I have a M4030 SU kubota diesel. I bought it new and upon delivery I checked the oil before I used it. The oil was 1" over the full mark which I thought strange. Surely the dealer knows how much oil it takes so maybe I'm reading the dipstick wrong. I noticed when I bush hogged the engine would bog down on steep uphill slopes. I believe the excess oil in the crankcase was bogging the engine down ...
