King Alfred. Everybody knows that he is called "the Great," but few remember why.

Forgetfulness is strange, for few men have led lives so full of physical, mental, and spiritual adventure, or influenced in so many ways the lives of people in every part of the globe. The

Golden Dragon is his fascinating and moving story, told afresh with the aid of recent archaeological evidence and research in four languages. Alfred's achievements have melted cynicism. Gibbon called him "the greatest of English kings"; Hume, "the greatest man in history." Voltaire declared, "I know not whether there has ever been a man on earth worthier of posterity's respect." When his kingdom was reduced to thirty acres, he fought back with such courage and genius that he expelled the Viking invaders and made possible the saving of Western civilization. His list of accomplishments is amazing: transcendent diplomat, Europe's greatest naval designer, notable architect, law giver, founder of the oldest literary tradition in the Occident, originator of a system of public education, and producer of translations that have endured a thousand years. The author's research led him to the conclusion that the ninth-century English kin was the superior of Charlemagne in almost every respect, and indeed was one of the greatest geniuses Western civilization has ever produced. Alfred's courage, faith, and temperance are enduring examples for modern men.

Chasing the Dragon is the story of a Boston Herald reporter's journey into Burma/Myanmar to interview the mysterious drug lord, Khun Sa. The features desk of an American newspaper may seem an unlikely launchpad for a journey into one of the world's most remote and dangerous regions, but for journalist Christopher Cox, it was where the story began. It would end nearly three years later in the almost inaccessible mountain fastnesses of Shan State, Burma, as Cox brought off a journalistic coup even hard-bitten foreign correspondents might envy: a rare personal audience with General Khun Sa, the man U.S. law enforcement dubbed "The Prince of Death," the man thought to control a third of the world's supply of heroin.

Accompanied by an obsessed Vietnam vet who had given up everything in his single-minded search for American POWs left behind in Southeast Asia and an eccentric expat with close personal ties to the general, Cox was going to cross forbidden borders to enter a region long off-limits to Westerners. And armed with little more than a backpack stuffed with vodka, porno tapes, and cigarettes, he was going to succeed. His journey would take him deep into the Golden Triangle, a shadowy zone of banditry, drug smuggling, and the ghost armies of past wars. He would begin in the red-light district of Bangkok, with its sex bars and soaring HIV rates, then head up into northern borderlands newly discovered by package-tour groups, and finally cross a jungled no-man's-land into the world of the Shan, where tough tribesmen trade opium and precious gemstones for the arms they need to fight the Burmese.
