Accounting: Building Business Skills 2nd edition is the new edition of the widely used and respected Australasian adaptation of the market leading texts Financial Accounting and Managerial Accounting by Kimmel, Weygandt and Kieso. The new edition continues with the features and style that had been well received by academics and students alike with the first edition. The text maintains the balance between a "user" and "preparer" perspective effectively integrating real financial data and business decisions throughout the material and presenting a "macro" view of accounting information through the use of real company information and financial statements. The authors clearly establish for students how a financial statement communicates the financing, operating, and investing activities of a business. The text builds a strong conceptual understanding and develops skills in the application of accounting principles and techniques, providing students with a solid foundation for further studies in accounting. The integral role of financial statements for decision making is also emphasised in this text and is reinforced throughout by the Decision Toolkit in each chapter. Students are provided with an extensive set of tools necessary to make business decisions based on financial information. The second edition continues to engage, excite and educate students. NEW TO THE

SECOND EDITION The Colorado Group Ltd, known by most students, is the 'focus' company, and was chosen because it operates in the retail industry and has easy to read financial reports. Consideration of changes in the international accounting community as a result of the introduction of IFRSs. Updated content on regulatory guidelines and influences Chapter 11 Cash flow statement updated to include a simplified method for preparing cash flow statement Chapter 12 Financial Statement Analysis contains an example of a good financial report which will be useful for students to consult before starting an assignment Thorough adaptation for Australian and New Zealand students Real world companies and financial information updated and used to highlight accounting processes and reinforce learning Australian, New Zealand and International Business Insights will apply accounting tools to business decisions. Two new chapters; new chapter on liabilities and new chapter on equity End of chapter activities offer a new range of activities to develop business skills like analysis, communication, critical thinking, and exploratory techniques. A new Problem Set B offers a second set of problems in each chapter FEATURES A balance between the user and preparer perspectives Global nature of today's business world is emphasised via the International Notes Chapter-Opening Previews contain charts that visually represent the chapter's outline. Each of these chapter "road maps" establishes the chapter's key concepts and their relationship to one another. Chapter-Opening Vignettes are brief stories that show students how key topics of the chapter relate to the real world of business and accounting. The majority of vignettes end with the Internet address of the company cited in the story, encouraging students to further explore the featured business. Throughout the chapter the authors refer back to opening vignettes, putting ideas back into familiar context for the student. Business Insight boxes relate the chapter's content to actual accounting situations in real business. Three different icons identify three different points of view: Management Insights, Investor Insights and International Insights Before You Go On, Review It, Do It questions serve as learning checks at the end of major text sections. Do It exercises ask students to put their knowledge to work in some form of financial statements preparation. Worked solutions show how problems should be solved. Using the Decision Toolkit exercise challenges students to use financial information from a financial statement to make a financial decision. This feature appears after the last Before You Go On section in each chapter. Strong emphasis on accounting as a business decision tool and processes Strong emphasis on the new conceptual framework and its application as a result of IFRSs To enhance conceptual understanding of the impact of transactions, accounting equation analyses appear in the margins next to each journal entry Features 4 colour presentation, and the pedagogical features are supported with graphics and photographs SUPPLEMENTS: PowerPoint, Solutions manual, Test bank,

"What consistently ranks as one of the top career opportunities in business? What frequently rates among the most popular majors on campus? What was the undergraduate degree chosen by Nike founder Phil Knight, Home Depot co-founder Arthur Blank, former acting director of the Federal Bureau of Investigation (FBI) Thomas Pickard, and numerous members of Congress? Accounting.1 Why did these people choose accounting? They wanted to understand what was happening financially to their organizations. Accounting is the financial information system that provides these insights. In short, to understand your organization, you have to know the numbers. Accounting consists of three basic activities-it identifies, records, and communicates the economic events of an organization to interested users. Let's take a closer look at these three activities"--

Canadian Financial Accounting Cases, 3rd edition has been developed to bridge the gap between the foundational concepts and the real world. Students are introduced to the case study methodology for financial accounting, which focuses on identifying the issue, understanding implications, developing alternatives, and making recommendations. Students must also be able to understand the overall financial reporting landscape and the overall impact of the individual accounting issues. The cases range from introductory level to advanced level and can be used as assignments, exams, or for in-class discussions. The cases have been developed using IFRS (Part I), ASPE (Part II) or ASNPO (Part III) as the accounting frameworks, providing students with exposure to many different types of organizational structures, and have been linked to the CPA Competency Map. Instructors are provided with detailed teaching notes and marking keys that will assist in guiding the class discussions and assessments.

While there is growing interest in IFRS within the US, interest outside the US has exploded. Weygandt's fourth edition of Financial Accounting: IFRS highlights the integration of more US GAAP rules, a desired feature as more foreign companies find the United States to be their largest market. The highly anticipated new edition retains each of the key features (e.g. TOC, writing style, pedagogy, robust EOC) on which users of Weygandt Financial have come to rely, while putting the focus on international companies/examples, discussing financial accounting principles and procedures within the context of IFRS, and providing EOC exercises and problems that present students with foreign currency examples instead of solely U.S. dollars.

With this fourth edition, accountants will acquire a practical set of tools and the confidence they need to use them effectively in making business decisions. It better reflects a more conceptual and decision-making approach to the material. The authors follow a "macro-to micro-" strategy by starting with a discussion of real financial statements first, rather than starting with the Accounting Cycle. The objective is to establish how a financial statement communicates the financing, investing, and operating activities of a business to users of accounting information. This motivates accountants by grounding the discussion in the real world, showing them the relevance of the topics covered to their careers.
