Tools for Homesteaders, Gardeners, and Small-scale Farmers Old Pond Books

By the end of the twentieth century there were some half-million tractors on British farms - more machines than people to drive them. Brian Bell's encyclopaedic book traces the evolution of the farm tractor from the days of starting handle and pan seat to current 4-wheel drive machines with air-conditioned cabs and computer management systems. He deals in particular with developments of the classic period from the 1950s to the 1990s. The book is arranged alphabetically by manufacturer from Allis-Chalmers to Zetor, one hundred marques in total. These are all machines to be found on British farms irrespective of their country of manufacture. Brian runs concisely through the histories of the companies and their major models, illustrated with a wealth of photographs and extracts from sales literature. He adds some special features on items such as hydraulic systems and cold-starting aids. He includes a glossary and full index. This book replaces the author's earlier, successful, *Fifty Years of Farm Tractors*. Many of the photographs are new and the text has been brought up to date to include developments of the early twenty-first century.

Chilton's Tractor Repair Manual Mitchell Beazley

I'm an ordained deaconess, who accepted Christ as my Savior at a very young age. I have been writing for over 25 years. I remember at the age of seven writing scripts for my neighborhood family and friends. I had the passion to write even then. As long as I had a pencil to write with and paper to write on, I was content and my love for writing grew stronger and stronger through the years. I have published other writings on numerous occasions however once God gave me the anointing to write for Him, I knew I found my true purpose in life. That's when Matthew 13:49 manifested itself in my spirit and God freely gave me creative expressions that only my spiritual ears could hear. This book is poetically inspired, with spiritual guidance by the help of the Holy Spirit to encourage one to walk in the light.

Betty and Nancy Debenham were a pair of young adventurous lady motorcyclists who entered trials competitions on equal terms with men in the 1920's. Although they were serious motorcyclists they never let this get in the way of their tremendous sense of fun. Their spirit shines through in 'Motor Cycling for Women'. A practical and yet at times eccentric and quirky book from a bye-gone era that will make you smile.
