Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Suddenly, I heard rifle fire. Time and time again. I was sure we were going to be killed and no one would ever find our bodies because no one knew where we were. I struggled to control my breathing. How in the world did I get myself into this predicament? What was I doing up here? It was 1978, and American missionary Elaine Olelo Masters had just embarked on the first of many short-term trips to the jungles of Thailand. With political unrest, language barriers, and cultural disparities, she had much to overcome while sharing the love of Christ in remote tribes. Unexpected beauty and darkness appeared around every turn. Behind the brilliant flowers, grand mountain vistas, and dazzling Buddhist temples lay spiritual darkness, ethnic prejudice, and even demonic influence. Spanning more than thirty years, Elaine's ministry to the tribal people in Thailand provided abundant examples of the power and goodness of God. Exciting tales of witchdoctors, exorcisms, evangelism, and miracles ensure that Elaine's stories in *Feel The Fear But Do It Anyway* will captivate readers of all ages.
