AGRICULTURAL MECHANICS: FUNDAMENTALS AND APPLICATIONS, 6th edition is designed for high school students learning agricultural mechanics. The text aims to connect the theory behind mechanics with the practical application. Topics covered are those common to most programs and include metal and career selection; wood and metal working; tool identification; project planning; cutting and welding; paints and paint application; power

mechanics; electrical wiring; plumbing; hydraulics; concrete and masonry; and agricultural structures. Safety rules and precautions are prominent in every section of the units as well as an entire unit on personal safety. To engage the reader, *Agricultural Mechanics Fundamentals and Applications*, 6th edition is illustrated with up-to-date images that support text material. In addition, 36 charts and data tables are included to provide information for project planning and measurement conversions. The last section of the text is dedicated to detailed drawings of 58 complete plans that are designed for the skill levels students should acquire at the completion of their course of study in agricultural mechanics.

Geralt the Witcher -- revered and hated -- holds the line against the monsters plaguing humanity in this collection of adventures in the NYT bestselling series that inspired the blockbuster video games. Geralt is a Witcher, a man whose magic powers, enhanced by long training and a mysterious elixir, have made him a brilliant fighter and a merciless assassin. Yet he is no

ordinary murderer: his targets are the multifarious monsters and vile fiends that ravage the land and attack the innocent. But not everything monstrous-looking is evil and not everything fair is good...and in every fairy tale there is a grain of truth. Andrzej Sapkowski, winner of the World Fantasy Lifetime Achievement award, started an international phenomenon with his Witcher series. magazine. Inside you will find a world of wonders. If you are like most people you will flick through and look at the art first. We are proud to feature gallery prints from iconic photographer Kim Weston. The art editor and I met Kim a few years ago at the Henry Miller Library over dinner, and have been trying to get his beautiful photographs in our magazine ever since. It is thanks to the dogged tenacity of River Tabor that we are able to feature work by an astounding member of the Weston dynasty. Tim Youd did an entire art exhibit based on a passage out of Henry Miller's *Tropic of Capricorn*. We have a poem by Big Sur visitor and raconteur Richard Brautigan. This poem seems to embody the internal landscape of the author. We are fortunate to have so many talented people in the

planisphere that is the Henry Miller Memorial library, and are happy to have so many West Coast writers and artists featured in this issue. The Library is an amazing cultural venue, a local's hang out, a bookstore, a concert venue, and a film theatre, but it is also a fragile watershed. Our commitment to keeping this delicate ecosystem in check is part of why this year we have launched into our capital fundraising campaign, in an effort to retrofit Emil White's little cabin into a place that hosts such acts as Thurston Moore of Sonic Youth. I met Thurston on a damp afternoon at the library. I am not an interviewer per say, but I do love listening to people's stories.
