The act of imagining lies at the very heart of children's engagements with literature and with the plots and characters they encounter in their favorite stories. The [Courage to Imagine](#) is a landmark new study of that fundamental act of imagining. Roni Natov focuses on the ways in which children's imaginative engagement with the child hero figure can open them up to other people's experiences, developing empathy across lines of race, gender and sexuality, as well as helping them to confront and handle traumatic experience safely. Drawing on a wide range of theoretical approaches from the psychological to the

cultural and reading a multicultural spectrum of authors, including works by Maya Angelou, Louise Erdrich, Neil Gaiman and Brian Selznick, this is a groundbreaking examination of the nature of imagining for children and re-imagining for the adult writer and illustrator.

These two works belong to that group of books written by one of this century's fiercest and most devoted child advocates. In the first, Korczak uses fiction to reveal the joys and sorrows of a child, a ten-year-old, juxtaposing them against the feelings of an adult as they both react to two days of adventure spent together. Two prominent themes in his writing are the exploration of the place of children in an adult world and the examination of the treatment and regard children are accorded in that world. In his second book, Korczak spells out his 'Magna Charta Libertatis' in defense of the child's right to respect, right to be him or herself, and, most importantly, right to respect for the strenuous effort expended in the process of 'growing up.'

For many of us, our earliest and most meaningful experiences with literature occur through the medium of a

translated children's book. This volume focuses on the complex interplay that happens between text and context when works of children's literature are translated: what contexts of production and reception account for how translated children's books come to be made and read as they are? How are translated children's books adapted to suit the context of a new culture? Spanning the disciplines of Children's Literature Studies and Translation Studies, this book brings together established and emerging voices to provide an overview of the analytical, empirical and geographic richness of current research in this field and to identify and reflect on common insights, analytical perspectives and trajectories for future interdisciplinary research. This volume will appeal to an interdisciplinary audience of scholars and students in Translation Studies and Children's Literature Studies and related disciplines. It has a broad geographic and cultural scope, with contributions dealing with translated children's

literature in the United Kingdom, the United States, Ireland, Spain, France, Brazil, Poland, Slovenia, Hungary, China, the former Yugoslavia, Sweden, Germany, and Belgium.

The Good Doctor of Warsaw
Farrar, Straus and Giroux
In this hilarious classic adventure, an innocent boy and his friends must stop a plot to topple the King of England. Simon, the foundling from *The Wolves of Willoughby Chase*, arrives in London to meet an old friend and pursue the study of painting. Instead he finds himself unwittingly in the middle of a wicked crew's fiendish caper to overthrow the good King James and the Duke and Duchess of Battersea. With the help of his friend Sophie and the resourceful waif Dido, Simon narrowly escapes a series of madcap close calls and dangerous run-ins. In a time and place where villains do nothing halfway, Simon is faced with wild wolves, poisoned pies, kidnapping, and a wrecked ship. This is a cleverly contrived tale of intrigue and misadventure. Perfect for fans of Lemony Snicket and Roald Dahl "It's a marvel!" —The New Yorker "A wild yarn, not to be put down once it is started."

—Washington Post "A riot of wildly improbable adventures happening to absurd and loveable characters with Dickensian names in a time

that never was . . .

Heartrending, hair-raising, rib-tickling, and delightful." —New York Times

The twentieth century left humanity in despair. Two World Wars caused the death of more than seventy million people. The Holocaust of the Jews and genocide against other groups left us the images of factories of death and names of unimagined cruelty. Humanity learned about its unlimited ability to inflict suffering and death. Hell appeared as a human-made reality. Two educators, the Polish-Jewish educator and children's rights advocate Janusz Korczak (murdered in Treblinka in 1942), and Yitzhak Katzenelson, a Bible teacher, dramatist and a poet (murdered in Auschwitz in 1944), shared the same historical reality but responded in very different ways. A comparative study of their legacies leads explores questions of identity, leadership, and the educators' role in the face of totalitarianism, terror and genocide. The book may appeal to teachers in all disciplines who deal with their identity as educators, and to historians and civic rights activists in any society, culture or

nationality.

The Man Who Knew How to Love Children tells the story of young Itzchak Belfer, the author and artist, at a joyful and pleasant orphanage. It was a beautiful big four story building, and it had a great hall for performances and a black grand piano. There was no other house like it anywhere in the world. It was the children's empire. They had daily duties and chores, and yet enjoyed great freedom to decide and adjust the rules. Belfer is one of three living children from the famous Janusz Korczak orphanage in Warsaw, Poland. He allows us a rare glimpse into Korczak's innovative liberal methods of thinking and education, over a hundred years ago, by describing his daily life, the house arrangements, and the way conflicts were resolved. No doubt, Korczak's great personality and attitude during the most crucial eight years of Belfer's childhood had a powerful effect throughout his life, which

radiates from his loving voice and all the colors of his description. During World War II, after the Nazis conquered Warsaw, Belfer escaped through the woods to Russia, and remains the only survivor of his family, who all perished in the Holocaust. Belfer realized his dream to leave Europe, establish a family and settle in Israel. Korczak, the legendary Polish pediatrician, author and educator, was murdered in 1942 by the Nazis when he refused to save himself and abandon his Jewish students. He was not able to betray his entire doctrine and life work, and desert his students. Instead, he marched with them, walking tall, into the Treblinka incinerators. Korczak is known as one of the pioneers of current multiple pedagogical streams. He truly understood children, loved them and had a revolutionary approach toward children. Teachers all over the world have adopted his ideas and practice.

The Amazing Beginning of You Flashlight Press Offers the true story of Janusz Korczak, a writer and doctor, who established an orphanage for Jewish children in 1912 and, even in the most challenging times when living under Nazi rule, provided those in his care with the ideas, knowledge, and love they would need to grow into self-respecting adults.

How to Love a Child: And Other Selected Works Simon and Schuster Janusz Korczak, whose original name was Henryk Goldszmit, is seen as the father of the very idea that children also have rights - human rights. His thinking had a profound impact on the drafting of the UN Convention on the Rights of the Child and continue to influence the child-friendly programmes of the Council of Europe. Korczak's message was about respect for children, respect for their inherent value as human beings but also for their capacity and competence. Though continuously practicing as a medical doctor and assisting in orphanages, he was also a writer. His essay "The

Child's Right to Respect" in which he analyses the role of adults and the place of children in society is published in this volume. Korczak's vision about children's rights is still relevant. What can we learn from his ideas when tackling today's problems? Five children's rights activists analysed current problems in the spirit of Korczak.

From National Book Award Finalist Albert Marrin comes the moving story of Janusz Korczak, the heroic Polish Jewish doctor who devoted his life to children, perishing with them in the Holocaust. Janusz Korczak was more than a good doctor. He was a hero. The Dr. Spock of his day, he established orphanages run on his principle of honoring children and shared his ideas with the public in books and on the radio. He famously said

that "children are not the people of tomorrow, but people today." Korczak was a man ahead of his time, whose work ultimately became the basis for the U.N. Declaration of the Rights of the Child. Korczak was also a Polish Jew on the eve of World War II. He turned down multiple opportunities for escape, standing by the children in his orphanage as they became confined to the Warsaw Ghetto. Dressing them in their Sabbath finest, he led their march to the trains and ultimately perished with his children in Treblinka. But this book is much more than a biography. In it, renowned nonfiction master Albert Marrin examines not just Janusz Korczak's life but his ideology of children: that children are valuable in and of themselves, as individuals. He contrasts this with Adolf Hitler's life and his ideology of children: that children are nothing more than tools of the state. And throughout, Marrin draws readers into the Warsaw Ghetto. What it was like. How it was run. How Jews within and Poles without responded. Who worked to save lives and who tried to enrich themselves on other people's suffering. And how one man came to represent the conscience and the soul of humanity. Filled with black-and-white photographs, this is an unforgettable portrait of a man whose compassion in even the darkest hours reminds us what is possible.
