Dr. Ray Vander Weele
embarks on a voyage
of discovery and
celebrates life's
joys, challenges, and
unexpected turns in
this memoir. He
shares the grief of
losing a child and
the anguish of saying
goodbye to a wife
claimed by
Alzheimer's—as well

as the thrill of
opening himself up to
a new love and a new
beginning later in
life. He writes about
the awkwardness of
adolescence, living
through the Great
Depression, World War
II, the Korean War,
and Vietnam; and
surviving scarlet
fever, heart surgery
and cancer—and how
avoiding polio and
covid-19 helped
create a new
appreciation for
life. Some of what he

recalls were
mountains: obstacles
that, in retrospect,
it is hard to believe
he overcame. Other
challenges were
boulders or even
pebbles—although it
was not always clear
at the time which was
which. Join the
author as he takes
stock of the past and
prompts you to
examine how you've
lived your life ...
and what you might do
to enhance the time
you have left.
