Machines - Krones

In one hour, the machine can fill 37,000 2-litre bottles. And that is not even its maximum capacity: its capacity of 78,000 litres an hour means that the filler will be able to fill 3.0 litre bottles at a rate of 26,000 bottles per hour in the future. Equally as spectacular as the performance data is the way the filler was transported: Krones packed the almost 30 tonne machine in a crate ...

A similar phenomenon can be observed in the day-to-day operation of Krones filling and packaging lines: At the front, the products to be filled are supplied, some meters and minutes later, the palletised packs are discharged – and what happens in between seems to be just happening on its own. We know: The impression is deceptive. Actually, the lines operate hardly . producing up to 81,000 ...
