### EBOOK: COMPETENCE-BASED ASSESSMENT

Carson-Dellosa Publishing Standards-Based Connections Reading for grade 2 offers focused skill practice in reading comprehension. A skill assessment will point out students' learning gaps. This allows teachers to choose appropriate student pages for individualized remediation.

The student pages emphasize five important reading comprehension skills: summarizing, inferring, story elements, comparing and contrasting, and cause and effect. The book includes high-interest fiction and nonfiction, with texts about moving day, volcanoes, Laura Ingalls Wilder, planets, poetry, and more. --Each 96-page book in the Standards-Based Connections Reading series includes a skill assessment, an assessment analysis, targeted practice pages, and an answer key, making this series an ideal resource for differentiation and remediation. The skill assessments and assessment analyses help teachers

determine individualized instructional needs. And, the focused, comprehensive practice pages and self-assessments guide students to reflection and exploration for deeper learning! Using Examinations to Improve Education B&H Publishing Group Agriculture's vast potential to improve nutrition is just beginning to be tapped. New ideas, research, and initiatives developed over the past decade have created an opportunity for reimagining and redesigning agricultural and food systems for the benefit of nutrition. To support this transformation, the

---

book reviews the latest findings, results from on-the-ground programs and interventions, and recent policy experiences from countries around the world that are bringing the agriculture and nutrition sectors closer together. Drawing on IFPRI's own work and that of the growing agriculture-nutrition community, this book strengthens the evidence base for, and expands our vision of, how agriculture can contribute to nutrition. Chapters cover an array of issues that link agriculture and nutrition, including food value chains, nutrition-sensitive programs and policies, government policies, and private sector investments. By highlighting both achievements and setbacks, *Agriculture for Improved Nutrition* seeks to inspire those who want to scale up successes that can transform food systems and improve the nutrition of billions of people.

This is the first volume in a new series

*Africa: Policies for Prosperity*. For the first time in more than a generation, sustained economic growth has been achieved across the continent - despite the downturn in global economic fortunes since 2008 - and in many countries these gains have been realized through policy reforms driven by the decisive leadership of a new generation of economic policymakers. The process of reform is continuous, however, and the challenge currently facing this new generation is how to harness these favourable gains in macroeconomic stability and turn them into a coherent strategy for sustainable growth and poverty reduction over the coming decades. These challenges are substantial and encompass the broad remit of economic policy. Each volume in this series brings leading scholars into the policy arena to examine these challenges and to lay out, in a rigorous but accessible manner, key challenges and policy options facing policymakers on the continent. This first volume on Kenya explores the challenges facing an economy standing at a crossroads. Kenya has experienced a period of high and sustained growth since the mid 1990s, growth which involved economic

transformation away from a heavy reliance on traditional economic activities towards an emerging manufacturing economy. But this process, and the economic and social stability that had come to characterize Kenya, have been severely tested by the post-election violence of 2008. Restoring equitable growth and sustaining the structural transformation of the economy is essential if Kenya is to leave this dark period behind. The chapters in this volume address the key issues that will face economic policy makers in the coming years. They cover the conventional but central question of finance and macroeconomic management, but also much deeper structural issues of trade, employment generation and education; of land policy, migration and urbanization; and the fiscal challenges facing an ageing but increasingly urbanized (and increasingly affluent) society.

Betrayal in the City, first published in 1976 and 1977, was Kenya's national entry to the Second World Black and African Festival of Arts and Culture in Lagos, Nigeria. The play is an incisive, thought-provoking examination of the problems of independence and freedom in post-colonial African states, where a sizeable number of people feel that their future is either blank or bleak. In the words of Mosese, one of the characters: "It was better while we waited. Now we have nothing to look forward to. We have killed our past and are busy killing our future."--Page 4 of cover

This Student Edition of Brecht's classic dramatisation of the conflict over possession of a child features an extensive introduction and commentary that includes a plot summary, discussion of the context, themes, characters, style and language as well as

questions for further study and notes on words and phrases in the text. It is the perfect edition for students of theatre and literature. Brecht projects an ancient Chinese story onto a realistic setting in Soviet Georgia. In a theme that echoes the Judgment of Solomon, two women argue over the possession of a child; thanks to the unruly judge, Azdak (one of Brecht's most vivid creations) natural justice is done and the peasant Grusha keeps the child she loves, even though she is not its mother. Written in exile in the United States during the Second World War, *The Caucasian Chalk Circle* is a politically-charged, much-revived and complex example of Brecht's epic theatre. This volume contains expert notes on the author's life and work, historical and political background to the play, photographs from stage productions and a glossary of difficult words and phrases. It features the acclaimed translation by James and Tania Stern with W. H. Auden.

*A Doll's House* is a three-act play written by Henrik Ibsen in 1879. It is a groundbreaking play

that explores the themes of marriage, gender roles, and identity in 19th century society. Ibsen's play was met with controversy and outrage due to its bold critique of the traditional roles of men and women in marriage. The play has since become a classic of modern drama and is widely studied and performed in educational institutions around the world. The play is set in Norway and follows the story of Nora Helmer, a seemingly happy and content housewife. However, as the play unfolds, we see that Nora is living a double life. She has secretly borrowed money to save her husband's life, and is now being blackmailed by the lender. The play depicts Nora's struggle to find her true identity and the consequences of living a life based on societal expectations rather than her own desires. One of the main themes explored in the play is the role of women in marriage. Nora is portrayed as a typical 19th century wife, who is expected to be obedient, nurturing, and submissive. However, as the play progresses, we see that Nora is not content with this role and longs for independence and self-discovery. Ibsen challenges the traditional gender roles and shows how society's expectations can suffocate and limit an individual's growth. Another important theme in the play is the concept of identity. Nora's character undergoes a transformation throughout the play as she begins to question her role as a wife and mother. She realizes that she has been living a life that is not truly her own, and she must break free from societal expectations to find her true self. This theme is also reflected in the character of Torvald, Nora's

---

husband, who is more concerned with his social status and reputation than his wife's happiness. Ibsen also uses symbolism throughout the play to convey deeper meanings. The title "A Doll's House" itself is significant, as it represents the idea that women were seen as mere playthings or objects in a patriarchal society. The Christmas tree, a recurring symbol in the play, represents the facade of happy family life that Nora and Torvald try to maintain. However, as the tree begins to shed its decorations, it symbolizes the unraveling of Nora's perfect facade. At the time of its publication, *A Doll's House* was met with harsh criticism and was deemed scandalous due to its portrayal of a woman challenging societal norms. However, its impact on modern drama cannot be overstated. Ibsen's play paved the way for a new genre of realistic drama and influenced many other playwrights to explore similar themes. It continues to be studied and performed today, as it remains relevant in its critique of societal expectations and the struggle for individual identity.

This open access book offers a comparative study of eight ambitious national reforms that sought to create opportunities for students to gain the necessary breath of skills to thrive in a

rapidly changing world. It examines how national governments transform education systems to provide students opportunities to develop such skills. It analyses comprehensive education reforms in Brazil, Finland, Japan, Mexico, Peru, Poland, Portugal and Russia and yields original and important insights on the process of educational change. The analysis of these 21st century skills reforms shows that reformers followed approaches which are based on the five perspectives: cultural, psychological, professional, institutional and political. Most reforms relied on institutional and political perspectives. They highlight the systemic nature of the process of educational change, and the need for alignment and coherence among the various elements of the system in order. They underscore the importance of addressing the interests of various stakeholders of the education system in obtaining the necessary impetus to initiate and sustain change. In contrast, as the book shows, the use of a cultural and psychological frame proved rarer, missing important opportunities to draw on systematic analysis of emerging demands for schools and on cognitive science to inform the changes in the organization of instruction. Drawing on a rich array of sources and evidence the book provides a careful account of how education reform works in practice. This

This open access book is a comparative analysis of recent large scale education reforms that broadened curriculum goals to better prepare students for the 21st century. The book examines what governments actually do when they broaden curriculum goals, with attention to the details of implementation. To this end, the book examines system level reforms in six countries at various levels of development. The study includes system level reforms in jurisdictions where students achieve high levels in international assessments of basic literacies, such as Singapore and Ontario, Canada, as well as in nations where students achieve much lower levels, such as Kenya, Mexico, Punjab-Pakistan and Zimbabwe. The chapters examine system-level reforms that focus on strengthening the capacity to teach the basics, as in Ontario and Pakistan, as well as reforms

---

that aim at building the capacity to teach a much broader set of competencies and skills, such as Kenya, Mexico, Singapore and Zimbabwe. The volume includes systems at very different levels of spending per student and reforms at various points in the cycle of policy implementation, some just starting, some struggling to survive a governmental transition, and others that have been in place for an extended period of time. From the comparative study of these reforms, we aim to provide an understanding of how to build the capacity of education systems to teach 21st century skills at scale in diverse settings.

This is a powerful account of the story of Africa told through the life of one of its contemporary shapers, Reginald Abraham Mengi of Tanzania. *I Can, I Must, I Will* comes at a time when Africa is casting a new vision that is guided largely by the power of entrepreneurship. There could be no better guiding light for that vision than the spirit of courage, determination and dedication to self-improvement that is so vividly represented by the life and work recounted in this book. Like Africa itself, Dr. Mengi is a person of humble origins. But his character and personality were shaped by a family history that imbued in him a sense of self-

confidence and commitment to setting goals and seeking to accomplish them. In addition to these personal values, the book also reveals a self-driven person with unflinching commitment to duty. Nothing seems to stand in the way of Dr. Mengi in his determination to reaffirm his self-worth through the pursuit of excellence.

Maybe you 've never asked the question out loud, but you 've wondered. You do the things that look good on paper: read your Bible, pray, attend study groups and go to church on Sundays. But you aren 't convinced you really know Him. Angie Smith understands, because she had run circles around the same paths searching for Him, frustrated at her lack of progress. And she probably would have continued to do so had it not been for one realization that changed everything. She wasn 't following God; she was trying to catch up with Him. And without realizing it, you may be as well. It 's a distinction that affects every aspect of our lives with Christ, and it begins with learning where we 've relied more on man 's explanation of God than God Himself. So many requirements, so many rules, and so much guilt where there is supposed to be freedom. It 's the reason you wonder if you 've measured up, and the nagging voice that tells you

you 're a failure as a Christian. Three simple words changed everything for Angie, and she believes they can do the same for you. Stop chasing God.

Robin George Collingwood, FBA (1889 – 1943) was an English historian, philosopher, and archaeologist most famous his philosophical works. Along with "The Principles of Art" (1938), Collingwood's "The Idea of History" was his best-known work, originally collated from numerous sources following his death by a student of his, T. M. Knox. It became a major inspiration for philosophy of history in the western world and is extensively cited to his day. This fascinating volume on history and its relationship to philosophy will appeal to students and collectors of vintage philosophical works alike. Contents

Competence-based assessment is the  
cornerstone of the UK Government's reforms  
of vocational training and of non-academic full-  
time education post-16. Australia has adopted  
similar policies, and there is considerable  
interest in the notion of 'competence' in both  
Europe and North America. Alison Wolf  
describes the main characteristics of the  
competence-based approach as it has emerged  
in the UK, and traces its origins in American  
experimental programmes of the 1970s. The  
arguments for the approach are discussed in  
detail. Many of these arguments derive from  
the demonstrable limitations of more  
conventional assessment, especially in  
predicting work performance. She then  
analyses the theoretical assumptions which  
competence-based assessment shares with the  
criterion-referenced movement as a whole,  
distinguishing clearly between those claims  
which can be sustained and those which

cannot. She also synthesizes the growing body  
of evidence on implementation. Many lessons  
have now been learned about whether and how  
one can establish a workable, robust and  
reliable competence-based system. It has  
become evident both that the preconditions for  
success are often missing, and that, if they are  
ignored, competence-based 'reforms' may have  
largely negative consequences. The final  
chapter reviews the prospects for competence-  
based awards, and offers some conclusions on  
what is essential to a competence-based  
approach.

Originally from Rwanda, east-central  
Africa, the kunyaza sexual practice triggers  
female ejaculation and multiple orgasms in  
women during heterosexual encounters.  
The kunyaza technique is also practised in  
Uganda and Kenya, where it is known as  
kachabali. Benefits of kunyaza include: \*  
facilitates female ejaculation and/or  
'squirting,' \* triggers multiple orgasms in  
women, \* brings women to climax in less  
than five minutes, \* helps men last longer in  
the bedroom, \* enhances female pleasure, \*  
stimulation of the K-Spot, and \* an  
effective treatment for female orgasmic

disorder. Kunyaza examines the cultural impact of Rwanda's pleasure-based sensual tradition and investigates whether it empowers women. The book also explores the psychology of female desire, analyses female ejaculation and G-Spot studies, and investigates the controversial practice of labia pulling. Drawing on extensive research from Western-trained sexologists, psychologists, and ssengas (female sex educators) from Africa, the book provides an intimate and illustrated guide on how to make a woman ejaculate.
