Inventive, hilarious and joyously colorful, this fill-in journal was designed to help kids capture nearly everything that's uniquely rad about them. With design-savvy, yet completely kid-friendly illustrations, they're asked to draw or write about a bunch of interesting things -- like what their hair looks like, what their band name would be, what they'd bring to outer space, and how they feel about lightning, lizards and pickles. There may or may not be a place for super-secret stuff inside the book jacket. Whether kids complete their entire compendium on a rainy day, or finish it over a year, it'll become a

treasure to look back on and smile. Ideal for the holidays, rainy days and happy occasions of all kinds, this is an imagination-building gift will engage kids for hours on end

This compelling novel follows four women as they learn to balance children, estranged husbands, boyfriends, and problems at work through their faith in God. Michelle, Tonya, Mrs. Judson, and Miz Ida. African-American, white, rich, poor -- they seemingly have nothing in common. Yet every day they face the complex realities of twenty-first-century urban life as they try to balance their needs with their belief in God. Through the course of a year, these women must come to terms with the past, discover their true identities, and recognize the unexpected miracles that reveal God's all-encompassing love. These four women entertain us and invite us to join in their lives. As they welcome us, they also introduce us to the men in their lives. The men play supporting roles, adding color and zest to the lives of the Cover Girls. Bishop Jakes knows the struggles real women encounter and the losses that make it difficult to face the future. He brings compassionate insight and deep wisdom to this novel and proves that he is not only a gifted preacher, but a born storyteller.

A comprehensive survey of the most recent results from the field of quark-gluon structure of the nucleon, in particular how the spin of the nucleon is shared by its constituents. After very intriguing results from CERN and SLAC at the end of the 1980s, the last decade has seen a set of second-generation experiments at high energy accelerators

that have yielded precise information on the solution of the 'Spin Crisis' - as well as opening up new questions. The articles are written by experts from the leading collaboration and theory groups as well as providing an expert summary of the state of the art, the book points the way to future research directions. Its main focus is on semi-inclusive and exclusive measurements of deep inelastic lepton scattering, which enables for the first time the determination of the flavor-separated quark spin distributions. Future developments on generalized parton distributions and their interpretation as well as the transverse spin structure are also covered. An indispensable volume for all working in hadronic physics.

Matsushita Leadership Createspace Indie Pub Platform

He was one of the most inspirational role models of all time. Thrown into poverty at age four, Konosuke Matsushita (Mat-SOSH-ta) struggled with the early deaths of family members, an apprenticeship which demanded sixteen-hour days at age nine, all the problems associated with starting a business with neither money nor connections, the death of his only son, the Great Depression, the horror of World War II in Japan, and more. Yet John P. Kotter shows in this fascinating and instructive book how, instead of being ground down by these hardships, Matsushita grew to be a fabulously successful entrepreneur and business leader, the founder of Japan's General Electric: the \$65 billion a year Matsushita Electric Corporation. His accomplishments as a leader, author, educator, philanthropist, and management innovator are astonishing, and outshine even

Soichiro Honda, J.C. Penney, Sam Walton, and Henry Ford. In this immensely readable book, Kotter relates how Matsushita created a large business, invented management practices that are increasingly being used today, helped lead his country's economic miracle after World War II wrote dozens of books in his latter years, founded a graduate school of leadership, created Japan's version of a Nobel Prize, and gave away hundreds of millions to good causes. The Matsushita story expands our notion of the possible, even for a sickly youngster who did not have the benefit of a privileged background, education, good looks, or a charismatic presence. It tells us much about leadership, entrepreneurship, a drive for lifelong learning, and their roots. It demonstrates the power of a longterm outlook, idealistic goals, and humility in the face of great success. Matsushita Leadership is both a biography and a set of lessons for careers and corporations in the 21st century. An inspirational story and a business primer, the implications are powerful, for organizations and for living a meaningful life.

Design: The Whole Story takes a close look at the key developments, movements and practitioners of design around the world, from the beginnings of industrial manufacturing to the present day. Organized chronologically, it locates design within its technological, cultural, economic, aesthetic and theoretical contexts. From the high-minded moralists of the 19th century to the radical thinkers of modernism - and from the emergence of showmen such as Raymond Loewy in the 1930s to today's superstars such as Philippe Starck - the book provides in-depth coverage of a subject that touches all our lives. Iconic works that mark significant steps forward or that characterize a particular era or approach - such as Marcel Breuer's Wassily chair of 1925, Eliot Noyes' corporate identity work for IBM in the 1950s and Matthew Carter's Verdana typeface, designed to be read on screen - are analysed in detail, while the text sets out the framework of ideas, intent and technology within which differing approaches to design have evolved. From the cars we drive and the products we buy to the graphics that surround us, we are all consumers of design. Design: The Whole Story provides all the information you need to decode the material world.

An uproarious and frank memoir of illness and recovery, No Laughing Matter is a story of friendship and recuperation from the author of the classic Catch-22. It all began one typical day in the life of Joe Heller. He was jogging four miles at a clip these days, working on his novel God Knows, coping with the complications of an unpleasant divorce, and pigging out once or twice a week on Chinese food with cronies like Mel Brooks, Mario Puzo, and his buddy of more than twenty years, Speed Vogel. He was feeling perfectly fine that day—but within twenty-four hours he would be in intensive care at Manhattan's Mount Sinai Hospital. He would remain hospitalized for nearly six months and leave in a wheelchair. Joseph Heller had Guillain-Barré syndrome, a debilitating, sometimes fatal condition that can leave its victims paralyzed from head to toe. The clan gathered immediately. Speed—sometime artist, sometime businessman, sometime herring taster, and now a coauthor—moved into Joe's apartment as messenger, servant, and shaman. Mel Brooks, arch-hypochondriac of the Western world, knew as much about Heller's condition as the doctors. Mario Puzo, author of the preeminent gangster novel of our time, proved to be the most reluctant man ever to be dragged along on a hospital visit. These and lots of others rallied around the sickbed in a show of loyalty and friendship that not only built a wild and spirited camaraderie but helped bring Joe Heller, writer and buddy extraordinaire, through his greatest crisis. This book is an inspiring, hilarious memoir of a calamitous illness and the rocky road to recuperation—as only the author of Catch-22 and the friend who helped him back to health could tell it. No Laughing Matter is as wacky, terrifying, and greathearted as any fiction Joseph Heller ever wrote.
