Uncle Tom's Cabin (Classic
Reprint) Dundurn
Originating in India, the
Gypsies arrived in Europe

around the 14th century, spreading not only across the entirety of the continent but also immigrating to the Americas. The first Gypsy migration included farmworkers, blacksmiths, and mercenary soldiers, as well as musicians, fortune-tellers, and entertainers. At first, they were generally welcome as an interesting diversion to the dull routine of that period. Soon, however, they attracted the antagonism of the governing powers, as they have continually done throughout the following centuries. The second edition of the Historical Dictionary of the

Gypsies (Romanies) seeks to end such prejudice by clarifying the facts about this nomadic people. Through a list of acronyms, a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on significant persons, places, events, institutions, and aspects of culture, society, economy, and politics, the history of the Gypsies and their culture is told.

Mini Down Under traces the history of one of New Zealand's - and the world's - best-loved cars. More versions of the Mini were available in New Zealand than anywhere else, and the launching of the iconic car in February 1960 was a larger-than-life event. In this lively and personal story, the author tracks the Mini's life in New Zealand, the connection between Kiwi racing driver Bruce McLaren and the birth of the Mini Cooper, the heady days of competition success in the Antipodes, the local assembly and marketing of the classic original car and the eventual development into the latest generation Mini for a new century.

This is a book for tall people, those who relate to them, and anyone interested in height in general. Being tall coincides with considerable professional, athletic, and social benefits. Yet there are also some problems, and these raise some questions. For instance, if longer levers and more cells really are behind increased risk of injuries and cancer, then how is it that giraffes get by? And why is it that society reveres tall stature

but then compromises our safety with cramped cars and other things? And, as tall women might be pondering, where have all the tall, dark, and handsome men gone? Lastly, what can be done about all this? These questions and more will all be answered by a tall protagonist over eight chapters: Evolution, Scaling, Spine, Manufactured, Ergonomics, Growth, Longevity, and Society. How Asia Works Scarecrow Press
Essential for electrical installers and installation designers, the IEE Wiring Regulations (BS 7671) have been completely restructured and updated for the first time in over a decade: this 17th Edition of the IEE Wiring Regulations (BS 7671: 2008) will come into effect in June 2008. Guide to the Wiring Regulations is an authoritative and accessible guide to the 17th Edition, illustrating the

changes and providing real solutions to the problems that can often occur with practical interpretation. Written and developed by the Electrical Contractors' Association, Guide to the Wiring Regulations brings a wealth of experience to the subject and offers clear explanations of the changes in the Standard. Starting with full coverage of the legal requirements the book then goes on to: provide extensive advice on circuit design, selection and erection, wiring systems, earthing and bonding; explore the additional requirements of the Standard for protection against voltage disturbances and implementation of measures against electromagnetic influences (EMC); elaborate on the alterations to the inspection and testing requirements; feature practical information on the new special locations included in the 17th Edition, particularly exhibitions, shows and stands, floor and ceiling heating systems, mobile or transportable units and photovoltaic power systems; highlight the changes made in the new edition to existing special locations, including bathrooms, swimming pools, agricultural and

horticultural premises and caravan/camping parks. Guide to the Wiring Regulations is an outstanding resource for all users of the 17th Edition IEE Wiring Regulations (BS 7671: 2008) including electricians who want a better understanding of the theory behind the Standard, electrical technicians, installation engineers, design engineers, and apprentices. Both trainees and practitioners will find this guide indispensable for understanding the impact of the changes introduced in the 17th Edition (BS 7671: 2008). Dramaturgy, in its many forms, is a fundamental and indispensable element of contemporary theatre. In its earliest definition, the word itself means a comprehensive theory of "play making." Although it initially grew out of theatre, contemporary dramaturgy has made enormous advances in recent years, and it now permeates all kinds of narrative forms and structures: from opera to performance art; from dance and multimedia to filmmaking and robotics. In our global, mediated context of multinational group collaborations that dissolve traditional divisions of roles as well as unbend previously intransigent

rules of time and space, the dramaturg is also the ultimate globalist: intercultural mediator, information and research manager, media content analyst, interdisciplinary negotiator, social media strategist. This collection focuses on contemporary dramaturgical practice, bringing together contributions not only from academics but also from prominent working dramaturgs. The inclusion of both means a strong level of engagement with current issues in dramaturgy, from the impact of social media to the ongoing centrality of interdisciplinary and intermedial processes. The contributions survey the field through eight main lenses: world dramaturgy and global

perspective dramaturgy as function, verb and skill dramaturgical leadership and season planning production dramaturgy in translation adaptation and new play development interdisciplinary dramaturgy play analysis in postdramatic and new media dramaturgy social media and audience outreach. Magda Romanska is Visiting Associate Professor of Slavic Languages and Literatures at Harvard University, Associate Professor of Theatre and Dramaturgy at Emerson College, and Dramaturg for Boston Lyric Opera.
