Will Stevie Have To Say Good-bye To No-Name? Stevie Lake is ecstatic. After years of wanting a horse of her own, her parents have given her "No-Name," a beautiful Arabian-Saddlebred. And everyone can see

that the frisky, sassy mare is the perfect match for a rider like fun-loving, Stevie. Now all she has to do to make "No-Name" hers is come up with a fitting name. But before Stevie can find a name for the beautiful mare, her happiness is abruptly shattered. During a Pony Club exhibition, another girl claims that "No-Name" was stolen from her family's barn. Could Stevie's new mount really be the horse the older girl calls "Punk"? Is Stevie about to lose her dream horse forever? *America's Old Masters* St Martins Press

Anthony Jay shows you how the new science of management is a continuation of the old art of

government. By looking at your own corporate organization in a political/historical context, you can fully understand its power structure - what Machiavelli wrote about statecraft in the sixteenth century holds true for business and management in the late twentieth century. Applying Machiavellian precepts to such modern corporations as General Motors, Apple Computer, and Microsoft, Jay discovers self-contained states with courtiers and diplomats, orthodoxy and heresy lurking under their smooth corporate veneers. Though humorous, Jay's message is clear. To understand the workings of corporation or states, you must understand the nature and behavior of their leaders. And that hasn't changed since the Middle Ages.

Introduced in 1951, the Fender Precision Bass completely transformed the sound of popular music by the early '60s. This is the first book to show you how and why. This richly illustrated history reveals the true colors of the Fender electric bass - as a powerful agent of change in popular music and popular culture. It tells the story of technological and artistic evolution, of basses and players--and of their profound influence on the world around them. Celebrating

the instrument's 50th anniversary, this book salutes the revolutionary impact of the bass in the hands of James Jamerson, Jack Bruce, Paul McCartney, Carol Kaye, John Entwistle, Jaco Pastorius, Sting, and other bass visionaries and virtuosos past and present.

The Internet is the most remarkable thing human beings have built since the Pyramids. John Naughton's book intersperses wonderful personal stories with an authoritative account of where the Net actually

came from, who invented it and why and where it might be taking us. Most of us have no idea how the Internet works, or who created it. Even fewer have any idea what it means for society and the future. In a cynical age, John Naughton has not lost his capacity for wonder. He examines the nature of his own enthusiasm for technology and traces its roots in his lonely childhood and in his relationship with his father. A Brief History of the Future is an intensely personal celebration of vision and altruism, ingenuity and determination and, above all, of the power of ideas, passionately felt, to change the world.

Early evangelicalism flourished during the transatlantic revivals of the

eighteenth century, coinciding with the emergence of the Enlightenment in America and Europe. Today, most people associate it with only a few of its leaders-namely Jonathan Edwards, John Wesley, and George Whitefield-despite the fact that this religious movement crossed nations as well as different traditions within Christianity. Those responsible for the growth of evangelicalism were Anglicans, Baptists, Congregationalists, Methodists, Moravians, and Presbyterians and could be found in America, Canada, Great Britain, and Western Europe. They published hymns, historical works, poems, political pamphlets, revival accounts, sermons, and theological treatises. There are also records of their conversion experiences, and diaries that chronicle their spiritual development. Jonathan M. Yeager's anthology introduces a host of important religious figures, providing biographical

sketches of each author and over sixty excerpts from a wide range of well-known and lesser-known Protestant Christians. Early Evangelicalism: A Reader promises to be the most comprehensive sourcebook of its kind.

On the northern slope of the island of Serendipity is a small, wonderful kingdom called the Land of Later. In this kingdom there lived a young, beautiful princess who everyone simply called Princess. The castle was governed by the king's simple rules. One of those

rules was that when you woke in the morning, you cleaned your room and made your bed. Princess hated rules. Most of all, she hated doing anything at any time unless it was much, much later. This morning, as on others, she awoke, got dressed, and went outside and took a walk instead of cleaning her room. Princess walked into the forest near the castle. "I should start back before I get lost," she whispered to a bunny on the path. Then she laughed, "I will go back but just, just a little later!" It was on the journey that Princess met a unicorn called Morgan. And it was on this journey, with the help of Morgan, that she learned that doing things now is always much better than later.
