Privilege or Human Right? IGI Global The use of technological tools to foster language development has led to advances in language methodologies and

changed the approach towards language instruction. The tendency towards developing more autonomous learners has emphasized the need for technological tools that could contribute to this shift in foreign language learning. Computer-assisted language learning and mobile-assisted language learning have greatly collaborated to foster language instruction out of the classroom environment, offering possibilities for distance learning and expanding in-class time. Recent Tools for Computer- and Mobile-Assisted Foreign Language Learning is a scholarly research book that explores current strategies for foreign language learning through the use of technology and introduces new technological tools and evaluates

existing ones that foster language development. Highlighting a wide array of topics such as gamification, mobile technologies, and virtual reality, this book is essential for language educators, educational software developers, IT consultants, K-20 institutions, principals, professionals, academicians, researchers, curriculum designers, and students.

SBI & IBPS Bank Clerk 30 Past (2009-16) Solved Papers - 2nd Edition Darakwon

This book explains why some Korean high school students sleep during English classes in spite of the emphasized value of English in their society. It examines how this sleeping-in-class phenomenon can be understood by means of such marginalized students' emic outlooks on themselves, the target language, their

teachers, schools, and society/culture; and by means of the views of teachers who have experienced such in-class sleepers. To understand the phenomenon more holistically, it pursues a multi-disciplinary approach drawing on studies of demotivation and amotivation, psychological needs, and student experiences of schooling, as well as sociocultural theories of learning and agency and of interpersonal dynamics, among others. On the basis of a multi-modal analysis of interview data from the student and teacher participants, it theoretically interprets the phenomenon at the classroom ('micro-'), school ('meso-') and society-culture ('macro-') levels. Taking a humanistic/existential approach to education, it subsequently presents a number of cultural actions that it advocates implementing in a situation-sensitive manner to help in-class sleepers and their educational institutions awaken from their chronic slumber. Lastly, it

presents practical and theoretical implications for more humanistic pedagogy, and global studies of student disengagement, in English-as-a-foreign-language classes. *Global Practices of Language Teaching: Proceedings of the 2008 International Online Language Conference (IOLC 2008)* Routledge Presents test-taking strategies and practice questions on the Graduate Management Admission Test, focusing on grammar, reading comprehension, critical reasoning, and sentence correction. *Pak Chega's Discourse on Northern Learning* iUniverse ??????????????????DSE? ??????????????Antonia Cheng????2021??DSE? ?????????????????????? ??????????????DSE???????? ??????????????????????D SE????????? *Curriculum Needs, Materials, and Assessment* A&C Black Higher Education Access in the Asia Pacific Privilege or Human Right? This text examines the enormous pressure placed on University students in Japan, Korea and Taiwan which have led to the rapid expansion of the "cramming" industry and to a growing number of students looking to religion and spirituality for guidance. The book examines the issue of the rise in youth suicides, and the dramatic rise in levels of cheating; both raising fundamental questions about the education system in the late 1990s.

This is a thoroughly revised edition of Integrated Korean: Intermediate 2, the fourth volume of the best-selling series developed collaboratively by leading classroom teachers and

linguists of Korean. All the series' volumes have been developed in accordance with performance-based principles and methodology—contextualization, learner-centeredness, use of authentic materials, usage-orientedness, balance between skill getting and skill using, and integration of speaking, listening, reading, writing, and culture. Grammar points are systematically introduced in simple but adequate explanations and abundant examples and exercises. Each situation/topic-based lesson of the main texts consists of model dialogues, narration, new words and expressions, vocabulary notes, culture, grammar, usage, and English translation of dialogues. In response to comments from

hundreds of students and instructors of the first edition, this new edition features a more attractive two-color design with all new photos and drawings and additional exercises that focus on vocabulary and grammar. Lessons are now organized into two main sections, each containing a conversational text (with its own vocabulary list) and a reading passage. The accompanying workbook, newly written, provides students with extensive skill-using activities based on the skills learned in the main text. Integrated Korean is a project of the Korean Language Education and Research Center (KLEAR) with the support of the Korea Foundation. In addition to the five-level Integrated Korean textbooks and

workbooks, volumes include Korean Composition, Korean Language in Culture and Society, Korean Reader for Chinese Characters, Readings in Modern Korean Literature, Selected Readings in Korean, and A Resource for Korean Grammar Instruction.

Business in North Korea: a paradoxical and fascinating

situation is interpreted by a true insider. In 2002, the Swiss power company ABB appointed Felix Abt its country director for North Korea. The Swiss Entrepreneur lived and worked in North Korea for seven years, one of the few foreign businessmen there. After the experience, Abt felt compelled to write *A Capitalist in North Korea* to describe the multifaceted society he encountered. North Korea, at the time, was heavily sanctioned by the UN which made it extremely difficult to do business. Yet he discovered that it was a place where plastic surgery and South Korean TV dramas were wildly popular and where he rarely needed to walk more than a block to grab a quick hamburger. He was closely monitored and once faced accusations of spying, yet he learned that young North Koreans are hopeful—signing up for business courses in anticipation of a brighter, more open, future. In *A Capitalist in North Korea*, Abt shares these and many other unusual facts and insights about one of the world's most secretive nations.

Teaching Korean as a Foreign Language: Theories and Practices is designed for prospective or in-service Korean as a Foreign Language (KFL) teachers. With contributions from leading experts in the field, readers will gain an understanding of the theoretical framework and practical applications of KFL education in the context of Second Language Acquisition (SLA). The eight chapters explore the history of and current issues in language education, the practicalities of being a classroom teacher, and teaching and evaluation techniques for developing language and cultural proficiency. This comprehensive

volume also includes an annotated bibliography which lists over 500 of the most recent and pertinent research articles and doctoral dissertations in the area. This bibliography will be of great service to students, teachers, and any researchers in applied linguistics and second language acquisition interested in Korean language education.
Understanding the Meaning, Value, and Use of Shadow Education by East Asian Students

What do Buddhist monks learn about Buddhism? Which part of their enormous canonical and non-canonical literature do they choose to focus on as the required curriculum in their training, and what do they elect to leave out? The cultural depository of Buddhism includes some four thousand canonical texts, hundreds of other historical works, modern textbooks, oral

traditions, and more recently, an increasingly growing body of online material. The sheer diversity of this mass of information makes the pedagogical choices of monastics worthy of close study. Monastic Education in Korea is essentially a biography of the Korean Buddhist monastic curriculum over the past five centuries. Based on extensive ethnographic work and archival research in Korean monasteries, it illustrates how a particular premodern syllabus was reimaged in the twentieth century to become the sole national Korean monastic pedagogical program—only to be criticized and completely restructured in recent years. Through a detailed analysis of these modifications, the work demonstrates how Korean Buddhist reformers today tend to imitate the educational practices and canonize the textual totems of the contemporary international discipline of Buddhist studies, and how, by doing so, they ultimately transform the local Korean tradition from a particular brand of

Chinese-centered scholastic Chan into the inclusive, pluralistic, Indian-focused Buddhism common in English-language introductions to the religion. The book further examines the proliferation of diverse graduate schools for the sangha, as well as the creation of a novel examination system for all monastics. It reveals some of the realities of operating large monastic organizations in contemporary Asia and portrays a living, vibrant Buddhist community that is constantly negotiating with modern values and reformulating its core orthodoxies.

Two years after Adam Smith's *Wealth of Nations* was published in 1776, Pak Chega's (1750–1805) *Discourse on Northern Learning* appeared on the opposite corner of the globe. Both books presented notions of wealth and the economy for critical review: the former caused a stir across Europe, the latter influenced only a modest group of Chosŏn (1392–1897) Korea scholars and other intellectuals. Nevertheless, the ideas of both thinkers closely reflected the spirit of their times and helped define certain schools of thought—in the case of Pak, *Northern Learning* (Pukhak), which disparaged the Chosŏn Neo-Confucian state ideology as inert and

ineffective. Years of humiliation and resentment against the conquering Manchus blinded many Korean elites to the scientific and technological advances made in Qing China (1644–1911). They despised its rulers as barbarians and begrudged Qing China's status as their suzerain state. But Pak saw Korea's northern neighbor as a model of economic and social reform. He and like-minded progressives discussed and corroborated views about the superiority of China's civilization. After traveling to Beijing in 1776, Pak wrote *Discourse on Northern Learning*, in which he favorably introduced many aspects of China's economy and culture. By comparison, he argued, Korea's economy was depressed, the result of inadequate government policies and the selfishness of a privileged upper class. He called for drastic reforms in agriculture and industry and for opening the country to international trade. In a series of short essays, Pak gives us rare insights into life on the ground in late eighteenth-century

Korea, and in the many details he supplies on Chinese farming, trade, and other commercial activities, his work provides a window onto everyday life in Qing China. Students and specialists of Korean history, particularly social reform movements, and Chosŏn-Qing relations will welcome this new translation.

The book describes how the three East Asian writing systems—Chinese, Korean, and Japanese—originated, developed, and are used today.

Uniquely, this book: (1) examines the three East Asian scripts (and English) together in relation to each other, and (2) discusses how these scripts are, and historically have been, used in literacy and how they are learned, written, read, and processed by the

eyes, the brain, and the mind. In this second edition, the authors have included recent research findings on the uses of the scripts, added several new sections, and rewritten several other sections.

They have also added a new Part IV to deal with issues that similarly involve all the four languages/scripts of their interest.

The book is intended both for the general public and for interested scholars. Technical terms (listed in a glossary) are used only when absolutely necessary.

This textbook brings together internationally renowned scholars to provide an overview of print and digital literacy instruction for pre-service teachers and teacher educators. It examines historical and cultural contexts of

literacy practices around the globe, and addresses issues that teachers need to consider as they teach children from diverse world cultures, languages, and backgrounds. Organized into three Parts—Early Literacy, Intermediate to Adolescent Literacy, and Case Studies—the text highlights key practices around the world to provide literacy educators and students with a broader view of effective practices as well as strategies for overcoming challenges faced by literacy educators worldwide. The global case studies present complex issues and allow readers to discuss what it means to be globally minded, as well as how to implement best practices in literacy instruction. All chapters include consistent elements for ease of use, such as vignettes, historical and cultural contexts, implications for future research, and discussion questions. Grounded in current research and theory, this book is designed for foundational courses in literacy education and literacy methods, as well as courses in comparative

and multicultural
education.
