The Complete User's Guide to the Amazing Amazon Kindle Createspace Independent Publishing Platform

É If my present reader happens to be a Boy Scout or a scout-master who wants the scouts to build a tower for exhibition purposes, he can do so by following the directions here given, but if there is real necessity for haste in the erection of this tower, of course we cannot build one as tall as we might where we have more time. With a small tower all the joints may be quickly lashed together with strong, heavy twine, rope, or even wire; and in the wilderness it will probably be necessary to bind the joints with pliable roots, or cordage made of bark or withes; but as this is not a book on woodcraft we will suppose that the reader has secured the proper material for fastening the joints of the frame of this signal-tower and he must now shoulder his axe and go to the woods in order to secure the necessary timber. First let him cut eight straight polesÑthat is, as straight as he can find them. These poles should be about four and one half inches in diameter at their base and sixteen and one half feet long. After all the branches are trimmed off the poles, cut four more sticks each nine feet long and two and a half or three inches in diameter at the base; when these are trimmed into shape one will need twenty six or seven more stout sticks each four and one half feet long for braces and for flooring for the platform.

We all love to read and learn from books, but The Repurposed Library takes our passion even further, presenting us with 33 projects to make--quite literally--out of books. For these projects, Lisa Occhipinti rescues and repurposes orphaned and outdated books from flea markets and library sales and turns them into new art objects and practical items for the home. Her creations range from artfully constructed mobiles, wreaths, and vases, to functional items like shelves, storage boxes, and even a Kindle "keeper" for those who want to replicate the sensation of holding a "real" book while reading from an e-reader. Projects utilize every imaginable part of a book--from hardback cover to individual pages--and are a DIY celebration of a new way to view a book's potential. Praise for The Repurposed Library: "In an age when the bound book is an endangered species, [Occhipinti's] artwork is nicely topical. She now has a book of her own, The Repurposed Library, out this week from Stewart, Tabori & Chang. In it, she offers readers a how-to guide to making household objects from, well, books, like a mirror, a lamp

and a fire screen, as well as the winsome mobile shown on the cover." - The New York Times "Book hoarders rejoice: all those random children's books, encyclopedias, and unread paperbacks are about to find their purpose . . . Furnished with cheery photographs and numerous hand-drawn diagrams, this endearing book will appeal to veteran crafters and literati alike." -BUST magazine “ The book is really well-made, fittingly. The photography by Thayer Allyson Gowdy is wonderful and really shows off the projects—and everything in the background is as tastefully arranged as a Crate & Barrel catalog. . . . if you love books as objects, The Repurposed Library is a fun collection of project ideas. ” —Wired.com “ We love how everyday objects like a colorful collection of vintage books can double as d é cor. . . . Th[e] cute wall-hung book ledge is easy to make and provides a perfect perch for treasured keepsakes. —Natural Home & Garden Delete Books on Your Kindle Right Away CreateSpace
