This is the fully revised and expanded second edition of *English - One Tongue, Many Voices*, a book by three internationally distinguished English language scholars who tell the fascinating, improbable saga of English in time and space. Chapters trace the history of the language from its obscure beginnings over 1500 years ago as a collection of dialects spoken by marauding, illiterate tribes. They show how the geographical spread of the language in its increasing diversity has made English into an international language of unprecedented range and variety. The authors examine the present state of English as a global language and the problems, pressures and uncertainties of its future, online and offline. They argue that, in spite of the amazing variety and plurality of English, it remains a single language.

Kimberly Clark was born to the sound of cackling witches in 1984. Having moved to London to follow her heart's dream, the sweet-but-slow Stevie, she soon tires of him and decides to destroy the relationship from within by being as vile as is humanly possible. When this tactic leads to Stevie's violent death by his own hand, Kimberly's soul hangs in the balance - will she ultimately spend eternity in the great Topshop in the sky? Or will she be hurtled into an abyss of endless physical torture, sexual humiliation and bad stand-up comedy? This is the story of Kimberly's redemption, or possibly the story of her damnation: it's up to you. There are six different endings to choose between. This is a shocking, laugh-out-loud, nightmare-and-nausea-inducing book; a wild narrative experiment that recalls taboo-busting writers from William Burroughs to Irvine Welsh to Chuck Palahniuk.

The Sacketts of America Faber & Faber

Largely due to the tastes of nineteenth century Western collectors and curators, weaponry abounds in ethnographic museums. However, the relative absence of Asian, African, Native American and Oceanic arms and armour from contemporary gallery displays neither reflects this fact, nor accords these important artefacts the attention they deserve. Weapons are often those objects in museums which most strongly record traumatic histories of colonial conquest around the world, showcase a society's most complex technologies, and encode a wealth of historical information relating to violent conflict, cultural identities, and indigenous masculinities. This volume brings together an international collective of museum professionals, indigenous cultural historians, anthropologists and material culture specialists to address the historical role of weapon collections in ethnographic museums, and to reconsider the value of studying arms for the purposes of writing richer cultural histories. From Australia to the Amazon, from Uttar Pradesh to ancient Ulster, the essays in this book endeavour to return ethnographic weapons to the centre of material culture studies. In doing so, they offer a blueprint for a more sophisticated future treatment of world weaponry.

How much do we keep from the people we love? Why is the truth so often buried in secrets? Can we learn from the past or must we forget it? Standing one evening at the window of her house by the sea, Anne Quirk sees a rabbit disappearing in the snow. Nobody remembers her now, but this elderly woman was in her youth a pioneer of British documentary photography. Her beloved grandson, Luke, now a captain with the Royal

Western Fusiliers, is on a tour of duty in Afghanistan, part of a convoy taking equipment to the electricity plant at Kajaki. The Illuminations Faber & Faber

Black Gold and Blackmail seeks to explain why great powers adopt such different strategies to protect their oil access from politically motivated disruptions. In extreme cases, such as Imperial Japan in 1941, great powers fought wars to grab oil territory in anticipation of a potential embargo by the Allies; in other instances, such as Germany in the early Nazi period, states chose relatively subdued measures like oil alliances or domestic policies to conserve oil. What accounts for this variation? Fundamentally, it is puzzling that great powers fear oil coercion at all because the global market makes oil sanctions very difficult to enforce. Rosemary A. Kelanic argues that two variables determine what strategy a great power will adopt: the petroleum deficit, which measures how much oil the state produces domestically compared to what it needs for its strategic objectives; and disruptibility, which estimates the susceptibility of a state's oil imports to military interdiction—that is, blockade. Because global markets undercut the effectiveness of oil sanctions, blockade is in practice the only true threat to great power oil access. That, combined with the devastating consequences of oil deprivation to a state's military power, explains why states fear oil coercion deeply despite the adaptive functions of the market. Together, these two variables predict a state's coercive vulnerability, which determines how willing the state will be to accept the costs and risks attendant on various potential strategies. Only those great powers with large deficits and highly disruptible imports will adopt the most extreme strategy: direct control of oil through territorial conquest.

Sustainable Security Oxford University Press

The world order built upon the Peace of Westphalia is faltering. State fragility or failure are endemic, with no fewer than one-third of the states in the United Nations earning a "high warning"—or worse—in the Fragile States Index, and an equal number suffering a decline in sustainability over the past decade.<sup>1</sup> State weakness invites a range of illicit actors, including international terrorists, globally networked insurgents, and transnational criminal organizations (TCOs). The presence and operations of these entities keep states weak and incapable of effective governance, and limit the possibility of fruitful partnerships with the United States and its allies. Illicit organizations and their networks fuel corruption, eroding state legitimacy among the governed, and sowing doubt that the state is a genuine guardian of the public interest. These networks can penetrate the state, leading to state capture, and even criminal sovereignty.<sup>2</sup> A growing number of weak and corrupt states is creating gaping holes in the global rule-based system of states that we depend on for our security and prosperity. Indeed, the chapters of this book suggest the emergence of a highly adaptive and parasitic alternative ecosystem, based on criminal commerce and extreme violence, with little regard for what we commonly conceive of as the public interest or the public good. The last 10 years have seen unprecedented growth in interactivity between and among a wide range of illicit networks, as well as the emergence of hybrid organizations that use methods characteristic of both terrorist and criminal groups. In a convergence of interests, terrorist organizations collaborate with cartels, and trafficking organizations collude with insurgents. International terrorist organizations, such as al-Qaeda and Hezbollah, engage energetically in transnational crime to raise funds for their operations. Prominent criminal organizations like Los Zetas in Mexico and D-Company in Pakistan have adopted the symbolic violence of terrorists—the propaganda of the deed—to secure their "turf." And networked insurgents, such as the Islamic State of Iraq and the Levant (ISIL), the Revolutionary Armed Forces of Colombia (FARC), and the Liberation Tigers of Tamil Eelam (LTTE), have adopted the techniques of both crime and terror.

"This book offers the first significant examination of the rise of neo-nationalism and its impact on the missions, activities, behaviors, and productivity of leading national universities. This book also presents the first major comparative exploration of the role of national politics and norms in shaping the role of universities in nation-states, and vice versa, and discusses when universities are societal leaders or followers—in promoting a civil society, facilitating talent mobility, in researching challenging social problems, or in reinforcing and supporting an existing social and political order"—

Fintan Buckley is a pleasant, rather conventional and unimaginative man, who works as a legal adviser in an import/export firm in Dublin. He lives in Howth and is married to Colette. They have two sons who are at university, and a small daughter. As he goes about his life, working and spending time with his family, Fintan begins to experience states of altered consciousness and auditory hallucinations, which seem to take him out of a linear experience of time. He becomes interested in how we remember or imagine the past, an interest triggered by becoming aware of early photography, particularly early colour

photography. He also finds himself thinking more about his own past, including time spent holidaying in the north of Ireland as a child with his father's family. Over the years he has become distanced from them, and in the course of the novel this link is re-established and helps to bring him understanding and peace, although in a most unexpected way. Time Present and Time Past, Deirdre Madden's eighth novel for adults, is about time: about how not just daily life and one's own, or one's family's past, intersect with each other.

"Willy Vlautin is not known for happy endings, but there's something here that defies the downward pull. In the end, Lynette is pure life force: fierce and canny and blazing through a city that no longer has space for her, and it's all Portland's loss."—Portland Monthly Magazine Award-winning author Willy Vlautin explores the impact of trickle-down greed and opportunism of gentrification on ordinary lives in this scorching novel that captures the plight of a young woman pushed to the edge as she fights to secure a stable future for herself and her family. Barely thirty, Lynette is exhausted. Saddled with bad credit and juggling multiple jobs, some illegally, she's been diligently working to buy the house she lives in with her mother and developmentally disabled brother Kenny. Portland's housing prices have nearly quadrupled in fifteen years, and the owner is giving them a good deal. Lynette knows it's their last best chance to own their own home—and obtain the security they've never had. While she has enough for the down payment, she needs her mother to cover the rest of the asking price. But a week before they're set to sign the loan papers, her mother gets cold feet and reneges on her promise, pushing Lynette to her limits to find the money they need. Set over two days and two nights, *The Night Always Comes* follows Lynette's frantic search—an odyssey of hope and anguish that will bring her face to face with greedy rich men and ambitious hustlers, those benefiting and those left behind by a city in the throes of a transformative boom. As her desperation builds and her pleas for help go unanswered, Lynette makes a dangerous choice that sets her on a precarious, frenzied spiral. In trying to save her family's future, she is plunged into the darkness of her past, and forced to confront the reality of her life. A heart wrenching portrait of a woman hungry for security and a home in a rapidly changing city, *The Night Always Comes* raises the difficult questions we are often too afraid to ask ourselves: What is the price of gentrification, and how far are we really prepared to go to achieve the American Dream? Is the American dream even attainable for those living at the edges? Or for too many of us, is it only a hollow promise?

NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY DWIGHT GARNER, THE NEW YORK TIMES • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY San Francisco Chronicle | NPR | The Root | The Telegraph | The Globe and Mail NATIONAL BESTSELLER • FINALIST, PHILLIS WHEATLEY BOOK AWARD • TEJU COLE WAS NAMED ONE OF THE MOST INFLUENTIAL AFRICANS OF THE YEAR BY NEW AFRICAN MAGAZINE For readers of Chimamanda Ngozi Adichie and Michael Ondaatje, *Every Day Is for the Thief* is a wholly original work of fiction by Teju Cole, whose critically acclaimed debut, *Open City*, was the winner of the PEN/Hemingway Award and a finalist for the National Book Critics Circle Award, and was named one of the best books of the year by more than twenty publications. Fifteen years is a long time to be away from home. It feels longer still because I left under a cloud. A young Nigerian living in New York City goes home to Lagos for a short visit, finding a city both familiar and strange. In a city dense with story, the unnamed narrator moves through a mosaic of life,

hoping to find inspiration for his own. He witnesses the "yahoo yahoo" diligently perpetrating email frauds from an Internet café, longs after a mysterious woman reading on a public bus who disembarks and disappears into a bookless crowd, and recalls the tragic fate of an eleven-year-old boy accused of stealing at a local market. Along the way, the man reconnects with old friends, a former girlfriend, and extended family, taps into the energies of Lagos life—creative, malevolent, ambiguous—and slowly begins to reconcile the profound changes that have taken place in his country and the truth about himself. In spare, precise prose that sees humanity everywhere, interwoven with original photos by the author, *Every Day Is for the Thief*—originally published in Nigeria in 2007—is a wholly original work of fiction. This revised and updated edition is the first version of this unique book to be made available outside Africa. You've never read a book like *Every Day Is for the Thief* because no one writes like Teju Cole. Praise for *Every Day Is for the Thief* "A luminous rumination on storytelling and place, exile and return . . . extraordinary."—San Francisco Chronicle "Cole is following in a long tradition of writerly walkers who, in the tradition of Baudelaire, make their way through urban spaces on foot and take their time doing so. Like Alfred Kazin, Joseph Mitchell, J. M. Coetzee, and W. G. Sebald (with whom he is often compared), Cole adds to the literature in his own zeitgeisty fashion."—The Boston Globe
