- “ Steven Pressfield brings the battle of Thermopylae to brilliant life. ” —Pat Conroy At Thermopylae, a rocky mountain pass in northern Greece, the feared and admired Spartan soldiers stood three hundred strong. Theirs was a suicide

mission, to hold the pass against the invading millions of the mighty Persian army. Day after bloody day they withstood the terrible onslaught, buying time for the Greeks to rally their forces. Born into a cult of spiritual courage, physical endurance, and unmatched battle skill, the Spartans would be remembered for the greatest military stand in history—one that would not end until the rocks were awash with blood, leaving only one gravely injured Spartan squire to tell the tale. . . .

Every fossil tells a story. Best-selling paleontology author Donald R. Prothero describes twenty-five famous, beautifully preserved fossils in a gripping scientific history of life on Earth. Recounting the adventures behind the discovery of these objects and fully interpreting

their significance within the larger fossil record, Prothero creates a riveting history of life on our planet. The twenty-five fossils portrayed in this book catch animals in their evolutionary splendor as they transition from one kind of organism to another. We witness extinct plants and animals of microscopic and

immense size and thrilling diversity. We learn about fantastic land and sea creatures that have no match in nature today. Along the way, we encounter such fascinating fossils as the earliest trilobite, Olenellus; the giant shark Carcharocles; the "fishibian" Tiktaalik; the "Frogamander" and

the "Turtle on the Half-Shell"; enormous marine reptiles and the biggest dinosaurs known; the first bird, Archaeopteryx; the walking whale Ambulocetus; the gigantic hornless rhinoceros Paraceratherium, the largest land mammal that ever lived; and the Australopithecus nicknamed "Lucy,"

the oldest human skeleton. We meet the scientists and adventurers who pioneered paleontology and learn about the larger intellectual and social contexts in which their discoveries were made. Finally, we find out where to see these splendid fossils in the world's great museums. Ideal for all who love

prehistoric landscapes and delight in the history of science, this book makes a treasured addition to any bookshelf, stoking curiosity in the evolution of life on Earth. In *Russian Colonization of Alaska: Baranov's Era, 1799-1818*, Andrei Val'terovich Grin'ev examines the sociohistorical origins of the former Russian colonies in Alaska, or "Russian America." The formation of the Russian-American Company and the

concentration in the hands of Aleksandr Baranov of all the power in south and southeast Alaska's Russian settlements marked a new stage in the history of Russian America. Expanding and strengthening Russian possessions in the New World as much as possible, Baranov acted in favor of his country before himself, in accordance with the principle "people for the empire, and not the empire for the people." Russian Colonization of Alaska is the first comprehensive study to analyze the origin and

evolution of Russian colonization based on research into political economy, history, and ethnography. Grinëv's study elaborates the social, political, spiritual, ideological, personal, and psychological aspects of Russian America, accounting for the idiosyncrasies of the natural environment, competition from other North American empires, and challenges from Alaska Natives and individual colonial diplomats. Rather than being simply a continuation of Russians'

colonization of Siberia, the colonization of Alaska was instead part of overarching Russian and global history. *Bear Archery Traditional Bows* Eve Langlais

Girls’ Poker Night—comes a powerful love story exploring loss, reconciliation, and the quirks of fate. Roya is a dreamy, idealistic teenager living in 1953 Tehran who, amidst the political upheaval of the time, finds a literary oasis in kindly Mr. Fakhri’s neighborhood book and stationery shop. She always feels safe in his dusty store, overflowing with fountain pens, shiny ink bottles, and thick pads of soft writing paper. When Mr. Fakhri, with a keen instinct for a budding romance, introduces Roya to his other favorite

customer—handsome Bahman, who has a burning passion for justice and a love for Rumi’s poetry—she loses her heart at once. And, as their romance blossoms, the modest little stationery shop remains their favorite place in all of Tehran. A few short months later, on the eve of their marriage, Roya agrees to meet Bahman at the town square, but suddenly, violence erupts—a result of the coup d’etat that forever changes their country’s future. In the chaos, Bahman never shows. For weeks, Roya

tries desperately to contact him, but her efforts are fruitless. With a sorrowful heart, she resigns herself to never seeing him again. Until, more than sixty years later, an accident of fate leads her back to Bahman and offers her a chance to ask him the questions that have haunted her for more than half a century: Why did he leave? Where did he go? How was he able to forget her? The Stationery Shop is a beautiful and timely exploration of devastating loss, unbreakable family bonds, and the

military alliance of alien races known as the Covenant, and several weeks after the United Nations Space Command's devastating counterattack of Operation: SILENT STORM was deemed an overwhelming success. The UNSC has put its faith in the hands of the Spartans, led by the legendary Master Chief, John-117: enhanced super-soldiers raised and trained from childhood via a clandestine black ops project to be living weapons. But the Covenant—enraged and fearful of their enemy's unexpected strategies and prowess—is not taking its recent defeat lightly, and is now fully determined to

eradicate humanity from existence, brutally overrunning the ill-fated planets of the Outer Colonies faster than retreats can be ordered. If the UNSC has any chance of stemming the tide of the war, the Master Chief and Blue Team must drop onto an empty, hellish world in order to capture a disabled Covenant frigate filled with valuable technology. It has all the makings of a trap, but the bait is far too tempting to ignore—and this tantalizing prize is being offered by a disgraced and vengeful Covenant fleetmaster, whose sole opportunity for redemption lies in extinguishing
