Know your engines: Interference and non –

interference engines
I owe a 2003 Kia Sedona and just got 270,000 miles. never changed coils or anything else, however I do oil change as needed. Engine still running great with the exception that it has began to leak oil. Not sure if its time to get a new vehicle or invest around 600.00 and get a new gasket replacement and make a tune up.
2016 Kia Sedona Engine Problems | CarComplaints.com
The Hyundai Lambda engine family is the company's modern all-aluminum V6 engine. It is manufactured at Hyundai's HMMA plant in Montgomery, Alabama, United States. All versions of this engine use a timing chain.
Interference Engines - The Complete List - Your Car Angel
The following list will provide you the information on whether your car engine is an interference engine or a non-interference engine. An interference engine is one that has insufficient clearance between the valves and pistons if the cam stops turning due to a broken timing belt.

**Hyundai Lambda engine -
Wikipedia**

The 3.5L Kia engine is a
interference engine. All I can
say is to try and be moving the
timing marks closer to where
they belong on the camshafts,
along with getting the crank
shaft to TDC. Hopefully the
starter was not used, or the
valves would be bent. See if
you can work the timing marks
into place.
