Lucy Maud Montgomery. It is the story of a young man named Eric Marshall who goes to teach a school on Prince Edward Island and meets Kilmeny, a mute girl who has perfect hearing. He sees her when he is walking through an old orchard and hears her playing the violin. He visits her a number of times and gradually falls in love with her. When he proposes she rejects him, even though she loves him in return, believing that her disability will only hinder his life if they were married, despite his protests that it wouldn't matter at all. Meanwhile, Eric's good friend David who is a renowned throat

doctor, comes to the island and visits Eric. He examines Kilmeny, and says that nothing will cure her but an extreme psychological need to speak. This need comes soon when Neil Gordon, who is Kilmeny's brother and madly jealous of Eric, comes behind Eric with an axe, meaning to kill him. Kilmeny is nearby, and without thinking, she yells to Eric to look behind him: she can now speak. Neil runs away on a ship, and Kilmeny and Eric get married.

L.M. Montgomery's writings are replete with enchanting yet subtle and fluid depictions of nature that convey her intense appreciation for the natural world. At a time of ecological crises, intensifying environmental anxiety, and burgeoning eco-critical perspectives, L.M.

Montgomery and the Matter of Nature(s) repositions the Canadian author's relationship to nature in terms of current environmental criticism across several disciplines, introducing a fresh approach to her life and work. Drawing on a wide range of Montgomery's novels as well as her journals, this collection suggests that socio-ecological relationships encompass ideas of reciprocity, affiliation, autonomy, and the capacity for transformation in both the human and more-than-human worlds, and that these ideas are integral to Montgomery's vision and her literary legacy. Framed by the twin themes of materiality and interrelationships, essays by scholars of literature, law, animal studies, anthropology, and ecology examine place, embodiment, and difference in Montgomery's works and embrace the multiplicities embedded in the concept of nature. Through innovative critical approaches, L.M. Montgomery and the Matter of Nature(s) opens up conversations about humans' interactions with nature and the material environment.

Miss Montgomery continues to follow up the vein she opened in "Anne of Green Gables." These stories are all of Spencervale or Avonlea. Anne herself—or what we hope to be a caricature of her—appears on the cover, and is mentioned now and again within. But she is not the

leading figure in any of the tales, which might have been called "Romances of Middle Age," so strongly does a single motive dominate them. Ten out of the dozen stories deal with belated love-affairs, or with the pathetic devotion of age for youth.

In Valancy Stirling's rural Ontario town, marriage is thought to be a young woman's vital accomplishment. Yet Valancy, now in her late 20s, has never had a flicker of interest from any suitor. Add to this the oppressive home life she endures with her mother, and Valancy's misery is complete. In order to find some relief, she builds a fantasy world in her imagination—her "Blue Castle"—full of love and beauty. Even this, however, fails to support her when her chest pains prove to be the sign of a terminal condition. This traumatic discovery combines with Valancy's inspirational reading to prompt her to take back her life—much to her relatives' consternation.

Undeterred, Valancy finds new worth and freedom in relationships she could never have imagined before, which bring their own surprising twists and turns.
