Ashcroft was not just a place in Central British Columbia-it was a mindset, a refuge, and the testament of a family on a precarious journey during turbulent times in America. When Higgins got to Ashcroft life changed and instead of running from the CIA agent dispatched to find him, he now turned into the teeth of the monster that pursued him. The monster, he once lived to protect and fight for, was now the only enemy he had left. And the crawling sensation across his skull got more intense each time he tried to fight the system that wouldn't let him go... During the Vietnam War more than 50,000 draft-age Americans fled to Canada. It was the largest political exodus from the United States since the American Revolution. Crey Higgins was not a draft-dodger-he was regular Army and had served his tour of duty in Vietnam. A good soldier, with an excellent record, he went on the run and over the border for very different reasons... "After Ashcroft" is more than a compelling witness to the trials of many Americans that did more than fight in, or protest against, the Vietnam War. It's a journey into the dark world of mind-control, behavior modification, and surreptitious training of assassins by certain security agencies within the U.S. government. It may be too unbelievable-that's why it's called fiction.

Somewhere between hunting for gold in Latin America as a geologist and getting married to a new husband, thirty-three-year-old Susan Purvis loses her way. Susan comes to believe that a

puppy and working on ski patrol at the last great ski town in Colorado will improve her life. When she learns about avalanches that bury people without warning, she challenges herself: "What if I teach a dog to save lives?" This quest propels her to train the best possible search dog, vowing to never leave anyone behind. With no clue how to care for a houseplant, let alone a dog, she chooses a five-week-old Labrador retriever, Tasha. With the face of a baby bear and the temperament of an NFL linebacker, Tasha constantly tests Susan's determination to transform her into a rescue dog. Susan and Tasha jockey for alpha position as they pursue certification in avalanche, water, and wilderness recovery. Susan eventually learns to truly communicate with Tasha by seeing the world through her dog's nose. As the first female team in a male-dominated search-and-rescue community, they face resistance at every turn. They won't get paid even a bag of kibble for their efforts, yet they launch dozens of missions to rescue the missing or recover the remains of victims of nature and crime. Training with Tasha in the field to find, recover, and rescue the lost became Susan's passion. But it was also her circumstance-she was in many ways as lost as anyone she ever pulled out of an avalanche or found huddled in the woods.

"Lostness" doesn't only apply to losing the trail. People can get lost in a relationship, a business, or a life. Susan was convinced that only happened to other people, until Tasha and a life in the mountains taught her otherwise. **AB Bookman's Weekly Honor** from AshesHonor & Duty 3 This selection of smart, accessible essays covers CSI's cutting-edge science, intriguing mysteries, and engaging personal dynamics.
