ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the

seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- The most engaging and musical Sight-Singing text on the market. Music for Sight Singing is structured around organized melodies drawn from the literature of composed music and a wide range of the world's folk music. Real music exercises allow readers to practice sight singing and develop their "mind's ear" -- the ability to imagine how music sounds without first playing it on an instrument. The ninth edition continues to introduce a host of important

musical considerations beyond pitch and rhythm- including dynamics, accents, articulations, slurs, repeat signs, and tempo markings. The book's arrangement of simple to complex exercises lays the foundations for success. Learning Goals Upon completing this book, readers will be able to: Fluently read rhythms in simple and compound meters, including those in relatively unusual, irregular, or changing meter signatures. Sight sing melodies in any major or minor key, and in any diatonic mode. Effortlessly read all four common clefs. Understand common musical symbols and terms. Recognize and sing important harmonic features such as dominant seventh and Neapolitan chords. Improvise effectively from a variety of background structures such as a harmonic progression or an underlying contrapuntal framework. Negotiate chromatic passages from simple embellishing tones

and tonicizations to modulations to post-tonal music. NOTE: MySearchLab does not come automatically packaged with this text. To purchase the text with MySearchLab, order the package ISBN: 020595524X / 9780205955244 Music for Sight Singing Plus MySearchLab with eText -- Access Card Package Package consists of: 0205938337 / 9780205938339 Music for Sight Singing 0205955053 / 9780205955053 MySearchLab with Pearson eText -- Valuepack Access Card -- for Music for Sight Singing

Concise Introduction to Tonal Harmony MIT Press

The Second Edition of Alfred's Group Piano for Adults Book 1, includes updates inspired by numerous recommendations from group piano teachers and students. This book includes a CD-ROM containing both Audio and General MIDI Files of the 500+ accompaniments included in the text, each with an interesting and

engaging arrangement coupled with the piano part. Designed for collegiate non-keyboard music majors with little or no keyboard experience, the easy-to-use text contains 26 units, each intended to be covered in one week, thus fulfilling two semesters or three quarters of study. Theory, technique, sight-reading, repertoire, harmonization, improvisation, and ensemble activities are taught thoroughly and consistently throughout the text. The comb binding creates a lay-flat book that is perfect for study and performance. Book 1 is 360 pages. Selected sight-reading examples from this book are available in the Piano Maestro app that's downloadable at Piano Maestro. Learn more about JoyTunes, the maker of Piano Maestro at JoyTunes.

Workbook for Tonal Harmony, with an Introduction to Twentieth-century Music Hal Leonard Corporation Provides material for homework assignments, classroom demonstrations,

and periodic reviews. A generous assortment of excerpts from the literature for assignments in analysis. Volume II corresponds with the second half of the text.

Workbook Pearson College Division Voice and Speech Training in the New Millennium is a collection of interviews with 24 of today's leading voice and speech teachers, each of whom has contributed to the advancement of the field and made today's training a cutting edge component of actor training. Music for Sight Singing Scarecrow Press (Book). Here's the most contemporary music dictionary on the market! Conveniently divided into three main sections: The Dictionary of Music Terms defines over 2,000 music terms concisely, including notation and theory terms, instruments and terms used in pop music, electronic music and the music business; The Dictionary of Musicians provides more than 400 capsule biographies of composers and other musicians; and Reference Charts give instant, at-a-glance summaries of the essentials of music, encompassing instrumental and vocal ranges, notation signs and symbols, and scales, modes and key signatures.

Each set of exercises in the Workbook is closely correlated with the corresponding chapter of the text and with a particular Self-Test within the chapter. Each set of Workbook exercises begins with problems similar to those found in the corresponding Self-Test, but the Workbook exercises also include problems that are too open-ended for the Self-Test format as well as more creative types of compositional problems for those instructors who like to include this type of work.

Tonal Harmony, with an Introduction to Twentieth-century Music McGraw-Hill Humanities/Social Sciences/Languages

A comprehensive introduction to music theory integrating the basic rudiments.

Music in Theory and Practice Volume 2 Carl Fischer, L.L.C.

Music Theory through Musical Theatre takes a new and powerful approach to music theory. Written specifically for students in music

theatre programs, it offers music theory by way of musical theatre. Not a traditional music theory text, Music Theory through Musical Theatre tackles the theoretical foundations of musical theatre and musical theatre literature with an emphasis on what students will need to master in preparation for a professional career as a performer. Veteran music theatre musician John Franceschina brings his years of experience to bear in a book that offers musical theatre educators an important tool in equipping students with what is perhaps the most important element of being a performer: the ability to understand the language of music in the larger dramatic context to which it contributes. The book uses examples exclusively from music theater repertoire, drawing from well-known and more obscure shows and songs. Musical sight reading is consistently at the forefront of the lessons, teaching students to internalize notated music quickly and accurately, a particularly necessary skill in a world where songs can be added between performances. Franceschina consistently links the

concepts of music theory and vocal coaching, showing students how identifying the musical structure of and gestures within a piece leads to better use of their time with vocal coaches and ultimately enables better dramatic choices. Combining formal theory with practical exercises, Music Theory through Musical Theatre will be a lifelong resource for students in musical theatre courses, dog-eared and shelved beside other professional resource volumes.

The Basic Book of Scales, Chords, Arpeggios & Cadences McGraw-Hill Education

Approaches to Meaning in Music presents a survey of the problems and issues inherent in pursuing meaning and signification in music, and attempts to rectify the conundrums that have plagued philosophers, artists, and theorists since the time of Pythagoras. This collection brings together essays that reflect a variety of diverse perspectives on approaches to musical meaning. Established music theorists and musicologists cover topics including musical aspect and temporality, collage, borrowing and

association, musical symbols and creative mythopoesis, the articulation of silence, the mutual interaction of cultural and music-artistic phenomena, and the analysis of gesture.

Contributors are Byron AlmÃ©n, J. Peter Burkholder, Nicholas Cook, Robert S. Hatten, Patrick McCreless, Jann Pasler, and Edward Pearsall.

McGraw-Hill Higher Education

This single volume covers all the topics typically taught in a two-year music theory course. In addition to numerous self-tests and examples, musical illustrations with commentaries, coverage of late 19th and 20th-century developments and a companion workbook, this updated edition includes a cassette with many of the text's musical examples; new exercises, summaries and self-tests; and an expanded supplements package. A study guide (0-07-034882-6) and an enhanced instructor's manual (0-07-035881-8) with a chapter quiz and answers to workbook exercises are also available.

The Cognition of Basic Musical Structures McGraw-Hill Humanities, Social Sciences & World Languages

This book will come as a joy, a revelation, a warm reassurance. From this one book one might well learn less about harmony than about form, about aesthetics, even about life. Some will accuse Schoenberg of not concentrating on the topic at hand, but such an accusation, though well-founded,

would miss the point of Theory of Harmony, because the heart and soul of the book is to be found in his vivid and penetrating digressions. They are the fascinating reflections of a great and humane musician who was a born writer as well. - from the book.

Oxford University Press, USA

A rollicking tour of the history of the high seas with Blackbeard, Captain Kidd, 'Calico Jack'

Rackham, Anne Bonney and other figures of maritime legend. Includes Francis 'The Scourge of Spain'

Drake's audacious night-time treasure raid on Nombre de Dios; Alexander Exquemelin's fly-on-the-wall account of the 'wicked order of pirates, or robbers of the sea'; the journal of William Dampier, found stashed in a hollow bamboo tube, and much more. Witness

skulduggery and malice, terror and excitement -- a colourful and always entertaining collection.

Tonal Harmony Applause Theatre & Cinema Book Publishers

Designed for the musicianship portion of the freshman theory sequence, Benjamin/Horvit/Nelson MUSIC FOR SIGHT SINGING, Sixth Edition, presents music that is challenging without overwhelming young musicians. Drawing on their extensive experience as composers and arrangers who adapt music for their own students, the authors strike a critical balance between rigor and accessibility.
