From the weekly Guardian Cook columnist and winner of the Andr é Simon and Guild of Food Writers' comes a book of sumptuous recipes, flavours and stories from Rachel Roddy's two kitchens in Sicily and Rome. 'Rachel Roddy describing how to boil potatoes would inspire me. I want to live under her kitchen table. There are very, very few who possess such a supremely uncluttered culinary voice as hers, just now.' Simon Hopkinson 'This is a recipe book that reflects the way I cook and eat: uncomplicated, direct and adaptable Italian family food that reflects the season. The two kitchens of the title are my kitchens in Rome and Sicily. In a sense, though, we could have called the book "many kitchens" as I invite you to make these recipes your own.' For the last twelve years Rachel Roddy has immersed herself in the culture of Roman cooking, but it was the flavours of the south that she and her Sicilian partner, Vincenzo, often craved. Eventually the chance arose to spend more time at his old family house in south-east Sicily, where Rachel embraced the country's traditional recipes and the stories behind them. Here she shares over 120 of these simple, everyday dishes from her two distant but connected kitchens. From tomato and salted ricotta salad, caponata and baked Sicilian pasta to lemon crumble, honeyed peaches and almond and chocolate cake, they are the recipes that you will want to cook

again and again until you've made them your own. List of chapters: Vegetables and Herbs - Tomatoes; Aubergines; Peas; Broad Beans; Cauliflower; Potatoes; Onions; Herbs Fruit and Nuts - Lemons; Peaches; Oranges; Grapes and Figs; Almonds Meat, Fish and Dairy - Beef and pork; Chicken; White fish; Fresh anchovies and sardines; Eggs; Ricotta Storecupboard - Chickpeas; Lentils; Preserved anchovies; Flour; Bread Rachel's first book, *Five Quarters: Recipes and Notes from a Kitchen in Rome*, won the Andr é Simon Food Book Award and the Guild of Food Writers' First Book Award in 2015. Changing Focus Createspace Independent Publishing Platform ...Alice finally looked around and said, " What's with the murder room? " " The what? " asked Erica.A chair and a small table, isolated in the center of the living room, stood on top of a plastic sheet. Clippers, scissors, and a hand-held mirror rested on the table. At first glance, it looked awfully suspicious. Maybe it was for the best, thought Alice. She had cancer anyway, might as well get it over with in her best friend's murder room...ALICE MORGAN IS different, a fact she's reminded of every time she loses yet another job or another boyfriend. When she thinks it can't get any worse, she finds out she might have breast cancer. Before she even has a chance to come to grips with the diagnosis, she's offered a job and meets a man who might actually like her for who she is.Now what's she supposed to do? The lens is generally the most expensive and least understood part of any camera. In this book, Rudolf Kingslake traces the historical development of the various types of lenses from Daguerre's invention of photography in 1839 through lenses commonly used today. From an early lens still being manufactured for use in low-cost cameras to designs made possible through such innovations as lens coating, rare-earth glasses, and computer aided lens design and testing, the author details each major advance in design and fabrication. The book explains how and why each new lens type was developed, and why most of them have since been abandoned. This authoritative history of lens technology also includes brief biographies of several outstanding lens designers and manufacturers of the past.
