For over 25 years Rob Siegel has written a monthly column called

"The Hack Mechanic" for the BMW Car Club of America's magazine Roundel. In Memoirs of a Hack Mechanic, Rob Siegel shares his secrets to buying, fixing, and driving cool cars without risking the kids' tuition money or destroying his marriage. And that's something to brag about considering the dozens of cars, including twenty-five BMW 2002s, that have passed through his garage over the past three decades. With a steady dose of irreverent humor, Memoirs of a Hack Mechanic blends car stories, DIY advice, and cautionary tales in a way that will resonate with the car-obsessed (and the people who love them).

Porting heads is an art and science. It takes a craftsman's touch to shape the surfaces of the head for the optimal flow characteristics and the best performance. Porting demands the right tools, skills, and application of knowledge. Few other engine builders have the same level of knowledge and skill porting engine heads as David Vizard. All the aspects of porting stock as well as aftermarket heads in aluminum and cast-iron constructions are covered. Vizard goes into great depth and

detail on porting aftermarket heads. Starting with the basic techniques up to more advanced techniques, you are shown how to port iron and aluminum heads as well as benefits of hand and CNC porting. You are also shown how to build a high-quality flow bench at home so you can test your work and obtain professional results. Vizard shows how to optimize flow paths through the heads, past the valves, and into the combustion chamber. The book covers blending the bowls, a basic porting procedure, and also covers pocket porting, porting the intake runners, and many advanced procedures. These advanced procedures include unshrouding valves, porting a shortside turn from the floor of the port down toward the valve seat, and developing the ideal port area and angle. All of these changes combine to produce optimal flow velocity through the engine for maximum power.

The very essence of meditation is finding peace within the chaos that enshrouds us all in our daily lives, and if we can just get ourselves to look at that daunting word a little bit differently, we will come to see that we don't need to have that sacred temple or shrine wherein we seek to cast aside our thoughts and enter

the blissful state of no mind we so desperately seek to attain. In this book you will learn all about the techniques that you will be able to use most effectively where it comes to performing meditation anywhere and anytime. You will come to see that what you once believed was a task best left to rishis and sages in the mystical Himalayas, is really something you can perform with the utmost ease, several times a day.

Man's interest in character is founded on an intensely practical need. In whatsoever relationship we deal with our fellows, we base our intercourse largely on our understanding of their characters. . . . Because the feelings are in part mirrored on the face and body, the experience of mankind has become crystallized in beliefs, opinions, and systems of character reading which are based on physiognomy, shape of head, lines of hand, gait, and even the method of dress and the handwriting. . . . A few of the methods used have become organized into specialties, such as the study of the head.
