"Nurses play a vital role in improving the safety and quality of patient care -- not only in the hospital or ambulatory treatment facility, but also of community-based care and the care performed by family members. Nurses need know what proven techniques and interventions they can use to enhance patient outcomes. To address this need, the Agency for Healthcare Research and Quality (AHRQ), with additional funding from the Robert Wood Johnson Foundation, has prepared this comprehensive, 1,400-page, handbook for nurses on patient safety and quality -- Patient Safety and Quality: An Evidence-Based Handbook for Nurses. (AHRQ Publication No. 08-0043)."--Online AHRQ blurb, <http://www.ahrq.gov/qual/nursesbdbk>.

The Tool & Manufacturing Engineer

Profitable cold-water fish and vegetable production. Join the aquaponic farming revolution! Aquaponic farming-raising fish and vegetables together commercially-is the most promising innovation for a sustainable, profitable, localized food system. Until now, systems have largely focused on warm-water fish such as tilapia. A lack of reliable information for raising fish and vegetables in the cool climates of North America and Europe has been a major stumbling block. The Aquaponic Farmer is the game changer.

---

Built around a proven 120-foot greenhouse system operable by one person, the book distills vast experience and complete step-by-step guidance for starting and running a cold-water aquaponics business. Coverage includes: A primer on cold-water aquaponics Pros and cons of different systems Complete design and construction of a Deep Water Culture system Recommended and optional equipment and tools System management, standard operating procedures, and maintenance checklists Maximizing fish and veg production Strategies for successful sales and marketing of fish and plants As the only comprehensive commercial cold-water resource, The Aquaponic Farmer is essential for farmers contemplating the aquaponics market, aquaponics gardeners looking to go commercial, and anyone focused on high quality food production. Adrian Southern is steeped in all

things aquaponic. After years of urban farming and system perfection, he co-founded Raincoast Aquaponics and raises trout and vegetables for a living in the Cowichan Valley on Vancouver Island, BC. Whelm King is a business manager, project manager, and entrepreneur who has worked in the arts, agriculture, publishing, media, and law. He is co-founder of Raincoast Aquaponics and lives in Nanaimo, BC.

This book presents a general and comprehensive framework for the assurance of quality in measurements. Written by a foremost expert in the field, the text reflects an on-going international effort to extend traditional quality assured measurement, rooted in fundamental physics and the SI, to include non-physical areas such as person-centred care and the social sciences more generally. Chapter by chapter, the book follows the measurement quality assurance loop, based on Deming's work. The author enhances this quality assurance cycle

with insights from recent research, including work on the politics and philosophy of metrology, the new SI, quantitative and qualitative scales and entropy, decision risks and uncertainty when addressing human challenges, Man as a Measurement Instrument, and Psychometry and Person-centred care. Quality Assured Measurement: Unification across Social and Physical Sciences provides students and researchers in physics, chemistry, engineering, medicine and the social sciences with practical guidance on designing, implementing and applying a quality-assured measurement while engaging readers in the most novel and expansive areas of contemporary measurement research.

Much like € The Jungle, € King Coal € is a novel about the abismal working conditions of coal miners. It is loosely based on the 1914 Colorado coal strikes. It is typical of his critical novels by being told from the perspective of the little guy and a

struggling union. King Coal offers plenty for historians of early labor unions or those who just enjoy a story about the underdog.
