Wine in the Ancient World Indiana University Press
Trapped in a world of brutal physical punishment and unrelenting, back-breaking labor, Frederick Douglass mused that it was the friendships he shared with other enslaved men that carried him through his darkest days. In this pioneering study, Sergio A. Lussana offers the first in-depth investigation of the social dynamics between enslaved men and examines how individuals living under the conditions of bondage negotiated masculine identities. He demonstrates that African American men worked to create their own culture through a range of recreational pursuits similar to those enjoyed by their white counterparts, such as drinking, gambling, fighting, and hunting. Underscoring the enslaved men's relationships, however, were the sex-segregated work gangs on the plantations, which further reinforced their social bonds. Lussana also addresses male resistance to slavery by shifting attention from the visible, organized world of slave rebellion to the private realms of enslaved men's lives. He reveals how these men developed an oppositional community in defiance of the regulations of the slaveholder and shows that their efforts were intrinsically linked to forms of resistance on a larger scale. The trust inherent in these private relationships was essential in driving conversations about revolution. My Brother Slaves fills a vital gap in our contemporary understanding of southern history and of the effects that the South's peculiar institution had on social structures and gender expression. Employing detailed research that draws on autobiographies of and interviews with former slaves, Lussana's work artfully testifies to the importance of social relationships between enslaved men and the degree to which these fraternal bonds encouraged them to resist.

As a corporate executive, James S. Avery did not simply open doors for black people in this country; he changed marketing strategy throughout the corporate world. Now, in his autobiography, "Others Thought I Could Lead," Avery shares the secrets of his success--his strong work ethic, his moral values, and a belief in himself that allowed him to persevere in the face of adversity. As Horace Baldwin states in the foreword, Avery's book gives us the opportunity to put our own stories in perspective as we realize how much we are capable of contributing to the world.

My Brother Slaves Harper Collins
A national study of social conditions on college campuses found that college officials were concerned about alcohol and drug abuse, crime, breakdown of civility, racial tensions, sex discrimination, and a diminishing commitment to teaching and learning. In response to those findings, this book proposes that both academic and civic standards be clarified and that the enduring values that undergird a community of learning be precisely defined. Six principles are presented that provide a formula for day-to-day decision making on the campus and define the kind of community every college and university should strive to be: (1) a purposeful community, (2) an open community, (3) a just community, (4) a disciplined community, (5) a caring community, and (6) a celebrative community. Appendices present detailed results of the 1989 national survey by the Carnegie Foundation that formed the basis for this report. The survey identified campus life issues of concern, as perceived by 382 responding institutions in the National Survey of College and University Presidents and 355 responding institutions in the 1989 National Survey of Chief Student Affairs Officers by the American Council on Education and the National Association of Student Personnel Administrators. The survey also analyzed views on improving campus life, actions likely to improve campus life, and changes over 5

years in specific problem areas. Reference notes accompany each chapter.

Brian Abasciano continues his project examining the use of the Old Testament in Romans 9. Abasciano builds upon his forthcoming LNTS volume Paul's Use of the Old Testament in Romans 9.1-9, continuing the project begun in that volume and its intertextual methodology. This method incorporates into a thorough traditional exegesis a comprehensive analysis of Paul's use of Scripture against the background of interpretive traditions surrounding the texts alluded to, with great emphasis placed on analyzing the original contexts of Paul's citations and allusions. Such an intertextual exegesis is conducted in Romans 9:10-33 with an awareness of the broader unit of chapters 9-11 especially, and also the epistle as a whole. Conclusions for the meaning of these passages and their theological significance are drawn. Formerly the Journal for the Study of the New Testament Supplement, this is a book series that explores the many aspects of New Testament study including historical perspectives, social-scientific and literary theory, and theological, cultural and contextual approaches. The Early Christianity in Context series, a part of JSNTS , examines the birth and development of early Christianity up to the end of the third century CE. The series places Christianity in its social, cultural, political and economic context. European Seminar on Christian Origins and Journal for the Study of the Historical Jesus Supplement are also part of JSNTS .

The History of the Negro Church Simon and Schuster
At 2.26 million, incarcerated Americans not only outnumber the nation's fourth-largest city, they make up a national constituency bound by a shared condition. Fourth City: Essays from the Prison in America presents more than seventy essays from twenty-seven states, written by incarcerated Americans chronicling their experience inside. In essays as moving as they are eloquent, the authors speak out against a national prison complex that fails so badly at the task of rehabilitation that 60% of the 650,000 Americans released each year return to prison. These essays document the authors' efforts at self-help, the institutional resistance such efforts meet at nearly every turn, and the impact, in money and lives, that this resistance has on the public. Directly confronting the images of prisons and prisoners manufactured by popular media, so-called reality TV, and for-profit local and national news sources, Fourth City recognizes American prisoners as our primary, frontline witnesses to the dysfunction of the largest prison system on earth. Filled with deeply personal stories of coping, survival, resistance, and transformation, Fourth City should be read by every American who believes that law should achieve order in the cause of justice rather than at its cost.

The Paranoid Style in American Politics Bloomsbury Publishing
In 1932, the U.S. Public Health Service recruited 623 African American men from Macon County, Alabama, for a study of "the effects of untreated syphilis in the Negro male." For the next 40 years -- even after the development of penicillin, the cure for syphilis -- these men were denied medical care for this potentially fatal disease. The Tuskegee Syphilis Study was exposed in 1972, and in 1975 the government settled a lawsuit but stopped short of admitting wrongdoing. In 1997, President Bill Clinton welcomed five of the Study survivors to the White House and, on behalf of the nation, officially apologized for an experiment he described as wrongful and racist. In this book, the attorney for the men, Fred D. Gray, describes the background of the Study, the investigation and the lawsuit, the events leading up to the Presidential apology, and the ongoing efforts to see that out of this painful and tragic episode of American history comes lasting good.

"A penetrating reconstruction of the most disturbing and crucial slave uprising in America's history." —New York Times The definitive account of the most infamous slave rebellion in history and the aftermath that brought America one step closer to civil war—newly reissued to include the text of the original 1831 court document "The Confessions of Nat Turner" The fierce slave rebellion led by Nat Turner in Virginia in 1831 and the savage reprisals that followed shattered beyond repair the myth of the contented slave and the benign master, and intensified the forces of change that would plunge America into the bloodbath of the Civil War. Stephen B. Oates, the celebrated biographer of Abraham Lincoln and Martin Luther King, Jr., presents a gripping and insightful narrative of the rebellion—the complex, gifted, and driven man who led it, the social conditions that produced it, and the legacy it left. A classic, here is the dramatic re-creation of the turbulent period that marked a crucial turning point in America's history.

In the humanist tradition of such well-known practitioners in adult education as Malcolm Knowles, Daloz affirms the act of teaching as more an art than a science. Through the use of literary analogies and vignettes from student interviews, he builds a strong case for mentoring, saying that "it is the partnership of teacher and student that finally determines the value of education." Describing the mentor's task as supporting, challenging, and providing vision for the adult learner, Daloz shows how complex this task can be, taking into account the individual personalities of mentor and student and the pressures of the environment.
