**Jack McAfghan** Routledge

An expert communicator, Jack McAfghan writes the memoirs of his four-legged life as a mixed-breed Afghan Hound. From obedience and agility training to hospice work, Jack and his master learn their lessons side by side, inevitably applying what they have learned as their own lives unfold. It is a love story that can be used as an informal study guide for those who are in the process of training a dog, learning to love, or grieving over the loss of a friend. Jack presents with a wise, open and informed mind. He speaks firsthand about the psychological aspects of canine behavior as he opens the reader's mind to the possibilities that exist in life and after death. He reminds us that the way we think can change the course of our lives. This story will touch everyone who has ever loved. It matters not if they have four legs or two. Jack leads us to a higher love as he expands our tolerance and compassion for all of humanity. He extends himself to every creature of the earth, every human on the planet, every spirit in the universe and most of all, to the bona fide Master over all.

Over two hundred and thirty years ago the Fallocaust happened, killing almost everything that lived and creating what is now known as the greywastes. A dead wasteland where cannibalism is a necessity, death your reality, and life before the radiation nothing but pictures in dog-eared magazines. Reaver is a greywaster, living in a small block controlled by a distant ruler said to have started the Fallocaust. He is a product of the savage world he was raised in and prides himself on

being cold and cruel. Then someone new to his town catches his eye, someone different than everyone else. Without knowing why he starts to silently stalk him, unaware of where it will lead him.

Althusser and Law is the first book specifically dedicated to the place of law in Louis Althusser's philosophy. The growing importance of Althusser's philosophy in contemporary debates on the left has - for practical and political, as well theoretical reasons - made a sustained consideration of his conception of law more necessary than ever. As a form of what Althusser called 'Ideological State Apparatuses', law is at the forefront of political struggles: from the destruction of Labour Law to the exploitation of Patent Law; from the privatisation of Public Law to the ongoing hegemony of Commercial Law; and from the discourse on Human Rights to the practice of judicial courts. Is Althusser still useful in helping us to understand these struggles? Does he have something to teach us about how law is produced, and how it is used and misused? This collection demonstrates that Althusser's ideas about law are more important, and more contemporary, than ever. Indeed, the contributors to Althusser and Law argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life.

Germany, 1941: "We live together, or we die together." A novel that will stay with you forever, *The Girl Who Survived* tells the inspiring true story of Ilse Stein, a German Jew who was imprisoned in a ghetto--and who fell in love with the man she was supposed to loathe. For Ilse life is unrecognizable. A year ago, she wasn't forced to wear a star on her clothes. A year ago, her parents were alive, not yet killed by their own countrymen. A year ago, she had her freedom. Now, at the break of dawn, she steps off the cattle train into a Minsk ghetto. This is Ilse's new home: trapped by barbed wire, surrounded by SS guards she is forbidden to look in the eye, with no choice but to trade the last of her belongings for scraps of food. Sentenced for the crime of simply existing, she doesn't expect to live past the summer. Yet the prisoners in the ghetto refuse to give up--the underground resistance is plotting their escape. Ilse's first act of defiance is smuggling from the munitions factory, slipping bullets into the lining of her pockets. But this is just the beginning... When Ilse meets Wilhem, a local SS administrative officer, she never dreams that her greatest rebellion will be falling for him. Wilhem promises that she will survive, even if the cost is his life. But in a world of such danger, daring to love is the most dangerous risk of all... Fans of *The Tattooist of Auschwitz*, *The Choice*, and *The Orphan Train* will be completely gripped by this heartbreaking tale. Brian and his friends are not part of the cool crowd. They're the misfits and the troublemakers--the ones who jump their high school's fence to skip class regularly. So when a deadly virus breaks out, they're the only ones with a chance of surviving. The virus turns Brian's classmates and teachers into bloodthirsty attackers who don't die easily. The whole school goes on lockdown, but Brian and his best friend, Chad, are safe (and stuck) in the theater department--far from Brian's sister, Kenzie, and his ex-girlfriend with a panic attack problem, Laura. Brian and Chad, along with some of the theater kids Brian had never given the time of day before, decide to find the girls and bring them to the safety of the theater. But it won't be easy, and it will test everything they thought they knew about themselves and their classmates. **Challenges and Opportunities for Agricultural Intensification of the Humid Highland Systems of Sub-Saharan Africa** "O'Reilly Media, Inc."

The humid highlands in sub-Saharan Africa (SSA) are characterized by high population densities and require intensification. The Consortium for Improving Agriculture-based Livelihoods in Central Africa (CIALCA) has set up a research for development platform in various mandate areas in DR Congo, Burundi, and Rwanda, aiming to identify improved production, market, and nutrition options and facilitating the access for development partners to these options. This platform is supported by capacity building, multi-stakeholder dialogue, and monitoring and evaluation efforts. The conference, facilitated by CIALCA, aimed to (i) take stock of the state-of the art in agricultural intensification in the highlands of SSA and (ii) chart the way forward for agricultural research for development in the humid highlands of SSA, and more specifically in the recently launched Humidtropics Consortium Research Programme, through keynote, oral and poster presentations, and strategic panel discussions.
