This fascinating new book addresses the most recent research and provocative findings on the use of pets in mental health therapy. The historical basis of using pets in therapy is reviewed, and numerous examples are provided of results incurred from prescribing pets to disabled, lonely, incarcerated, and institutionalized individuals. The author provides convincing evidence of the therapeutic value of animals in making us happier, healthier, and more sociable. Although the terms human-animal bond and pet-facilitated therapy are relative newcomers to the scientific literature, the concepts they encompass have been with us for centuries. BACKCOVER COPY Research has shown that animals can promote humor, laughter, play, and a sense of importance in people. When monsters appear on Earth, Maggie MacKay is on the job. No one is better at hauling the creepy crawlies back where they belong. No one, that is, except Maggie's dad, who vanished in the middle of an assignment. Now, an elf named Killian has shown up with a gig. Seems Maggie's uncle teamed up with the forces of dark to turn Earth into a vampire convenience store, serving bottomless refills on humans. Ah, family... The only hope for survival lies in tracking down two magical artifacts and a secret that disappeared with Maggie's dad. WARNING: This book contains cussing, brawling, and unladylike behavior. Proceed with caution.

Deliberation is the process by which a group of people, each with equal voice, can - via a process of discussion and debate - reach an agreement. Deliberation and Development attempts to do two things. First, it rethinks the role of deliberation in development and shows that it has potential well beyond a narrow focus on participatory projects. Deliberation, if properly instituted, has the potential to have a transformative effect on many if not all aspects of development, and especially in addressing problems of collective action, coordination, and entrenched inequality. This has broad implications both at the global and local level. Second, the book demonstrates that taking deliberation seriously calls for a different approach to both research and policy design and requires a much greater emphasis on the processes by which decisions are made, rather than an exclusive focus on the outcomes. Deliberation and Development contributes to a broader literature to understand the role of communicative processes in development.

"We found something." With these words, a Presbyterian minister is thrust into a medical crisis: a tumor is pressing on her brain. Doctors cannot offer a preferred treatment plan: radiation and surgery are equally valid but carry vastly different risks and consequences. She herself must choose. She plunges into a maze of medical research, but the analytical mode of Western culture cannot help her find peace in her decision. Instead, she is unwittingly led along an ancient prayer path called Lectio Divina, and transformed by inexplicable and repeated encounters with goodness. Still a community's shepherd

in faith, she shoulders the question they too ask: "Can God be found here?" The maze becomes a labyrinth: a spiritual journey that brings her to a center that holds. Her decision made, she undergoes treatment. "You must have been terrified," a friend says. That is when the author realizes that her experience is unusual: she had not been afraid. How to explain that? This memoir recounts how her ideas of God and self are reshaped as she discovers a place of deep knowing and trust. Humbled and surprised, she experiences in her body the gospel she has preached for years.

Research Methods in Applied Behavior Analysis, 2nd edition, is a practical text that provides the beginning researcher with a clear description of how behavior analysts conduct applied research and submit it for publication. In a sequence of ten logical steps, the text covers the elements of single-case research design and the practices involved in organizing, implementing, and evaluating research studies. This revision includes new material on how to critique a journal article and how to extract treatment ideas from published studies. The novice researcher receives a "steps for success" approach that is brief, useful, to the point, and clearly delineated.

Documents Of The Assembly Of The State Of New York; Volume 1
The editors of this volume have honored me by their invitation to write its Fore word, an invitation extended because of my editing a book on the maternal behav ior of mammals in 1963. Much as I would like to think that I had opened a new area of study-and so played some part in the appearance of this fine new collec tion of chapters-the facts are quite otherwise. That in 1963 I could assemble the efforts of many distinguished investigators shows that the topic had already engaged their attention, and had for some years past. But even then, the topic had origins extending much farther into the past, to mention only Wiesner and Sheard's book Maternal Behavior in the Rat of 1933. Nevertheless, in 1963 it seemed to me that the study of maternal care in mammals had lagged behind the study of other kinds of social behavior. The present volume does much to establish parental care of the young as a topic central to an understanding of the relation between ontogeny and phylogeny, to the development of the young, to the social organization of the species, and to its preservation. It may now be seen not only as interesting but as a most signifi cant pattern of behavior among mammals.

My name is Flora Padilla and I am a mother, grandmother, pastor, and an author. I married a man that physically, emotionally and mentally abused me. During this turbulent marriage, I was also trying to raise two small children, work full-time and financially support my household. Unexpectedly, I was injured on the job and lost the stability of having a steady income. This life-changing event shifted my path to my true calling. How did I become an overcomer against all odds? My book has the tools that I used to succeed, to be happy, blessed, victorious, and now an inspiration to others. I have spent my life "Mending Broken Hearts", because of my mended heart.
