Pandemics, global climate chaos, worldwide migration crises? These phenomena are provoking traumatic experiences in unprecedented ways and numbers. This book is targeted for clinicians, scientists, cultural theorists, and other scholars and students of trauma studies interested in cultivating interdisciplinary understandings of trauma and posttraumatic conditions, especially resistance, resilience, and posttraumatic growth. Following clinicians' invitation for trauma survivors to wear a philosopher's hat, to engage in creative activities, and to

employ cognitive exercises to combat psychic constriction, I introduce the concept of a Literary Arts Praxis. The Praxis is built on clinical research and literature seeped in existential, phenomenological, and aesthetic themes. I argue that an educational training in a Praxis might help trauma survivors to get at trauma, as they engage in imaginative escapades, while forging alliances with characters; interpretative exercises, such as triggering emotions through phenomenological experiences; and creative writing endeavors, that include turning testimonies into imaginative stories.

In light of new proposals to control undocumented migrants in the United States, *Parcels* prioritizes rural Salvadoran remembering in an effort to combat the collective amnesia that supports the logic of these historically myopic strategies. Mike Anastario investigates the social memories of individuals from a town he refers to as " El Norte ñ o, " a rural municipality in El Salvador that was heavily impacted by the Salvadoran Civil War, which in turn fueled a mass exodus to the United States. By working with two viajeros (travelers) who exchanged encomiendas (parcels containing food, medicine, documents, photographs and letters) between those in the U.S. and El Salvador, Anastario tells the story behind parcels and illuminates their larger cultural and structural significance. This narrative approach elucidates key arguments concerning the ways in which social memory permits and is shaped by structural violence, particularly the U.S. actions and policies that have resulted in the emotional and physical distress of so many Salvadorans. The book uses analyses of testimonies, statistics, memories of migration, the war and, of course, the many parcels sent over the border to create an innovative and necessary account of post-Civil War El Salvador.
