Fintan Buckley is a pleasant, rather conventional and unimaginative man, who works as a legal adviser in an import/export firm in Dublin. He lives in Howth and is married to Colette. They have two sons who are at university, and a

small daughter. As time spent he goes about his life, working and spending time with his family, Fintan begins to experience states of altered consciousness and auditory hallucinations, which seem to take him out of a linear experience of time. He becomes interested in how we remember or imagine the past, an interest triggered by becoming aware of early photography, particularly early colour photography. He also finds himself thinking more about his own past, including

holidaying in the north of Ireland as a child with his father's family.

Over the years he has become distanced from them, and in the course of the novel this link is re-established and helps to bring him understanding and peace, although in a most unexpected way. Time Present and Time Past, Deirdre Madden's eighth novel for adults, is about time: about how not just daily life and one's own, or one's family's past, intersect with each other.

Kimberly Clark was
born to the sound of
cackling witches in
1984. Having moved
to London to follow
her heart's dream,
the sweet-but-slow
Stevie, she soon tires
of him and decides to
destroy the
relationship from
within by being as
vile as is humanly
possible. When this
tactic leads to Stevie's
violent death by his
own hand,
Kimberly's soul
hangs in the balance -
will she ultimately
spend eternity in the
great Topshop in the

sky? Or will she be
hurtled into an abyss
of endless physical
torture, sexual
humiliation and bad
stand-up comedy?
This is the story of
Kimberly's
redemption, or
possibly the story of
her damnation: it's up
to you. There are six
different endings to

is a shocking, laugh-

spends a worrying amount of time patrolling the grounds of the local primary school. Bobby - the so-called 'love child of Keith Haring and Basquiat', holed up in a Middlesbrough tower block - works on his canvases under the influence of pills-on-toast, acid-on-crackers and Francis Bacon. If history matters for understanding key development outcomes then surely historians should be active contributors to the debates informing these understandings. This volume integrates, for the first time, contributions from ten leading historians and seven policy advisors around the central development issues of social protection, public health, public education and natural resource management. How did certain ideas, and not others, gain traction in shaping particular policy responses? How did the content and effectiveness of these responses vary across different countries, and indeed within them? Achieving this is not merely a matter of seeking to 'know more' about specific times, places and issues, but recognising the distinctive ways in which historians rigorously assemble, analyse and interpret diverse forms of evidence. This book will appeal to students and scholars in development studies, history, international relations, politics and geography as well as policy makers and those working for or studying NGOs.

Every Day Is for the Thief Faber & Faber

This book provides the fullest account ever published of the external influences on English during the first thousand years of its formation. In doing so it makes profound contributions to

the history of English and of western culture more generally. English is a Germanic language but altogether different from the other languages of that family. Professor Miller shows how and why the Anglo-Saxons began to borrow and adapt words from Latin and Greek. He provides detailed case studies of the processes by which several hundred of them entered English. He also considers why several centuries later the process of importation was renewed and

accelerated. He describes the effects of English contacts with the Celts, Vikings, and French, and the ways in which these altered the language's morphological and syntactic structure. He shows how loanwords from French, for example, not only increased the richness of English derivation but resulted in a complex competition between native and borrowed suffixes. Gary Miller combines historical, cultural, and linguistic perspectives. His

scholarly, readable, and always fascinating account will be of enduring value to everyone interested in the history of English.

This is the fully revised and expanded second edition of *English - One Tongue, Many Voices*, a book by three internationally distinguished English language scholars who tell the fascinating, improbable saga of English in time and space. Chapters trace the history of the language from its obscure beginnings over 1500 years ago as a collection of dialects spoken by marauding, illiterate tribes. They show how the geographical spread of the language in its increasing diversity has made English into an international language of unprecedented range and variety. The authors examine the present state of English as a global language and the problems, pressures and uncertainties of its

future, online and offline. They argue that, in spite of the amazing variety and plurality of English, it remains a single language.

Lose yourself in an epic naval journey in the second novel in the Booker Prize-winning *Sea Trilogy* by the author of *Lord of the Flies*.

This tropical nowhere was the whole world - the whole imaginable world. A decrepit warship is becalmed halfway to Australia, stilled in an ocean wilderness of heat and sea mists. In this surreal, fê te-like atmosphere, a ball is held with a passing ship: the passengers dance and flirt, while

beneath them seaweed like green hair spreads omniously over the hull. Half-mad with fear, drink, love and opium, both vessel and passengers feel themselves going to pieces: and the very planks seem to twist themselves alive as the ship comes apart at the seams . . . creative insurrection, narcotic excess, mental illness, wanderlust, self-sabotage, fractured masculinity, and the ruthless pursuit of absolute art. Co-written with lucidity and humour by singer Lias Saoudi and acclaimed author Adelle Stripe, *Ten Thousand Apologies* is that rare thing: a music book that barely features any music, a biography as literary as any novel, and a confessional that does not seek forgiveness. "Extraordinary"--THE NEW YORKER In the formally innovative tradition of *Grief Is the Thing with Feathers* and *Ducks*, Newburyport comes a dazzlingly original, shot-in-the-arm of a debut that reveals a young woman's every thought over the course of one deceptively ordinary day. She wakes up, goes to work. Watches the clock and checks her phone. But underneath this

monotony there's
something else going
on: something under
her skin. Relayed in
interweaving columns
that chart the feedback
loop of memory, the
senses, and modern
distractions with wit
and precision, our
narrator becomes
increasingly anxious as
the day moves on: Is
she overusing the heart
emoji? Isn't drinking
eight glasses of water a
day supposed to fix
everything? Why is the
etiquette of the
women's bathroom so
fraught? How does she
define rape? And why
can't she stop
scratching? Fiercely
moving and slyly
profound, little scratch
is a defiantly playful
look at how our minds
function in--and
survive--the darkest
moments.
