Therefore, in most cases, it is less  
expensive to buy the entire unit  
installation kit. Why is the KN-62  
approximately the same price as the  
KN-64 DME? Even though the KN-62  
is a higher power DME, supply and  
demand factors relate to the market  
pricing for the KN-62 vs. KN-64. In  
addition, the KN-62 is an older unit  
and therefore has reliability factors  
that need to be considered. x Close ...

Unfortunately, the Bendix King KN-63 install  
manual does not have this information (at least  
the 2004 revision does not). I've tried to craft the  
337 to make reference to ICA information based  
on similar navigation equipment but the FSDO  
inspector would like something specific to the  
KN-63 that has been documented and approved  
somewhere.
