Hyundai, Kia, Lexus Cengage Learning Alfred C. Kinsey's revolutionary studies of human sexual behavior are world-renowned. His meticulous methods of data collection, from comprehensive entomological assemblies to personal sex history interviews, raised the bar for empirical evidence to an entirely new level. In *The Classification of Sex*, Donna J. Drucker presents an original analysis of Kinsey's scientific career in order to uncover the roots of his research methods. She describes how his enduring interest as an entomologist and biologist in the compilation and organization of mass data sets structured each of his classification projects. As Drucker shows, Kinsey's lifelong mission was to find scientific truth in numbers and through observation—and to record without prejudice in the spirit of a true taxonomist. Kinsey's doctoral work included extensive research of the gall wasp, where he gathered and recorded variations in over six million specimens. His classification and reclassification of Cynips led to the speciation of the genus that remains today. During his graduate training, Kinsey developed a strong interest in evolution and the links between entomological and human behavior studies. In 1920, he joined Indiana University as a professor in zoology, and soon published an

introductory text on biology, followed by a coauthored field guide to edible wild plants. In 1938, Kinsey began teaching a noncredit course on marriage, where he openly discussed sexual behavior and espoused equal opportunity for orgasmic satisfaction in marital relationships. Soon after, he began gathering case histories of sexual behavior. As a pioneer in the nascent field of sexology, Kinsey saw that the key to its cogency was grounded in observation combined with the collection and classification of mass data. To support the institutionalization of his work, he cofounded the Institute for Sex Research at Indiana University in 1947. He and his staff eventually conducted over eighteen thousand personal interviews about sexual behavior, and in 1948 he published *Sexual Behavior in the Human Male*, to be followed in 1953 by *Sexual Behavior in the Human Female*. As Drucker's study shows, Kinsey's scientific rigor and his early use of data recording methods and observational studies were unparalleled in his field. Those practices shaped his entire career and produced a wellspring of new information, whether he was studying gall wasp wings, writing biology textbooks, tracing patterns of evolution, or developing a universal theory of human sexuality. A Moment in Time will encourage believers to entertain principles of grace-based theology and, after careful consideration, embrace them. When we 're convinced of the gracious simplicity in acquiring the free gift of eternal life, it impacts how we share our faith. When we 're confident this free gift can 't be lost, it calms us down. When we 're certain Christ will repay and recompense us for what we do with this free gift, we 're motivated to "be holy" as He is holy. In looking at the biblical text, Christians will be reminded that justification is provided at no cost to them. They 'll see there 's room for failure in the Christian life. But they 'll also learn where there 's great grace, there 's great accountability--and great reward. It is wonderful to see this fresh look at many of the grace issues at a popular level. Mark Spencer has given us an insightful look into the implications of grace in the task of evangelism and discipleship. Recommended reading!! --Dr. Joseph Dillow Mark Spencer has the wonderful ability to communicate deep biblical truths in an interesting and straightforward way. The reader will find a clear articulation of the grace message and convincing arguments against those who have corrupted it. I am glad to see this comprehensive and persuasive presentation of the gospel of grace and its implications. It will serve us well as we seek to share this message with the world. --Dr. Charlie Bing This is a book that needs to be taken seriously as a helpful guide to developing a strategic plan to be servants of Christ in our areas of influence. As Mark said, his last 25 years as a police officer went by overnight - so how fast will the years fly by in our lives? We all have a mission and an obligation to be useful to the Master.
