Two rolls of film with the Kodak Colorsnap 35 Model 2 ...
March 21, 2020 ~ M Rowney.
The Kodak Colorsnap 35 Model 2, here in its very handy and decidedly sturdy carry case. Produced between 1964 and 1967, the Kodak Colorsnap 35 Model 2 retains many of the aesthetics of its 1950s predecessor. With an Anaston f/3.9 43.9mm lens allowing manual focus between 2.5 feet to infinity and an aperture scale marked in weather symbols and Exposure Value (EV) numbers, there ' s certainly more to work with than my previous no frills point-and-shoot film camera. Kodak Colorsnap 35 Manual - mexicanamericanuniversityswim2010.com You can help Camerapedia.org by expanding it. The Kodak Colorsnap 35 - largely a 35mm version of the Bantam Colorsnap, was made in the UK by Kodak Ltd. The 43.9mm f3.9 Anaston lens is set in a single-speed shutter, with aperture scale marked in weather symbols and EV numbers. The underside of the lens barrel is marked with the film speed scale, which calibrates the aperture for the weather symbols and combines with a flash distance scale.
