Regular price. \$6,695.00. I know we push the gen V swaps a lot, but we're always open to bringing you guys more options. We have the opportunity to stock LS3/L99 drivetrains.

Drivetrains have roughly 40k-80k miles. Engine only \$4,500. Engine with 6180 \$6,500. Engine with tr6060 \$7,000. These are most likely going to be the only LS options we are going to attempt to carry.  
LS3/L99 Drivetrains – Engine Swap Supply  
L99. The L99 was an adapted version of the LS3. It was ONLY available in the 2010-15 Camaro SS with an automatic transmission. It used different pistons, crankshaft, camshaft, and valves. It also added Active

---

Fuel Management (AFM) and Variable Valve Timing (VVT) . This scaled back the power a little bit.

### **L99 Engine Free Repair Manual -**

**pompahydrauliczna.eu**

L99 engine is an Automatic and it has Variable Valve Timing and Active Fuel Management. LS3 engine is the stick shift car and does not have VVT or AFM. The cams are different between the 2 engines. From what I have been told people are eliminating the VVT and AFM from their cars then you use the LS3 style cam in the car.

The L99 and LS3 heads have rectangle intake ports. The lighter hollow stem valves used in the LS3 can be installed in L99 heads to increase the rpm range. It is also common to CNC port and/or mill them up to 0.030 in. to increase compression and better airflow. There are many Aftermarket Heads available. The heads flow better and have thicker decks to maintain head gasket seal.
