When the chance to run arrives, Beldon doesn't think twice about escaping into the shadows of an enchanted castle locked in an eternal winter. He just wants to bury a secret. But the castle is a cold, cruel place and his host is less than welcoming. The sparks that fly between them are icy and aggressive; the tension building until one night it almost costs Beldon his life. Then things change. Beldon's attention turns to the shadowy Beast and the mystery that surrounds him. There is a curse to be broken after all and Beldon promised to help find a mysterious figure known as Beauty. However, Beldon did not expect his secret to resurface within this frozen castle and as such he is forced to confront himself and answer one question. As he and The Beast grow closer, does he want this Beauty found?~~~~ The original draft for the community who wanted a physical copy~

Plains folklorist Roger L. Welsch has edited a lively collection of stories by some master yarnspinners—those old-time traveling horse traders. Told to Federal Writers' Project fieldworkers in the 1930s, these stories cover the span of horse trading: human and equine trickery, orneriness, debility—and generosity.

*Korean: A Comprehensive Grammar* is a reference to Korean grammar, and presents a thorough overview of the language, concentrating on the real patterns of use in modern Korean. The book moves from the alphabet and pronunciation through morphology and word classes to a detailed analysis of sentence structures and semantic features such as aspect, tense, speech styles and negation. Updated and revised, this new edition includes lively descriptions of Korean grammar, taking into account the latest research in Korean linguistics. More lower-frequency grammar patterns have been added, and extra examples have been included throughout the text. The unrivalled depth and range of this updated edition of *Korean: A Comprehensive Grammar* makes it an essential reference source on the Korean language.

How hard can it be to find the perfect partner for your dad? Esmie misses her mum, even though she was only a tiny baby when she died. She has a photo by her bed, and sometimes - when she needs advice or just fancies a chat - she asks her mum for help. Sometimes she even hears her reply. But Esmie thinks her dad is lonely. And her big brother Matthew would definitely benefit from a female influence. So Esmie decides to take action: she's going to find her dad a girlfriend. Beautiful, clever, charming, kind to children and animals ...

How hard can it be to find the perfect partner for your dad? In the book which won her the Red House Children's Book Award, Gwyneth Reestells a story of healing and love with characteristic charm and humour. *The Mum Hunt* comes to Bloomsbury for a refreshed cover look and renewed marketing and publicity to bring new readers to this quirky, lovely modern classic.

This book, first appearing in German in 2004 under the title *Spezielle Relativit,tstheorie f•r Studienanf,nger*, offers access to the special theory of relativity for readers with a

background in mathematics and physics comparable to a high school honors degree. All mathematical and physical competence required beyond that level is gradually developed through the book, as more advanced topics are introduced. The full tensor formalism, however, is dispensed with as it would only be a burden for the problems to be dealt with. Eventually, a substantial and comprehensive treatise on special relativity emerges which, with its gray-shaded formulary, is an invaluable reference manual for students and scientists alike. Some crucial results are derived more than once with different approaches: the Lorentz transformation in one spatial direction three times, the Doppler formula four times, the Lorentz transformation in two directions twice; also twice the unification of electric and magnetic forces, the velocity addition formula, as well as the aberration formula. Beginners will be grateful to find several routes to the goal; moreover, for a theory like relativity, it is of fundamental importance to demonstrate that it is self-contained and without contradictions. Author's website: [www.relativity.ch](http://www.relativity.ch).

From generation to generation; or, The rise and progress of temperance Taylor & Francis

Mitchell is an alpha among alphas in the brutal Mountain Ridge Pack. He rules with equal parts fear and respect, but his pack is growing restless after decades without an heir to his proverbial throne. Only an alpha and an omega pair can sire another alpha to lead the pack, but Mitchell's not-so-secret shame is the fact that he hasn't been able to impregnate any of his female omegas. Unlike the other weaker packs, the Mountain Ridge wolves have always kept their omegas in line and at a safe distance through the infamous yet efficient Breeding Program. On the recommendation of an old rival turned tentative friend, Mitchell decides to try his hand--among other things--in a last-ditch effort at siring an heir with a rare male omega. When a transfer request for one of the only male omegas in the pack uncovers unspeakable abuse and corruption within the Breeding Program, the very future of the pack is thrown into question. -Angel's heart has turned to stone after a lifetime of abuse at the hands of the alpha shifters who oversee the Breeding Program in his pack unit. The only love he has left belongs to the three other omegas he shares his little corner of hell with. Angel will do whatever it takes to protect them, even if it means becoming the mate of the top alpha himself. Angel knows better than to believe the gruff Mitchell when he claims that he's not like the others. Despite his best attempts to steel himself against the strange bond that forms between them, Angel discovers that Mitchell is the most dangerous alpha of all because he wants the one thing Angel has sworn never to give--his heart. With war looming on the horizon, a pack in chaos and two hardened hearts melted by an unlikely spark of love, only one outcome is certain. The Mountain Ridge Pack will never be the same. Disclaimer: See inside cover for content warnings. This is the second book in The Mountain Shifters series. Reading His Unclaimed Omega may provide context, but this book can be read as a standalone.

PC Mag Random House Books for Young Readers

The *Animals Reader* brings together key classic and contemporary writings from philosophy, ethics, sociology, cultural studies, anthropology, environmental studies, history, law and science. Providing a framework for understanding the state of the multidisciplinary field of animal studies, the second edition contains updated content reflecting the developments in research and theory in the field that have emerged in the ten years since publication of the first edition. With new chapters from Peter Singer, Carol Gigliotto, Jacques Derrida and Irus Braverman, and new topics covered including the connection between animal abuse and interpersonal violence and human-animal relations, this book is the go-to resource for students of animal studies. Extracts are from academic texts and more popular texts alike as readers are given a sense of how human-animal relations have been understood and critiqued through time. Helpful pedagogical features specific to this edition include: - an explanatory updated Editors Introduction - updated introductions to each extract, with details about the author of that piece and the context of their writing - further reading suggestions at the end of each section, updated to reflect new scholarship. With favourite chapters from the first edition preserved, this second edition has all the required new content to bring *The Animals Reader* fully up to date.
