My First Book of Korean Words is a beautifully illustrated book that introduces young children to Korean language and culture through everyday words. The words profiled in this book are all commonly used in the Korean language and are both informative and fun for English-speaking children to learn. The goals of My First Book of Korean Words are multiple: to familiarize children with the sounds and structure of Korean speech, to introduce core elements of Korean culture, to illustrate the ways in which languages differ in their treatment of everyday sounds and to show how, through cultural importation, a single word can be shared between languages. Both teachers and parents will welcome the book's cultural and linguistic notes, and appreciate how the book is organized in a familiar ABC structure. Each word is presented in Hangeul, as well as in its Romanized form. With the help of this book, we hope more children (and adults) will soon be a part of the nearly 80 million people worldwide that speak Korean!

### **Integrated Korean** Mcgraw-hill

Advanced Korean offers a complete, systematic, and streamlined third-year course in Korean. It is ideal for university students and adult learners with plentiful reading texts and written exercises, all in Korean Hangeul. Concise Korean grammar notes in English, extensive glossaries, and an answer key make this book suitable for those studying alone, as well as for classroom use. There are 20 comprehensive lessons, each with a reading text in which new language is introduced in context, followed by vocabulary, grammar points, and exercises. Lessons 5, 10, 15 and 20 are short reviews of the key structural patterns introduced. The focus is on written Korean, but the reading texts are not academic, they are breezy, chatty, and amusing, with illustrations. The textbook comes with a downloadable supplement entitled Sino-Korean Companion. It is for those learners wishing to commence the study of Chinese characters as they are used in the Korean language. The 20 lessons build on the content of the lessons in the main textbook to introduce 500 Chinese characters in their Sino-Korean readings. The emphasis is on giving students the tools they need to decipher unfamiliar Chinese characters on their own, and also on Sino-Korean vocabulary acquisition. Each lesson introduces approximately 25-30 new Chinese characters along with related vocabulary items, and builds on previous characters and vocabulary introduced, demonstrating the cumulative effect on one's vocabulary of paying systematic attention to Sino-Korean.
