A history of the Korean War with soldier 's-eye views from both sides, by the Pulitzer Prize – winning author of The Rising Sun and Infamy. Pulitzer Prize – winning author John Toland reports on the Korean War in a revolutionary way in this thoroughly researched and riveting book. Toland supplements his captivating history with in-depth interviews with more than two hundred American soldiers, as well as North Korean, South Korean, and Chinese combatants, plus dozens of poignant photographs, bringing those who fought to vivid life and honoring the memory of those lost. In Mortal Combat is comprehensive in its discussion of events deemed controversial, such as American brutality against Korean civilians and allegations of American use of biological warfare. The Parthenon sculptures in the British Museum are unrivaled examples of classical Greek art, an inspiration to artists and writers since their creation in the fifth century bce. A superb visual introduction to these wonders of antiquity, this book offers a photographic tour of the most famous of the surviving sculptures from ancient Greece, viewed within their cultural and art-historical context. Ian Jenkins offers an account of the history of the Parthenon and its architectural refinements. He introduces the sculptures as architecture--pediments, metopes, Ionic frieze--and provides an overview of

their subject matter and possible meaning for the people of ancient Athens. Accompanying photographs focus on the pediment sculptures that filled the triangular gables at each end of the temple; the metopes that crowned the architrave surmounting the outer columns; and the frieze that ran around the four sides of the building, inside the colonnade. Comparative images, showing the sculptures in full and fine detail, bring out particular features of design and help to contrast Greek ideas with those of other cultures. The book further reflects on how, over 2,500 years, the cultural identity of the Parthenon sculptures has changed. In particular, Jenkins expands on the irony of our intimate knowledge and appreciation of the sculptures--a relationship far more intense than that experienced by their ancient, intended spectators--as they have been transformed from architectural ornaments into objects of art.
