With the help of this book anyone who has the necessary equipment and basic knowledge should be able to perform maintenance and repair-work. Problems

---

in the electrical system are actually easy to fix. If you don't want to do it by trial and error, this book helps you to understand the electric system of the XS 650. On 35 pages with 38 color photos and graphics you will find an extensive description of the function and how to test all components of the power supply. In addition, a highly simplified wiring harness, which contains all the necessary functions, is described. New spare parts are rarely available. So a whole chapter with 34 color

photos is dedicated to the description of typical damages. It will help you to recognize the beginning of wear and to decide whether a part should be replaced or not.

Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when

their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free

---

income. With the principles outlined in *Millionaire by Thirty*, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.
