Kubota Engine Division

The greatest advantage of Kubota
engine is the technology to respond
to environmental requirements and
application engineering. Since
receiving the CARB certification of
emission regulations (California Air

Resources Board, USA) for the first
time in the world as small industrial
engines in 1993, we have always
conformed to strict emission
controls from around the world as a
pioneer of environmental
technology.

Kubota engines are diesel and spark
ignition engines manufactured by
Kubota Corporation. Besides
gasoline-fueled for spark ignition
engines, the company produces dual
fuel, LPG-fueled, and natural-gas-
fueled engines as well. The engines
are widely used in various forms,
such as: agricultural equipments,

construction equipments, gensets, tractors, and marine propulsion. Beta Marine, an international company providing marine propulsion engines, uses various Kubota engines for fresh water and sea-g
