Since its hardcover publication in August of 1995, Buffett has appeared on the Wall Street Journal, New York Times, San Francisco Chronicle, Los Angeles Times, Seattle Times, Newsday and

Business Week bestseller lists. Starting from scratch, simply by picking stocks and companies for investment, Warren Buffett amassed one of the epochal fortunes of the twentieth century—an astounding net worth of \$10 billion, and counting. His awesome investment record has made him a cult figure popularly known for his seeming contradictions: a billionaire who has a modest lifestyle, a phenomenally successful investor who eschews the revolving-door trading of modern Wall Street,

a brilliant dealmaker who cultivates a homespun aura. Journalist Roger Lowenstein draws on three years of unprecedented access to Buffett's family, friends, and colleagues to provide the first definitive, inside account of the life and career of this American original. Buffett explains Buffett's investment strategy—a long-term philosophy grounded in buying stock in companies that are undervalued on the market and hanging on until their worth invariably surfaces—and shows how it is a reflection

of his inner self.

From the critically acclaimed author of *The Young Wives Club*, a “heartwarming story about friendship, heartache, and self-discovery” (Karen White, *New York Times* bestselling author), comes a charming novel reminiscent of the works of Mary Alice Monroe and Kristy Woodson Harvey, about three sisters who win a huge lottery prize and learn what it truly means to be lucky. Lexi, Callie, and Hanna Breaux grew up in small-town Louisiana, and have always struggled to make ends meet. For years, they’ve been playing the lottery, fantasizing about how much better life would be if they had the money. For Lexi, it means the perfect wedding; for Callie, it means having the courage to go after her

career dreams; and for Hanna, it means buying a house that isn’t falling apart and sending her bullied son to private school. When the incredible happens and the Breaux sisters hit it big—\$204 million dollars big—all their dreams come true. Or so they think. Because it’s actually not a cliché—money isn’t the answer to everything, and it often comes with problems of its own. Heartfelt, engaging, and featuring characters you’ll root for from the first moment you meet them, *Louisiana Lucky* is a satisfying page-turner from a rising star in women’s fiction.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the

same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardized up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.
