AAP Prose Award Finalist

2018/19 For three decades, this book has been acknowledged as the most respected scientific reference specifically devoted to marine mammal medicine and health. Written by approximately 100 contributors who are recognized globally as leaders in their respective fields, the CRC Handbook of Marine Mammal Medicine, Third Edition continues to serve as the essential guide for all practitioners involved with marine mammals including veterinarians, technicians, biological researchers, students, managers, keepers, curators, and trainers. The 45 chapters provide essential information for the practitioner on pathology, infectious diseases,

medical treatment, anesthesia, surgery, husbandry, health assessment, species-specific medicine, medically pertinent anatomy and physiology, and global health concerns such as strandings, oil spills, and entanglements of marine mammals. Covers all aspects of marine mammal veterinary practice Written by internationally acknowledged experts Adds new chapters on Ophthalmology, Dentistry, Ethics, Oil Spill Response, Health Assessments, Whale Entanglement Response, Dive Response, and Biotoxins Richly illustrated in color throughout the new edition including updated anatomical drawings and extensive photographs of ocular lesions Provides guidance to websites that regularly present updated information and images pertinent to current marine mammal medicine such as imaging and stranding network contacts Discusses ethics and animal welfare. The book guides

the reader through the veterinary care of cetaceans, pinnipeds, manatees, sea otters, and polar bears. In addition to summaries of current knowledge, chapters provide information on those digital resources and websites which present the latest information as it emerges in the field. The CRC Handbook of Marine Mammal Medicine, Third Edition gives a call to action for scientists to experiment with new endeavors to engage and inspire current and future generations to care for marine mammals and the marine environment, and work together to find solutions. As the most trusted reference for marine mammal conservation medicine and for marine mammal medical facilities around the world, this book needs to be in your library.

This paper provides an extensive review of different aspects of five shellfish-poisoning syndromes (paralytic, diarrhoeic, amnesic, neurologic and azapiracid), as well as one fish-poisoning syndrome (ciguatera fish poisoning), and discusses in detail the causative toxins produced by marine organisms, chemical structures and analytical methods of the toxins, habitat and occurrence of the toxin-producing organisms, case studies and existing regulations. Based on this analysis, risk assessments are carried out for each of the

toxins, and recommendations are elaborated to improve the management of these risks in order to reduce the harmful effect of these toxins on public health.

Marine Engineering and Shipping Review

Each Clymer manual

provides specific and detailed instructions for performing everything from basic maintenance and troubleshooting to a complete overhaul of the machine. This manual covers the Harley-Davidson XL Sportster built from 2014 to 2017. Do-it-yourselfers will find this service and repair manual more comprehensive than the factory manual, making it an indispensable part of their tool box. Specific models covered include: XL883L SuperLow (2014-2017), XL883N

Iron 883 (2014-2017),
XL883R Roadster
(2014-2015), XL1200C
1200 Custom
(2014-2017), XL1200CA
Custom Limited A
(2014-2016), XL1200CB
1200 Custom Limited B
(2014-2017), XL1200CP
1200 Custom (factory
custom) (2014-2016),
XL1200CX Roadster
(2016-2017), XL1200T
SuperLow (2014-2017),
XL1200V Seventy-Two
(2014-2016), and
XL1200X Forty-Eight
(2014-2017).

Manual

Detailed, full-color
anatomical illustrations
have drawn over a million
readers to this popular
anatomy series. Now
Running Anatomy is the
ideal resource for fitness
runners and competitive
runners hoping to improve
performance by increasing
muscular strength and
optimizing the efficiency of
the running motion, while
minimizing the risk for
injury. Anatomical
illustrations highlight the
muscles in action during
effective running exercises
and help readers assess
and rehab running injuries
like plantar fasciitis and ITB
syndrome. Original.

CRC Handbook of Marine Mammal Medicine

Since 1926, includes the
Annual statistical number,
which supersedes the Pacific
fisherman year book.

Maritime law enforcement

manual

Your chance to relive a little piece of "The Good Old Days" and find the answers to these burning questions: Which future Coast Guard Captain said "Shit, Mal, let's do a 360 and get out of here." Which Coast Guard astronaut said, when asked to describe his scariest moment, "Flying as Malcolm Smith's co-pilot." Which Coast Guard aviator got the blame for putting training wheels and streamers on the commanding officer's and XO's new bicycles. Which Coast Guard aviator threw up in his glove while flying rather than make a mess in the cockpit. This book brings back some of the funniest moments of the Coast Guard during the time period between the "Old Guard" and the new modern Coast Guard. "For more than two decades,

Mal has threatened to write a book to chronicle his many colorful experiences during his Coast Guard aviation career. Mal can spin a tale better than any sailor and his exploits in and out of the cockpit are indeed legendary. But the fact is, the closer he gets to the completion of this life-long dream of his, the more nervous I become. I can't wait to read it!" RADM David W. Kunkel, COAST GUARD AVIATOR #1726 "Malcolm Smith is a master storyteller with a flair for finding humor in everyday activities and recounting his observations with entertaining splendor that leaves you thirsting for another. Since meeting him when I was a teenager in Alaska, I have been absorbed by his colorful renditions and have long awaited this composition. I just hope I'm not the subject in one of his stories."
