"Susan Wyler's contemporary take on a classic love story is utterly beguiling. Solsbury Hill is a gorgeously well-written tale of a fraught love affair that takes you from New York to the wild gothic setting of the Yorkshire moors."—Fiona Neill, author of Slummy Mummy and What the Nanny Saw The windswept moors of England, a grand rustic estate, and a love story of one woman caught between two men who love her powerfully—all inspired by Emily Bronte's beloved classic, Wuthering Heights. Solsbury Hill brings the legend of Catherine and Heathcliff, and that of their mysterious creator herself, into a contemporary love

story that unlocks the past. When a surprise call from a dying aunt brings twenty-something New Yorker Eleanor Abbott to the Yorkshire moors, and the family estate she is about to inherit, she finds a world beyond anything she might have expected. Having left behind an American fiancé, here Eleanor meets Meadows carp MacLeod—a young man who challenges and changes her. Here too she encounters the presence of Bronte herself and discovers a family legacy they may share. With winds powerful enough to carve stone and bend trees, the moors are another world where time and space work differently. Remnants of the past are just around a craggy, windswept corner. For Eleanor, this means ancestors and a devastating romantic history that bears on her own life, on the history of the novel Wuthering Heights, and on the destinies of all who live in its shadow.

Skinwalker Ranch gets its name from a stretch of topography that runs down the middle of this part of Utah like a spine, and which the people indigenous to the area refer to as the path of the skinwalker. For literally hundreds of years, and perhaps even thousands, strange entities and unexplained anomalies have made themselves known, often appearing as if out of nowhere, and then disappearing again by means just as mysterious. Looking for rational explanation, there are many who believe the ridge serves to hide portals leading to that same alternate dimension which the Pueblo People, here 1200 years before the birth of Christ, believed were traveled by the very beings which gave life to the Earth People. Skinwalker Ranch In the Shadow of the Ridge is the story of a family whose life was changed for ever by a series of encounters with unknown entities inhabiting the ridge towering over their home. Told by the psychologist who came to their assistance, it is an incredible tale and powerful testimony to the supposition that we may not be not alone...ever.
